The God of Covenant and Creation Larry S. Chapp,2013-05-01 According to Larry Chapp theology is left with two dire options in the aftermath of naturalism s apparent cultural triumph provide modernity with an intellectually cogent theological vision or perish along with that same culture in the wasteland of our nihilism Chapp s important book is grounds for hope that theology may live to see another day and that the pervasive nihilism may not have the last word He correctly diagnoses the intellectual and cultural dangers posed by so called scientific naturalism lifting the lid on its alleged metaphysical neutrality and exposing this naturalism for what it fundamentally is a bad theology which doesn t know itself And more importantly still he restores theology to its proper cosmological scope Not only does creation become intellectually compelling in Chapp s deft hands it elicits wonder and praise for its Creator and restores what is human in us This is a hopeful development indeed and a sign of an indispensable book Michael Hanby on back cover

Ontology and Providence in Creation Mark Ian Thomas Robson,2008-10-01 Examines and rejects a particular philosophical understanding of the processes of creation ex nihilo taking into account Leibniz s originating thesis and its development in the modern world **The Posen Library of Jewish Culture and Civilization, Volume 8** Todd M.

Endelman, Zvi Gitelman, Deborah Dash Moore, 2020-04-07 The eighth volume in a landmark series this anthology of Jewish culture and civilization encompasses the period between the world wars An anthology of Jewish culture between the world wars the editors selections convey the variety breadth and depth of Jewish creativity in those tempestuous decades Despite or perhaps because of external threats Jews fought vigorously over religion politics migration and their own relation to the state and to one another The texts translated from many languages span a wide range of politics culture literature and art This collection examines what was simultaneously a tense and innovative period in modern Jewish history **The History of Creation (Vol.1&2)** Ernst Haeckel, 2023-12-13 In The History of Creation Vol 1 2 Ernst Haeckel embarks on a meticulous exploration of biological evolution interweaving scientific inquiry with philosophical musings Written in the late 19th century this work exemplifies the burgeoning interest in natural sciences and the implications of Darwinian theory Haeckel s prose is characterized by its vivid imagery and accessible language which seeks to bridge the gap between complex scientific concepts and the general public He systematically discusses embryology zoology and paleontology emphasizing the interconnectedness of life and the principle of common descent mirroring the intellectual currents of the time while challenging prevailing theological views Ernst Haeckel a prominent German zoologist and philosopher was deeply influenced by Charles Darwin s ideas and his own extensive research in marine biology His dedication to the natural sciences and his fervent advocacy for a monistic worldview fueled his desire to elucidate the majestic tapestry of life through a scientific lens Throughout his career Haeckel sought to reconcile science and philosophy often positioning himself as a critical voice against religious orthodoxy The History of Creation is highly recommended for those intrigued by evolutionary biology philosophy of science or the historical context of scientific thought Haeckel s thorough exploration not only lays the groundwork for modern evolutionary studies but also serves as a testament to the intellectual fervor of its era inviting readers to ponder the profound connections that bind all forms of life *The Good Work of Non-Christians, Empowerment, and the New Creation* Stuart C. Weir, 2016-04-25 Have you ever considered the ultimate purposes and consequences of good work performed by non Christians Have you ever theologically considered the work of non Christians at all Is it possible that God would ever give credence to let alone honor the work of non Christians in an ultimate sense Are you frustrated by theologies of work that are entirely protological in orientation How do we make sense of biblical excerpts that talk of work being judged towards a particular outcome The Good Work of Non Christians Empowerment and the New Creation attempts to answer these questions in a manner that also challenges evangelical assumptions about the ultimate outcomes of working life Drawing strength from eschatologically minded theologies by Miroslav Volf and Darrell Cosden Weir seeks to replace protology with eschatology in a theology of work about non Christians The British evangelical tradition is specifically taken up here so as to make critical assessments of certain airtight theologies regarding human action with reference to the new creation This book attempts to create a heuristic against unhelpful hermeneutical tendencies that inform evangelical theologies This is a work

that is not only theological it is biblically historically and ethically rigorous

Creation, Nature and Hope in 4 Ezra Jonathan A. Moo, 2011-05-18 This exegetical study of creation and nature in 4 Ezra argues that this first century Jewish apocalypse's profound pessimism concerning humankind and the present age is matched by a surprisingly robust belief in the goodness of the created order 4 Ezra presents the natural world as standing with God over and against corrupt humankind envisions substantial elements of continuity between the ages and hints that those parts of the earth that remain unsullied by humankind still witness to God's sovereignty love and justice and even serve as material pointers to the new creation This study calls into question the persistent assumption that apocalypticism and the apocalyptic eschatology of the historical apocalypses in particular necessarily entails a profound dualism Emerging as it does from an experience of historical disaster and unresolved questions of theodicy 4 Ezra especially is often considered an apocalypse in which the doctrine of the two ages has been radicalised to the extent that creation history and life in this world have lost their meaning or significance The results of this study however indicate that while 4 Ezra considers the world of humankind to be corrupted and corrupting in the natural world the creator's sovereignty is not so obscured and there his original intentions for creation can still be perceived This study provides a fresh reading of 4 Ezra that takes seriously the book's unity and coherence Its conclusions suggest that it may be best to abandon the label apocalyptic eschatology given its potential mask the interesting complexities and mix of continuity and discontinuity that attend the portrayal of creation nature and hope in an apocalypse like 4 Ezra
