Concerning Sulphur:

The Hermetic and alchemical writings of Aureolus Philippus Theophrastus Bombast, of Hohenheim, called Paracelsus the Great Paracelsus, Arthur Edward Waite, 1894-01-01 *The hermetic and alchemical writings of Aureolus Philippus Theophrastus Bombast of Hohenheim, called Paracelsus the great*, 1894 **Abstracts of Current Decisions on Mines and Mining** Henry Deming Hibbard, Joseph Wesley Thompson, Robert Young Williams, Selby Smelter Commission, Joseph Austin Holmes, Edward Curtis Franklin, Ralph Amos Gould, 1915 *Conversations on Chemistry* Mrs. Marcet (Jane Haldimand), 1828 René Descartes: Principles of Philosophy, 2012-12-06 Descartes's Principles of Philosophy is his longest and most ambitious work; it is the only work in which he attempted to actually deduce scientific knowledge from Cartesian metaphysics as he repeatedly claimed was possible. Whatever the success of this attempt, there can be no doubt that it was enormously influential. Cartesian celestial mechanics held sway for well over a century, and some of the best minds of that period, including Leibniz, Malebranche, Euler, and the Bernoullis, attempted to modify and quantify the Cartesian theory of vortices into an acceptable alternative to Newton's theory of universal gravitation. Thus, the Principles is not only of inherent and historical interest philosophically but is also a seminal document in the history of science and of 17th Century thought. Principles of Philosophy was first published in Latin in 1644. In 1647, a French translation done by the Abbe Claude Picot and containing a great deal of additional material and a number of alterations in the original text was published with Descartes's enthusiastic approval. Unlike some English translations of portions of the Principles, this translation uses the Latin text as its primary source; however, a good deal of additional material from Picot's translation has been included. There are several reasons for this. First, there is good evidence that Descartes himself was responsible for some of the additional material, including, of course, the Preface to the French translation. Conversations on Chemistry John Lee Comstock, 1828 Hermetic chemistry Paracelsus, 1894 *Annual Report of the Chief of Engineers on Civil Works Activities* United States Army. Corps of Engineers. Civil Works Directorate, 1978 *The Works of the Honourable Robert Boyle* Robert Boyle, Thomas Birch, 1744 *Abstracts of Recent Published Material on Soil and Water Conservation*, 1962 Abstracts for Dec 1954 issued in the Agricultural Research Service's series ARS 41 **Annual Report of the Chief of Engineers, U.S. Army, on Civil Works Activities** United States Army. Corps of Engineers, *Sulfur* Joseph Jez, American Society of Agronomy, 2008 Sulfur forms and cycling processes in soil and their relationship to sulfur fertility Jeff J. Schoenau and Sukhdev S. Malhi Sulfur nutrition of crops in the Indo Gangetic plains of South Asia M. P. S. Khurana, U. S. Sandana and Bijay Singh Soil sulfur cycling temperate agricultural systems J. R.
