Concessions And How To Beat Them:

Concessions, and how to Beat Them Jane Slaughter, 1983 **We Are the Union** Dana L. Cloud, 2011-11-01 In this extraordinary tale of union democracy Dana L Cloud engages union reformers at Boeing in Wichita and Seattle to reveal how ordinary workers attempted to take command of their futures by chipping away at the cozy partnership between union leadership and corporate management Taking readers into the central dilemma of having to fight an institution while simultaneously using it as a bastion of basic self defense *We Are the Union* offers a sophisticated exploration of the structural opportunities and balance of forces at play in modern unions told through a highly relevant case study Focusing on the 1995 strike at Boeing Cloud renders a multi layered account of the battles between company and the union and within the union led by Unionists for Democratic Change and two other dissident groups She gives voice to the company's claims of the hardships of competitiveness and the entrenched union leaders calls for concessions in the name of job security alongside the democratic union reformers fight for a rank and file upsurge against both the company and the union leaders *We Are the Union* is grounded in on site research and interviews and focuses on the efforts by Unionists for Democratic Change to reform unions from within Incorporating theory and methods from the fields of organizational communication as well as labor studies Cloud methodically uncovers and analyzes the goals strategies and dilemmas of the dissidents who while wanting to uphold the ideas and ideals of the union took up the gauntlet to make it more responsive to workers and less conciliatory toward management especially in times of economic stress or crisis Cloud calls for a revival of militant unionism as a response to union leaders embracing of management and training programs that put workers in the same camp as management arguing that reform groups should look to the emergence of powerful industrial unions in the United States for guidance on revolutionizing existing institutions and building new ones that truly accommodate workers needs Drawing from communication studies labor history and oral history and including a chapter co written with Boeing worker Keith Thomas *We Are the Union* contextualizes what happened at Boeing as an exemplar of agency that speaks both to the past and the future

Poletown Jeanie Wylie, 1989 More than 4 200 residents of Detroit's Poletown community lost their homes in the 1980s when the neighborhood was razed to accommodate construction of a Cadillac plant on land where generations of Polish immigrants had lived worked and worshipped Poletown is the story of the only group in Detroit to oppose the construction plan the Poles and blacks who fought side by side to save their neighborhood one of the city's oldest integrated communities This book is about the ramifications of raw corporate power going unchecked John Conyers Michigan congressman Racial class is a fundamental problem in America But Poletown demonstrates that economic class is even more fundamental Rev Jesse Jackson *Farewell to the Factory* Ruth Milkman, 2023-09-01 This study exposes the human side of the decline of the U S auto industry tracing the experiences of two key groups of General Motors workers those who took a cash buyout and left the factory and those who remained and felt the effects of new technology and other workplace changes

Milkman's extensive interviews and surveys of workers from the Linden New Jersey GM plant reveal their profound hatred for the factory regime a longstanding discontent made worse by the decline of the auto workers union in the 1980s One of the leading social historians of the auto industry Ruth Milkman moves between changes in the wider industry and those in the Linden plant bringing both a workers perspective and a historical perspective to the study Milkman finds that contrary to the assumption in much of the literature on deindustrialization the Linden buyout takers express no nostalgia for the high paying manufacturing jobs they left behind Given the chance to make a new start in the late 1980s they were eager to leave the plant with its authoritarian prison like conditions and few have any regrets about their decision five years later Despite the fact that the factory was retooled for robotics and that the management hoped to introduce a new participatory system of industrial relations workers who remained express much less satisfaction with their lives and jobs Milkman is adamant about allowing the workers to speak for themselves and their hopes frustrations and insights add fresh and powerful perspectives to a debate that is often carried out over the heads of those whose lives are most affected by changes in the industry This study exposes the human side of the decline of the U S auto industry tracing the experiences of two key groups of General Motors workers those who took a cash buyout and left the factory and those who remained and felt the effects of new technology

US Labor in Trouble and Transition Kim Moody, 2020-05-05 US Labor in Trouble and Transition tells the story of union decline in America and of the split in the labor movement it led to following the dismal tale of union mergers and management partnerships that accompanied the retreat from militancy since the 1980s Looking to the future Moody shows how the rise of immigrant labor and its efforts at self organization can re energize the unions from below US Labor in Trouble and Transition is a major intervention in the ongoing debate within the US labor movement
