Concept Of Freedom Krishnamurti:

Concept of Freedom Ambika Sharma, 2001-05 The book contains quite comprehensively Jiddu Krishnamurti's philosophical ideas on human freedom Like Buddha and Christ Krishnamurti also possessed great love for human beings Therefore he showed a great concern for human plight He lived for more than ninety years during which he talked, discoursed and lectured at different places in various countries for almost sixty years His main concern in those talks was to enlighten man about the impediments that didn't allow him to achieve freedom As a philosopher Krishnamurti's position is quite unique He develops neither any new philosophical canons nor believes in any kind of practices which would help man to attain freedom gradually He holds that man can reach the domain of freedom at once provided he keeps his mind free from every kind of thoughts The thoughtless state of mind is the state of a meditative mind It is also the state of a silent mind In a most simple and convincing language Krishnamurti reasserts the importance of the ancient precept know thyself and advises us to seek liberation by acquiring the right knowledge which is the knowledge of one's own self Those who love philosophy and wish to acquaint themselves with Krishnamurti's views on human freedom will find this book very interesting

Krishnamurti Ambika Prasad Sharma, Jiddu Krishnamurti, 1993-01-01 Life in Freedom J. Krishnamurti, 2013-10 This is a new release of the original 1928 edition *J. Krishnamurti* Meenakshi Thapan, 2022-06-01 Teacher, thinker, writer and speaker J Krishnamurti 1895-1986 was an Indian educationist, spiritual leader and key figure in world philosophy He raised significant questions about the state of the world about our tendency to remain passive, conditioned and in a state of overwhelming confusion about how we relate to the world Through talks and writings spread over many decades and geographical locations he articulated an unconditioned reflective approach which emphasised self-inquiry This volume provides an understanding of Krishnamurti's views on the human predicament in a disintegrating world marked by conflict, divisions, wars and climate change It also examines his educational thought and its enormous potential for change Krishnamurti argued that our minds are so conditioned that we are unable to look, listen or learn without our prior knowledge that foregrounds the role of memory and time He highlighted the need to work with young children with a special focus on the school as the centrepiece of his perception for psychological development and educational excellence It is within an educational setting that Krishnamurti hoped that the seeds for individual and social change will be catalysed An introspective look at the life and legacy of an eminent twentieth-century thinker this volume will be of great interest to students and researchers of philosophy, education, religion and spirituality, South Asia studies, modern history and the social sciences

J Krishnamurti Concepts of Freedom Meditation Love and Truth Karve Sushama, 2022-05-04 Introduction The prominent philosophical quests that have engaged man since ancient times besides knowing the world around him are attainment of Freedom Liberation Moksha and understanding the Truth Many great thinkers spiritual leaders religious heads gurus and various texts have discussed these at length in many ways Jiddu Krishnamurti 1895 1986 has also discussed these in his unique way the characteristic feature of his dialogues discussions and writings is a universal appeal Whatever he said was not confined to a particular class group or society or to followers of a particular school of philosophy He urged his listeners to understand the facts the ground reality of life before entering into any kind of serious contemplation Facts and thoughts merge beautifully in his reflections What is the present day condition of man and the world On the individual level his life is filled with stress feeling of insecurity fears of various kinds constant rush anxiety fierce competition etc and these are some of the marks of modern times These of course are followed by a deep desire to free him from these tense conditions On the social level we are facing fundamentalism terrorism violence ideological tensions Also environmental issues energy crisis crunch of natural resources and grave economic conditions are shadowing our lives Along with these globalization is knocking at the doors and we have to prepare for the possible changes that will come with it The whole world is coming together in some ways but the differences chasms created

due to class caste race religion nationalism etc are still strong On this background we need to understand man and the world in a different light J Krishnamurti provides this understanding which is holistic in nature and not one sided or fragmentary He has discussed various concepts like freedom love truth hatred death mind consciousness meditation time etc His dialogues and writings show that it is impossible to study one of them in isolation since they are all interconnected But keeping in mind the limitations of a thesis and the need of the hour I have chosen only four of them namely Freedom Meditation love and Truth According to him you can be free meditation helps you there and then there is love and understanding of truth
