In the Shadow of "Savage Wolves" Sigrun Haude, 2022-01-10 This book examines the multifaceted reactions of political and religious leaders to the Anabaptist reign in Münster 1534-1535 It takes as its point of departure Protestant Strasbourg Catholic Cologne as well as the Rhineland and then broadens the perspective to imperial estates and the empire The author analyzes the representations of the Münsterites and juxtaposes the fierce language with the actions that were taken to eliminate the Anabaptist menace at home and in Münster The book is particularly important for scholars of Catholic Reform of the empire and of confessionalization of Cologne and Strasbourg and of Anabaptism

Protecting the Fatherland: Lawsuits and Political Debates in Jülich, Hesse-Cassel and Brittany (1642-1655) Christel Annemieke Romein, 2021-10-08 This open access book presents a comparative analysis of the use of fatherland terminology in a political and legal context in Jülich Hesse Cassel and Brittany from 1642 to 1655 Fatherland terminology includes words such as patria patriot and nation In historiography the use of these words by the nobility is often interpreted as an early sign of nationalism that conflicted with the prince's initiation of state building The book argues that neither states nor nationalism truly existed yet rather the political arena was dominated by dynasties Further it rejects the notion of deliberate state building and demonstrates that the nobility used this terminology to object to princely politics as part of adopting a presupposed office This status allowed the nobility to place itself outside the ruler-subject constellation and critique the situation The Duchy of Jülich and the Landgraviate of Hesse Cassel are used as examples of small economies of scale with homogenous nobilities and ones where the Thirty Years War hit hard which led to the illegal levying of taxes and the billeting of soldiers and in turn to the nobility critiquing princely politics In contrast the Duchy of Brittany with its large economy of scale and heterogeneous nobility found an alternative way of pursuing its interests and keeping taxes as low as possible The goal of this book is to discuss and present three representative cases that offer insights into how the nobility safeguarded the welfare and prosperity of the fatherland and its inhabitants

Image and Ornament in the Early Medieval West Matthias Friedrich, 2023-03-16 Scholarship often treats the post-Roman art produced in central and north-western Europe as representative of the pagan identities of the new Germanic rulers of the early medieval world In this book Matthias Friedrich offers a critical reevaluation of the ethnic and religious categories of art that still inform our understanding of early medieval art and archaeology He scrutinises early medieval visual culture by combining archaeological approaches with art-historical methods based on contemporary theory Friedrich examines the transformation of Roman imperial images together with the
