

Concept Of The Avantgarde

John Russell O'Kane

Concept Of The Avantgarde:

Theory of the Avant-garde Peter Bürger, 1984 *The Concept of the Avant-garde: Explorations in Modernism* John Weightman, 1973 Globalizing the Avant-Garde David Ayers, Joana Cunha Leal, Benedikt Hjartarson, Margarida Brito Alves, 2024-12-16 How has the process of globalization shaped artistic practices on the one hand and art history and theory on the other The contributions in this volume approach this question from a range of perspectives taking into account the role of travel for example or practitioners increasing knowledge of other cultures art s increasing awareness of itself as existing on a global level literary translation the advance of technology and the ever changing grand narratives of art history As well as reflections on European avant gardes and neo avant gardes the collection features discussions of Japan Latin America Africa Asia and the Pacific As a whole the volume engages with broader current discourses about cultural globalization and features input from leading scholars around the world as well as some important novel interventions by early career researchers The authors not only make a major contribution to the evolution of avant garde studies but also offer valuable original points of view to art history and to the cultural theory of globalization more broadly *The Avant Garde* David Cottington, 2013-01-31 The avant garde is perhaps the most important and influential concept in the history of modern culture For over a hundred years it has governed critical and historical assessment of the quality and significance of an artist or a work of art in any medium if these have been judged to be avant garde then they have been worthy of consideration If not then by and large they have not and neither critics nor historians have paid them much attention In short modern art is and has been whatever the avant garde has made or has said it is But very little attempt has been made to explore why the avant garde carries so much authority or how it came to do so What is more the term remains a difficult one to define and is often used in a variety of ways What is the relation between the avant garde that is the social entity the club and avant garde qualities in a work of art or design or architecture or any other cultural product What does avant gardism mean Moreover now that contemporary art seems to have broken all taboos and is at the centre of a billion pound art market is there still an avant garde If so what is the point of it and who are the artists concerned In this Very Short Introduction David Cottington explores the concept of the avant garde and examines its wider context through the development of western modernity capitalist culture and the global impact of both ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable Film and Cultural Politics After the Avantgarde John Russell O'Kane, 1988 **Avant-Garde Film** Scott MacDonald, 1993-02-26 The past thirty years have seen the proliferation of forms of independent cinema that challenge the conventions of mass market commercial movies from within the movie theatre Avant Garde Film examines fifteen of the most suggestive and useful films from this film tradition The films discussed include

No 4 Bottoms by Yoko Ono Wavelength by Michael Snow Serene Velocity by Ernie Gehr Print Generation by J J Murphy Standard Gauge by Morgan Fisher Zorns Lemma by Hollis Frampton The Ties that Bind by Su Friedrich From the Pole to the Equator by Yervant Gianikian and The Carriage Trade by Warren Sonbert Through in depth readings of these works Scott MacDonald takes viewers on a critical circumnavigation of the conventions of movie going as seen by filmmakers who have rebelled against the conventions MacDonald s discussions do not merely analyse the films they provide a useful accessible jargon free critical apparatus for viewing avant garde film and communicate the author s pleasure in exploring impenetrable works The Concept of the Avant-garde in Twentieth and Twenty-first Century Architecture Stavroula Stergiou,2014

Dada's Manifestos and Peter Bürger's Theory of the Avant-garde Marco Hompes,2011 Essay from the year 2010 in the subject Art Art Theory General grade 8 5 University of Amsterdam Cultural Analysis course Art as an Institute and its Critique language English abstract 1 Introduction The avant garde intends the abolition of autonomous art by which it means that art is to be integrated into the praxis of life At least this is what Peter Bürger states in his groundbreaking book Theory of the Avant garde In the book Bürger gives some examples that shall acknowledge and prove his theory e g Ren Magritte or Marcel Duchamp It is clear that such examples need to stay eclectic in order to fit the developed theory In the following Bürger s text will be put to the acid test by analysing some avant garde works through the eyes of Peter Bürger and it shall be examined if specific programmatic avant gardist works go well with his theory The manifestos by the first Dadaists in Zürich seem to be extremely useful for this attempt Their productions haven t been canonised yet and have served as an example for further Dadaistic productions in Germany the USA the Netherlands Romania Georgia Poland etc They excessively produced manifestos and declared their ideals and plans However these declarations always remain a bit opaque as they avoid clear statements and explicitly write absurd In their works the Dadas often make statements and shortly afterwards reject them again Tristan Tzara s manifestos are great examples of this kind of text therefore this paper focuses on his writings but will consider manifestos by Walter Serner thoughts by Marcel Janco or Hugo Ball as well Can Theory of the Avant garde be a key to excerpt meaning from the Dadaistic text production or do the manifestos go beyond Bürger s theory or even prove him wrong **The Theory of the Avant-garde** Renato Poggioli,1968 Convinced that all aspects of modern culture have been affected by avant garde art Renato Poggioli explores the relationship between the avant garde and civilization Historical parallels and modern examples from all the arts are used to show how the avant garde is both symptom and cause of many major extra aesthetic trends of our time and that the contemporary avant garde is the sole and authentic one Trends in the Avant-garde Theatre of the United States During 1960's Samuel Larry Grossman,1974 *The Idea of the Avant Garde* Marc James Léger,2019-10-15 The concept of the avant garde is highly contested whether one consigns it to history or claims it for present day or future uses The first volume of The Idea of the Avant Garde And What It Means Today provided a lively forum on the kinds of radical art theory and partisan practices that are possible in today s world of global art markets and

creative industry entrepreneurialism This second volume presents the work of another 50 artists and writers exploring the diverse ways that avant gardism develops reflexive and experimental combinations of aesthetic and political praxis The manifest strategies temporalities and genealogies of avant garde art and politics are expressed through an international intergenerational and interdisciplinary convocation of ideas that covers the fields of film video architecture visual art art activism literature poetry theatre performance intermedia and music

The Concept of Modernism Ástráður Eysteinnsson,1990 The term modernism is central to any discussion of twentieth century literature and critical theory Astradur Eysteinnsson here maintains that the concept of modernism does not emerge directly from the literature it subsumes but is in fact a product of critical practices relating to nontraditional literature Intervening in these practices and correlating them with modernist works and with modern literary theory Eysteinnsson undertakes a comprehensive reexamination of the idea of modernism Eysteinnsson critically explores various manifestations of modernism in a rich array of American British and European literature criticism and theory He first examines many modernist paradigms detecting in them a conflict between modernism s culturally subversive potential and its relatively conservative status as a formalist project He then considers these paradigms as interpretations and fabrications of literary history Seen in this light modernism both signals a historical change on the literary scene and implies the context of that change Laden with the implications of tradition and modernity modernism fills its major function that of highlighting and defining the complex relations between history and postrealist literature Eysteinnsson focuses on the ways in which the concept of modernism directs our understanding of literature and literary history and influences our judgment of experimental and postrealist works in literature and art He discusses in detail the relation of modernism to the key concepts postmodernism the avant garde and realism Enacting a crisis of subject and reference modernism is not so much a form of discourse he asserts as its interruption a possible other modernity that reveals critical aspects of our social and linguistic experience in Western culture Comparatists literary theorists cultural historians and others interested in twentieth century literature and art will profit from this provocative book

Idea of the Avant Garde Marc James LEGER,2018-10-30 The concept of the avant garde is highly contested whether one consigns it to history or claims it for present day and future uses The first volume of *The Idea of the Avant Garde And What It Means Today* provided an unprecedented forum on the kinds of radical art theory and partisan practices that are possible in today s world of global art markets and creative industry entrepreneurialism This second volume presents the work of 50 artists and writers who explore the diverse ways that today s avant gardism renews the project of aesthetic and political praxis The manifest strategies temporalities and genealogies of avant gardism are expressed through an international intergenerational and interdisciplinary convocation of ideas that covers the fields of film video architecture visual art art activism literature poetry theatre performance music and intermedia

More than one hundred years after the eruption of Dada and fifty years after its loudly proclaimed death the spectre of the avant garde returns in renewed and vibrant forms This excellent collection gives an overview of just how and why a renewed experimental artistic politics is important Stephen Shukaitis author of *The Composition of Movements to Come Aesthetics and Cultural Labor After the Avant Garde* One hundred years after the October Revolution why does art continue to be meaningful in terms of ideological disruption that is in avant garde terms If you are looking to understand this question *The Idea of the Avant Garde* is the place to start Navigating the decade marked by the financial apocalypse of 2008 this volume introduces the twenty first century anti capitalist zeitgeist in no uncertain terms art reserves the right to not let us lose sight of what is wrong who is responsible and what it means to take sides Angela Dimitrakaki author of *Gender ArtWork* and the *Global Imperative A Materialist Feminist Critique* 80 illustrations *Der Bildhauer Ernst Barlach* Ernst Barlach, 2007

Jeff Wall Jeff Wall, Institute of Contemporary Arts, 1984 *The Marketing of an Avant-garde* Robert Wesley Jensen, 1987

The Avant-garde Tradition in Literature Richard Kostelanetz, 1982 This paradoxical title not only mocks the pretensions of Avant garde movements that claim to be entirely new but it also gives them the legitimacy of belonging to a long tradition of modernism The wide variety of essays collected here range from Northrop Frye on archetypes to Bob Cobbing on concrete poetry **Documenta 12 Magazine No 1-3 Reader** Heike Ander, Georg Schöllhammer, 2007 Good texts help us to understand more about what we see in this sense The Documenta 12 Magazine aims to provide background knowledge prior to the exhibition without restricting in any way the individual experience of viewing the artworks themselves The broadly conceived themes of Modernity Life and Education are in fact intended to increase our appetite for images because the significance of art lies within art itself in its ambiguity contrariness and stubborn independence This Sampler comprises all three issues of the printed magazine in book form
