CONCERT LIGHTING TECHNIQUES, ART, AND BUSINESS JAMES L. MOODY, **Concert Lighting** James Moody,Paul Dexter,2016-10-04 Concert Lighting Tools Techniques Art and Business Fourth Edition provides readers with an updated look at how to succeed in the complex world of concert lighting design and technology The authors have reorganized the book into three comprehensive and thoroughly revised sections covering history equipment and technology and design and containing new information on LED technology pixel mapping projection options media servers automated lighting solutions for moving lights DMX and Ethernet problems and designer communication and collaboration This book also explores the cross media use of concert lighting techniques in film video theatre and the corporate world highlighted with advice from master designers such as Bruce Rodgers Cosmo Wilson and Sarah Landau From securing precious contracts to knowing the best equipment to use to design a show Concert Lighting covers everything a designer needs to know about working in the touring industry **Concert lighting** James L. Moody,1997 Concert Lighting: Techniques, Art and Business, 4th Ed Paul Dexter,James Moody,2017 **Concert Lighting** James Moody,Paul Dexter,2013-05-02 Get ready to pack your bags and go on tour with the most trusted and comprehensive text for concert lighting With a special focus on rock and roll learn how to use computer aided drafting moving luminaires learn about the people and the history that shaped the field and more Expand your design possibilities by learning about cross media use of concert lighting techniques and their application in film video theatre and the corporate world From snagging those precious contracts to knowing the best equipment to use to designing a show Concert Lighting Techniques Art and Business covers everything you need to know New Information on computer aided drafting and visualization programs moving luminaires digital luminaires and media servers LED luminaires new Protocol devices and more to keep you up to date with the most cutting edge trends Everything a professional needs to know from fighting for contracts to the ins and outs of designing a show by current leading designers Jeff Ravitz Andi Watson Paul Dexter and legendary Broadway designer Richard Pilbrow Learn how to light rock and roll concerts and use the same techniques in film video theatre other medias Interviews with three established multi platinum

touring recording artists **Stage Lighting Design** Richard Pilbrow,1997 Pilbrow covers the history theory and practice of lighting design including a section dealing with all the technical data today s designer will need and interviews with 14 other lighting designers as well as details of his own career **The Business of Theatrical Design, Second Edition**

James Moody,2013-07-01 Written by a leading design consultant and carefully updated with the latest information on the industry this is the essential guide to earning a living marketing skills furthering a design career and operating a business With more than thirty years of backstage and behind the scenes experience in theater film television concerts and special events James Moody shares his success secrets for the benefit of design students and working designers Topics include Finding and landing dream assignments Negotiating fees Setting up ideal working spaces Building the perfect staff Overcoming fears of accounting and record keeping Choosing the right insurance Joining the right unions and professional organizations And more In addition to revealing how to get the great design jobs in traditional entertainment venues the author shows designers how to think outside the box and seize creative lucrative opportunities such as those in theme parks in concert halls and with architectural firms Providing the keys for passionate talented designers to become successful businesspeople The Business of Theatrical Design is a must read for novices and established professionals alike Stage Lighting Richard E. Dunham,2015-10-30 The book s organization follows a layered approach that builds on basic principles Light as a Medium Part 1 Tools of a Lighting Designer Part 2 Design Fundamentals Part 3 and Lighting Applications Part 4 This presents students with a practical and logical sequence when learning basic concepts The full spectrum of the lighting design process is presented in detail giving students an example of how one might develop a lighting design from script analysis through concept and plot development and all the way to an opening This detailed process with a step by step design approach gives students a plan to work from which they can later modify as they mature and gain confidence as designers The text contains a more comprehensive discussion of basic technology light as a physical phenomena and methodology of designs than is found in most introductory texts bridging the gap between introductory and advanced lighting courses The text will appeal to theatrical designers who want to venture into areas of lighting like architectural or virtual lighting design while at the same time gaining a solid grounding in the fundamentals of lighting design Lighting Design will also benefit illuminating engineers who want to move away from mere computational approaches in lighting and on to explore techniques along the design approaches of theatrical lighting design The final 9 chapters cover many specialty areas of lighting design highlighting the unique and shared qualities that exist between the different aspects of these elements Discussions involve traditional entertainment areas like theatre as well as lesser known facets of the industry including film video landscape lighting retail museum lighting virtual lighting concert spectacle performances and architectural lighting Models of design tasks demonstrate the actual use and development of plots sections schedules photometrics tables and cut sheets rather than simply talking about what they are This hands on approach provides students with a firm understanding of how to actually

use these tools and processes *Theatre and Architecture - Stage Design - Costume* Véronique Lemaire, René Hainaux, 2006
