Alternative Teacher Certification C. Emily Feistritzer,David T. Chester,1996 Research on Effective Models for Teacher Education D . John McIntyre,David M. Byrd,2000-02-03 This yearbook addresses the nation s pressing need to train and retain good teachers as it explores exemplary practices in teacher education Areas of critical concern include enhancing professional development methods for improving teaching and learning transformations through mentoring and social interaction and effective models for alternative programs in teacher education **Teacher Certification and the Professional Status of Teaching in North America** Peter P. Grimmett,Jon C. Young,Claude Lessard,2012-12-01 This book locates recent developments in teacher certification in North America within a broader international policy context characterized as hegemonic neo liberalism wherein economic rationalism has begun to trump professional judgment We focus on teacher certification because it addresses fundamental questions about who will teach what are the required minimum levels of competence and who will make those decisions Such questions are central to teaching constituting a new battleground for education in North America Two ideas economic rationalism and professionalization have become pivotal to education policy Economic rationalism finds its expression in a free market ideology Professionalization has two meanings professionalizing the practice of teaching constructing a professional knowledge base and professionalizing the status of teaching through links with universities and self regulation These ideas contestation varies by setting In the USA neo liberalism has attacked professional knowledge questioning its scientific veracity Professionalization advocates claim that the neo liberalist aim is to undermine teaching as a profession In Canada neo liberalist critics are heard but have limited impact on policy Professionalization has emphasized teachers pedagogical development and a valuing of the field s input into teacher preparation Neo liberalist economic rationalism plays itself out overtly in the USA as de regulation in Canada it lies embedded within labor mobility agreements In the USA professionalization highlights professionalism in practice in Canada the governance of teaching This book explores how economic rationalism is using labor mobility agreements in Canada as a covert operation analogous to de regulation in the USA to assert its dominance in the battle to de professionalize teaching in North America Resources in Education ,1999 **Alternative Teacher Certification** C.
