Conceiving Histories Isabel Davis, 2025-09-02 A fascinating and beautifully illustrated account of trying to conceive in both the past and the present Inspired by the author's own experiences Conceiving Histories brings together history personal memoir and illustration to investigate the culturally hidden experience of trying to conceive In elegant engaging prose Isabel Davis explores the combination of myth fantasy science and pseudo science that the un reproductive body encounters in pursuit of a viable pregnancy The book chronicles the trying to conceive lifecycle arc from sex education at school through the desire to be a parent into the specifics of trying and struggling to conceive It also looks back at conception throughout history to open a new vista on what we live with today A central argument of Davis's is that historical people lived with the unknown just like we do but were more explicitly able to acknowledge it In an age of assistive reproductive technologies the act of embracing uncertainty seems difficult Although the topic of not conceiving is potentially painful this is not a grim book more than grief it is motivated by curiosity wonder compassion and even humor With 108 full color illustrations Conceiving Histories is also a beautiful material object an intentionally playful antidote and supplement to online search engines the resort of so many embroiled in fertility challenges
