Comte Early Political Writings

Niccolo Machiavelli

Comte Early Political Writings:

Comte: Early Political Writings Auguste Comte, 1998-11-05 The French philosopher Auguste Comte 1798 1857 is generally acknowledged as one of the founding fathers of sociology and one of the most influential grand theorists of the nineteenth century This edition of his early essays from the 1820s is based on a new translation and aims to make his ideas and the development of his thought accessible to modern readers A comprehensive introduction establishes the historical significance of Comte's work and shows how his ideas emerged from the rich intellectual turmoil of post revolutionary France

Comte: Early Political Writings Auguste Comte, 1998-11-05 This book provides translations of Auguste Comte's early writings with scholarly apparatus placing Comte in his historical context **William Penn: Political Writings** William Penn, 2020-12-10 A fully annotated scholarly edition of the political writings of William Penn 1644 1718 an influential theorist of liberty of conscience Catharine Macaulay: Political Writings Catharine Macaulay, 2023-03-02 The writings of

republican historian and political pamphleteer Catharine Macaulay 1731 91 played a central role in debates about political reform in the Age of Enlightenment and Revolution A critical reader of Hume's bestselling History of England she broke new ground in historiography by defending the regicide of Charles I and became an inspiration for many luminaries of the American and French revolutions While her historical and political works engaged with thinkers from Hobbes and Locke to Bolingbroke and Burke she also wrote about religion philosophy education and animal rights Influencing Wollstonecraft and proto feminism she argued that there were no moral differences between men and women and that boys and girls should receive the same education This book is the first scholarly edition of Catharine Macaulay's published writings and includes all her known pamphlets along with extensive selections from her longer historical and political works *Writing History in the Third Republic* Isabel Noronha-DiVanna, 2010-02-19 Writing History in the Third Republic offers new insight to the historiographical output of French historians between 1860 and 1914 a period often referred to as of positivistic historians or the *cole m thodique* Asserting their independence from Germanic influence by emphasising the French element in their work historians in the period described their approach as methodical and positivistic and maintained that this was a distinctively French way of studying history A heightened concern with sources with facts as basis for all true knowledge and with truth itself were unifying elements of the historiography of those historians now called *cole m thodique* The *cole* represented the most sophisticated theoretical considerations about history and a method for historical studies in French academia in the late nineteenth century The purpose of this book is to reassess whether or not this school is legitimately to be seen as having emerged in the Third Republic in response to political developments of nineteenth century France or if the so called *m thodiques* share more in terms of philosophy of history and methodology than previously emphasized by scholars This book contributes to the debate surrounding the role of history and its method offering a counter argument to postmodernist scholars while reassessing the contribution of twentieth century theorists of history to the history of historiography *King*

James VI and I: Political Writings King James VI and I, 1995-01-12 James VI and I united the crowns of England and Scotland His books are fundamental sources of the principles which underlay the union In particular his *Basilikon Doron* was a best seller in England and circulated widely on the Continent Among the most important and influential British writings of their period the king's works shed light on the political climate of Shakespeare's England and the intellectual background to the civil wars which afflicted Britain in the mid seventeenth century James political philosophy was a moderated absolutism with an emphasis on the monarch's duty to rule according to law and the public good Locke quoted his speech to parliament of 1610 approvingly and Hobbes likewise praised our most wise king This edition is the first to draw on all the early texts of James books with an introduction setting them in their historical context **Marx: Later Political Writings** Karl Marx, 1996-01-18 Marx *Later Political Writings* first published in 1996 brings together translations of Marx's most important texts in political philosophy written after 1848 Marx challenged political theory to its very fundamentals as his works do not follow traditional models for exploring politics theoretically In his introduction Terrell Carver situates Marx in a politics of democratic constitutionalism and revolutionary communism The works are presented here complete according to the first editions or the earliest manuscript state and include the Manifesto of the Communist Party the Preface of 1859 to *A Contribution to the Critique of Political Economy* *The Civil War in France* and the little known *Notes on Adolph Wagner* More than most political theorists Marx made contemporary politics the focus for his theoretical work He created a distinctive kind of political theory and this volume makes it accessible today *Auguste Comte and John Stuart Mill on Sexual Equality* Vincent Guillin, 2009 Drawing on a detailed analysis of their correspondence this book offers a new interpretation of the relation between Auguste Comte and John Stuart Mill which focuses on their controversy over sexual equality *Beccaria: 'On Crimes and Punishments' and Other Writings* Cesare Marchese di Beccaria, 1995-04-13 This edition of Beccaria's *On Crimes and Punishments* and other writings presents an interpretation of his thought Drawing on Italian scholarship Richard Bellamy shows how Beccaria wove together the various political languages of the Enlightenment into a novel synthesis and argues that his political philosophy often regarded as no more than a precursor of Bentham's combines republican contractarian romantic and liberal as well as utilitarian themes The result is a complex theory of punishment that derives from a sophisticated analysis of the role of the state and the nature of human motivation in commercial society The translation used in this edition is based on the fifth Italian edition and provides English speaking readers with Beccaria's own order of his text for the first time A number of pieces from his writings on political economy and the history of civilisation which were not previously available in English are also included **Fichte: Addresses to the German Nation** Gregory Moore, 2009-01-08 This is the first translation of Fichte's addresses to the German nation for almost 100 years The series of 14 speeches delivered whilst Berlin was under French occupation after Prussia's disastrous defeat at the Battle of Jena in 1806 is widely regarded as a founding document of German nationalism celebrated and reviled in equal measure Fichte's

account of the distinctiveness of the German people and his belief in the native superiority of its culture helped to shape German national identity throughout the nineteenth century and beyond With an extensive introduction that puts Fichte's argument in its intellectual and historical context this edition brings an important and seminal work to a modern readership All of the usual series features are provided including notes for further reading chronology and brief biographies of key individuals

The Book of the Body Politic Christine (de Pisan), 1994-09-15 Christine de Pisan was born in Venice and raised in Paris at the court of Charles V of France Widowed at the age of twenty five she turned to writing as a source of comfort and income and went on to produce a remarkable series of books including poetry politics chivalry warfare religion and philosophy She is considered to be France's first female professional writer This was the first translation into modern English of Christine de Pisan's major political work *The Book of the Body Politic* Written during the Hundred Years War it discusses the education and behaviour appropriate for princes nobility and common people so that all classes can understand their responsibilities towards society as a whole A product of a time of civil unrest *The Book of the Body Politic* offers a medieval political theory of interdependence and social responsibility from the perspective of an educated woman

Ferguson: An Essay on the History of Civil Society Adam Ferguson, 1995 Adam Ferguson's *Essay on the History of Civil Society* first published in 1767 is a classic of the Scottish and European Enlightenment Drawing on such diverse sources as classical authors and contemporary travel literature Ferguson offers a complex model of historical advance which challenges both Hume's and Smith's embrace of modernity and the primitivism of Rousseau Ferguson combines a subtle analysis of the emergence of modern commercial society with a critique of its abandonment of civic and communal virtues Central to Ferguson's theory of citizenship are the themes of conflict play political participation and military valour The *Essay* is a bold and novel attempt to reclaim the tradition of active virtuous citizenship and apply it to the modern state

Filmer: 'Patriarcha' and Other Writings Robert Filmer, 1991-02-21 In seventeenth century England patriarchalist thinking shaped English ideas not only about the family but also about society and the state Many thinkers argued that the state should be seen as a family and that the king held the powers of a father over his subjects The classic texts of patriarchal political thinking were written by Sir Robert Filmer 1588-1653 one of the most acute defenders of absolute monarchy In addition to presenting his own patriarchalist theory Filmer's works contain incisive attacks on democratic thinking and on the notion that political obligation stems from a contract between ruler and ruled His political works are here edited from the original manuscript and printed sources with an introduction which locates Filmer's ideas in their historical and ideological contexts These texts to which John Locke replied in his influential *Two Treatises of Government* provide highly important documents for the understanding of political and social ideas at a decisive stage in the development of English attitudes

Brill's Companion to Anarchism and Philosophy Nathan J. Jun, 2017-09-25 Despite the recent proliferation of scholarship on anarchism very little attention has been paid to the historical and theoretical relationship between anarchism and philosophy

Seeking to fill this void Brill's Companion to Anarchism and Philosophy draws upon the combined expertise of several top scholars to provide a broad thematic overview of the various ways anarchism and philosophy have intersected. Each of its 18 chapters adopts a self-consciously inventive approach to its subject matter, examining anarchism's relation to other philosophical theories and systems within the Western intellectual tradition as well as specific philosophical topics, subdisciplines, and methodological tendencies.

On Sovereignty Jean Bodin, 1992. Contains four chapters from Jean Bodin's classic text *Six Livres de la Republique*. These chapters form the core of the work detailing Bodin's theory of sovereignty, which contended that the entire power of the state should be vested in a single individual or group.

Knox: On Rebellion John Knox, 1994-01-20. John Knox's *First Blast of the Trumpet against the Monstrous Regiment of Women*, one of the most notorious political tracts of the sixteenth century, has been more often referred to than read. Its true significance as one of a series of pamphlets which Knox wrote in 1558 on the theme of rebellion is therefore easily overlooked. This new edition of his writings includes not only *The First Blast* but the three other tracts of 1558: *The Letter to the Regent of Scotland*, *The Appellation to the Scottish Nobility*, and *The Letter to the Commonalty of Scotland*, in which Knox confronted the problem of resistance to tyranny. Related material, mostly drawn from Knox's own *History of the Reformation in Scotland*, illuminates the development of his views before 1558 and illustrates their application in the specific circumstances of the Scottish Reformation and the rule of Mary Queen of Scots. This edition thus brings together for the first time all of Knox's most important writings on rebellion.

Dante: Monarchy Dante Alighieri, 1996-05-30. This book, first published in 1996, is a translation of a fascinating work by one of the world's great poets.

Machiavelli: The Prince Niccolò Machiavelli, 1988-10-28. Professor Skinner presents a lucid analysis of Machiavelli's text as a response to the world of Florentine politics.

Culture and Anarchy and Other Writings Matthew Arnold, 1993. First published in 1869, this celebrated work of social criticism is the reference point for all discussion of the relations between politics and culture.

Nietzsche: 'On the Genealogy of Morality' and Other Writings Friedrich Nietzsche, 1994-06-24. Friedrich Nietzsche is one of the most influential thinkers of the past hundred and fifty years, and *On the Genealogy of Morality* (1887) is his most important work on morality. A polemical contribution to moral and political theory, it offers a critique of moral values and traces the historical evolution of concepts such as guilt, conscience, responsibility, law, and justice. It is a text affording valuable insight into Nietzsche's assessment of modern times and how he envisaged a possible overcoming of the epoch of nihilism. Nietzsche himself emphasised the cumulative nature of his work and the necessity for correct understanding of the later as a development of the earlier. This volume contains new translations of the *Genealogy* and of *The Greek State*, and sections from other of Nietzsche's work to which he refers within it: *Human, All Too Human*, *Daybreak*, *The Joyful Science*, and *Beyond Good and Evil*.
