

FIGURE C-7 Hornet/WAM.

submunition or sublet with an infrared sensor is launched over the target and fires an explosively formed projectile down into the engine compartment. The Hornet/WAMs has an antihandling feature that causes the mine to detonate when disturbed. The Hornet/WAMS is designed to operate for 30 days after emplacement and to then self-destruct. The sublet is similar to the sublets in the Air Force Sensor-Fuzed Weapon. Original plans called for the Hornet/WAM to be dispensed from a Volcano launcher or a deep-attack asset, such as the Multiple-Launch Rocket System (MLRS) or the Tactical Missile System (TACMS), in addition to hand emplacement. However, subsequent evolutions of requirements

and the exigencies of the development program have precluded these options. Therefore, for the foreseeable future, Hornet/WAM will be hand emplaced, which sharply limits its utility.

Remotely Delivered (Scatterable) Mines

The Remote Antiarmor Mine System (RAAMS) (Figure C-8) consists of a 155-mm howitzer projectile containing nine AT mines. RAAMS is usually used with the ADAM, but can be used alone. Each mine in the projectile is a right-circular cylinder, 11.25 cm in diameter and 7.5 cm high, weighing 1.8 kg and containing about 0.78 kg of pressed explosive in the main charge. RAAMS have factory-set self-destruct times of either 4 or 48 hours. About 20 percent have an antihandling feature that causes them to explode when tilted at an angle of 17 degrees or more. RAAMS are designed to destroy mounted targets by perforating the underside of the vehicle. The mines have magnetic-influence fuzes designed to stop mounted vehicles when they are detonated, as intended, between the tracks; if they are detonated directly under a track, they may not stop the vehicle.

The Ground-Emplaced Mine-Scattering System (GEMSS/Flipper) was the first scatterable mine system fielded by the Army (RAAMS/ADAM was the second). Although GEMSS (Figure C-9) is now obsolete, the mines are still in the U.S. inventory. The GEMSS dispenser is a large trailer that can be towed by a variety of wheeled and tracked vehicles. A relatively large tactical minefield can be laid in areas controlled by friendly forces. The dispenser holds 800 mines and can lay mines in 26, 34, or 60-meter wide strips in five different densities. The mines come in sleeves of five mines each. The operator sets self-destruct times at either 5 or 15 days. Because the system is unwieldy to tow and operators were vulnerable to small arms fire, the utility of the system was limited. Flipper is a relatively small,

Alternative Technologies To Replace Antipersonnel Landmines

Thomas Griffiths

Alternative Technologies To Replace Antipersonnel Landmines:

Alternative Technologies to Replace Antipersonnel Landmines National Research Council, Division on Engineering and Physical Sciences, Office of International Affairs, Commission on Engineering and Technical Systems, Committee on Alternative Technologies to Replace Antipersonnel Landmines, 2001-04-21 This book examines potential technologies for replacing antipersonnel landmines by 2006 the U S target date for signing an international treaty banning these weapons Alternative Technologies to Replace Antipersonnel Landmines emphasizes the role that technology can play to allow certain weapons to be used more selectively reducing the danger to uninvolved civilians while improving the effectiveness of the U S military Landmines are an important weapon in the U S military s arsenal but the persistent variety can cause unintended casualties to both civilians and friendly forces New technologies could replace some but not all of the U S military s antipersonnel landmines by 2006 In the period following 2006 emerging technologies might eliminate the landmine totally while retaining the necessary functionalities that today s mines provide to the military *Alternative Technologies to Replace Antipersonnel Landmines* National Research Council (États-Unis). Committee on Alternative Technologies to Replace Antipersonnel Landmines, 2001 **Alternative Technologies to Replace Antipersonnel Landmines** , 2001

Landmine Monitor Report 2001 Human Rights Watch (Organization), 2001 **Anti-Personnel Mines under Humanitarian Law : A View from the Vanishing Point** Stuart Maslen, 2021-10-25 Anti Personnel Mines under Humanitarian Law A View From the Vanishing Point considers in depth the various customary and conventional legal regimes applicable to the use of anti personnel mines All involved with the global effort to control and eliminate anti personnel mines as well as the policy makers who are concerned about the devastation resulting from the widespread deployment of these arbitrary weapons need to familiarize themselves with the information presented in this timely volume Published under the Transnational Publishers imprint *Landmines and Human Security* Richard A. Matthew, Bryan McDonald, Kenneth R. Rutherford, 2012-02-01 An impressive array of activists scholars government officials journalists and landmine victims themselves are gathered here to tell the dramatic and inspiring story of the International Campaign to Ban Landmines ICBL Organized in the early 1990s the ICBL is a network of more than one thousand nongovernmental organizations worldwide working for a global ban on landmines It was an important force behind the treaty to ban antipersonnel landmines that was signed in Ottawa in 1997 and which led to its being awarded the 1997 Nobel Peace Prize along with its coordinator Military Law Review , *Norms Without the Great Powers* Adam Bower, 2017 This book explores the nature of power in world politics and the particular role that law plays in defining the meaning and deployment of power in the international system **Negotiating Minefields** Leon V. Sigal, 2013-05-13 Against all odds the International Campaign to Ban Landmines helped to enact a global treaty banning antipersonnel mines in 1997 For that achievement it was awarded the Nobel Peace Prize In this volume Leon Sigal shows how a handful of NGOs with almost no

mass base got more than 100 countries to outlaw a weapon that their armies had long used It is a story of intrigue and misperception of clashing norms and interests of contentious bureaucratic and domestic politics It is also a story of effective leadership of sustained commitment to a cause of alliances between campaigners and government officials of a US senator who championed the ban and of the skilful use of the news media Despite this monumental effort the campaign failed to get the United States to sign the treaty Drawing on extensive internal documents and interviews with US officials and ban campaigners Sigal tells the story of the in fighting inside the Clinton administration in the Pentagon and within the ban campaign itself that led to this major setback for an otherwise unprecedented successful global effort Negotiating Minefields will be of interest to students and scholars of military and strategic studies and politics and international relations

Norm Dynamics in Multilateral Arms Control Harald Müller, Carmen Wunderlich, 2013-04-01 This volume comprehensively covers a range of issues related to dynamic norm change in the current major international arms control regimes related to nuclear biological and chemical weapons small arms and light weapons cluster munitions and antipersonnel mines Arms control policies of all of the key established and rising state actors are considered as well as those of nonaligned countries nongovernmental organizations and international governing bodies Recent studies on multilateral arms control tend to focus mostly on structure by which opportunities and constraints for action are created This volume pays equal attention to agency through which opportunities and constraints to produce change or maintain the status quo are handled In addition and in greater depth than in recent studies the volume acknowledges the force of moral and ethical impulses alongside such factors as political legal and technological change in the evolution of arms control norms The volume begins with a look at the structure of regimes at the conflicts residing in these structures and at the dynamic processes in which these conflicts are worked out The impact of extrinsic factors on norm dynamics is considered next including technological change and shifts in attitudes and power structures Essays on the role of agency in driving norm change conclude the volume with a particular focus on norm entrepreneurship and the importance of acknowledging the competing justice claims surrounding norm change efforts Contributors Una Becker Jakob Alexis Below Marco Fey Giorgio Franceschini Andrea Hellmann Gregor Hofmann Friederike Klinke Daniel M ller Harald M ller Franziska Pl mmer Carsten Rauch Judith Reuter Elvira Rosert Annette Schaper Hans Joachim Schmidt Tabea Seidler Diekmann Simone Wisotzki Carmen Wunderlich

Avoiding Technology Surprise for Tomorrow's Warfighter National Research Council, Division on Engineering and Physical Sciences, Committee for the Symposium on Avoiding Technology Surprise for Tomorrow's Warfighterâ→"2010, 2010-12-30 The Symposium on Avoiding Technology Surprise for Tomorrow's Warfighter is a forum for consumers and producers of scientific and technical intelligence to exchange perspectives on the potential sources of emerging or disruptive technologies and behaviors with the goal of improving the Department of Defense's technological warning capability This volume summarizes

the key themes identified in the second and most recent symposium a two day event held in Suffolk Virginia on April 28 and 29 2010 The symposium combined presentations highlighting cutting edge technology topics with facilitated discourse among all participants Three categories of surprise were identified breakthroughs in product and process technology new uses of existing technology and the unexpectedly rapid progression of a technology to operational use The incorporation of an adversary's own culture history beliefs and value systems into analyses also emerged in discussions as an important factor in reducing surprise

Naval Mine Warfare National Research Council, Division on Engineering and Physical Sciences, Naval Studies Board, Committee for Mine Warfare Assessment, 2001-09-19 Sea mines have been important in naval warfare throughout history and continue to be so today They have caused major damage to naval forces slowed or stopped naval actions and commercial shipping and forced the alteration of strategic and tactical plans The threat posed by sea mines continues and is increasing in today's world of inexpensive advanced electronics nanotechnology and multiple potential enemies some of which are difficult to identify This report assesses the Department of the Navy's capabilities for conducting naval mining and countermining sea operations

Big Data National Research Council, Division on Engineering and Physical Sciences, Committee for Science and Technology Challenges to U.S. National Security Interests, 2012-12-07 In 2012 the Defense Intelligence Agency DIA approached the National Research Council's TIGER standing committee and asked it to develop a list of workshop topics to explore the impact of emerging science and technology From the list of topics given to DIA three were chosen to be developed by the Committee for Science and Technology Challenges to U.S. National Security Interests The first in a series of three workshops was held on April 23-24 2012 This report summarizes that first workshop which explored the phenomenon known as big data The objective for the first workshop is given in the statement of task which explains that that workshop will review emerging capabilities in large computational data to include speed data fusion use and commodification of data used in decision making The workshop will also review the subsequent increase in vulnerabilities over the capabilities gained and the significance to national security The committee devised an agenda that helped the committee sponsors and workshop attendees probe issues of national security related to so called big data as well as gain understanding of potential related vulnerabilities The workshop was used to gather data that is described in this report which presents views expressed by individual workshop participants Big Data A Workshop Report is the first in a series of three workshops held in early 2012 to further the ongoing engagement among the National Research Council's NRC's Technology Insight Gauge Evaluate and Review TIGER Standing Committee the scientific and technical intelligence S TI community and the consumers of S TI products

Summary of a Workshop on the Future of Antennas Division on Engineering and Physical Sciences, National Research Council, 2012-11-07 The Workshop on the Future of Antennas was the second of three workshops conducted by the National Research Council's Committee for Science and Technology Challenges to U.S. National Security Interests The objectives of the workshop were to review trends in advanced antenna research and

design review trends in commercials and military use of advanced antennas that enable improved communication data transfer soldier health monitoring and other overt and covert methods of standoff data collection The first day s sessions consisting of five presentations and discussions on antennas and wireless communications and control were open to committee members staff guests and members of the public The second day was a data gathering session addressing vulnerabilities indicators and observables presentations and discussions during this session included classified material and were not open to the public The committee s role was limited to planning and convening the workshop This report is organized by topic in the order of presentation and discussion at the workshop For Day 1 the topics were Future of Antennas Commercial State of the Art of Wireless Communications and Control Military State of the Art of Wireless Communications and Control and Future Trends in Antenna Design and Wireless Communications and Control For Day 2 the topics were Vulnerabilities of Ubiquitous Antennas and Indicators and Observables followed by a wrap up discussion Summary of a Workshop on the Future of Antennas describes what happened at the workshop *Landmine Monitor Report 2003*, 2003

Disarming States Kenneth R. Rutherford, 2010-12-07 This book provides a detailed history of the global movement to ban anti personnel landmines APL marking the first case of a successful worldwide civil society movement to end the use of an entire category of weapons In March 1995 Belgium became the first state to pass a domestic anti personnel landmine ban In December 1997 122 states joined Belgium in signing the comprehensive Mine Ban Treaty also known as the Ottawa Treaty The movement to ban landmines became a turning point in global politics that continues to influence policy and strategy decisions regarding weapon use today Disarming States The International Movement to Ban Landmines describes how non government organizations NGOs brought the landmine issue to international attention by forming the International Campaign to Ban Landmines ICBL The author presents new information gleaned from interviews and intensive research conducted around the world The critical role of mid size states such as Austria Canada and Switzerland recruited to back the movement s goals is examined The book concludes by examining how NGOs affect the international political agenda especially in seeking legal prohibitions on weapons and changes in states behaviors Making Appropriations for the Department of Defense for the Fiscal Year Ending September 30, 1999, and for Other Purposes United States. Congress, 1998 United States Human Rights Watch (Organization), 2000

Alternative Technologies To Replace Antipersonnel Landmines Introduction

In today's digital age, the availability of Alternative Technologies To Replace Antipersonnel Landmines books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Alternative Technologies To Replace Antipersonnel Landmines books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Alternative Technologies To Replace Antipersonnel Landmines books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Alternative Technologies To Replace Antipersonnel Landmines versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Alternative Technologies To Replace Antipersonnel Landmines books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Alternative Technologies To Replace Antipersonnel Landmines books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Alternative Technologies To Replace Antipersonnel Landmines books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a nonprofit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts

Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Alternative Technologies To Replace Antipersonnel Landmines books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Alternative Technologies To Replace Antipersonnel Landmines books and manuals for download and embark on your journey of knowledge?

FAQs About Alternative Technologies To Replace Antipersonnel Landmines Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Alternative Technologies To Replace Antipersonnel Landmines is one of the best book in our library for free trial. We provide copy of Alternative Technologies To Replace Antipersonnel Landmines in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Alternative Technologies To Replace Antipersonnel Landmines. Where to download Alternative Technologies To Replace Antipersonnel Landmines online for free? Are you looking for Alternative Technologies To Replace Antipersonnel Landmines PDF? This is definitely going to save you time and cash in something you should think about.
