### **Narrating Friendship and the British Novel, 1760-1830** Katrin Berndt, 2016-10-14

Friendship has always been a universal category of human relationships and an influential motif in literature but it is rarely discussed as a theme in its own right In her study of how friendship gives direction and shape to new ideas and novel strategies of plot character formation and style in the British novel from the 1760s to the 1830s Katrin Berndt argues that friendship functions as a literary expression of philosophical values in a genre that explores the psychology and the interactions of the individual in modern society In the literary historical period in which the novel became established as a modern genre friend characters were omnipresent reflecting enlightenment philosophy's definition of friendship as a bond that civilized public and private interactions and was considered essential for the attainment of happiness Berndt's analyses of genre defining novels by Frances Brooke Mary Shelley Sarah Scott Helen Maria Williams Charlotte Lennox Walter Scott Jane Austen and Maria Edgeworth show that the significance of friendship and the increasing variety of novelistic forms and topics represent an overlooked dynamic in the novel's literary history Contributing to our understanding of the complex interplay of philosophical socio cultural and literary discourses that shaped British fiction in the later Hanoverian decades Berndt's book demonstrates that novels have conceived the modern individual not in opposition to but in interaction with society continuing Enlightenment debates about how to share the lives and the experiences of others

### **Nordic Italies**

Elettra Carbone, 2016-01-22 Because of its history art and natural and cultural landscapes Italy has been a popular destination for North European travellers since the age of the Grand Tour Yet literary images of Italy are not all linked to the tradition of the journey to this country and cannot be labelled as a manifestation of Northerners yearning for the Southern sun The corpus of critical literature which deals with Italy in Nordic literatures is very wide but also fragmentary While many scholars have written about this topic and chiefly on the relations between individual Scandinavian literatures or well known authors such as Henrik Ibsen Selma Lagerl f and Hans Christian Andersen and Italy few have emphasised their variety plurality and complexity With its comparative approach this study casts a new light on a selection of nineteenth and twentieth century representations of Italy and presents some of these Nordic Italies Taking into account texts of different genres poetry drama and novel and focusing on theories of representation genre and space this book examines complex and heterogeneous literary representations that cannot be reduced to a single stereotype In these texts Italy emerges both as a set of physical spaces and as a series of metaphorical concepts How are these Italian spaces and identities constructed and what do they stand for What forms does the broad concept of Italianness take in these literary works How are the Italian settings and characters as well as the aspects of Italian politics history society culture and folklore that populate so many literary texts shaped and combined Is there a relationship between specific literary genres and the way in which Italy is represented These are only some of the questions addressed by this study which demonstrates how Nordic representations of

Italy express much more than unanimous praise for the sun idyllic landscapes ruins and mandolin players Women Wanderers and the Writing of Mobility, 1784-1814 Ingrid Horrocks, 2017-03-23 A history of the writing of mobility in the Romantic period through the work of major women writers

**Perspectives on English Revolutionary Republicanism** Dirk Wiemann, 2016-05-13 Perspectives on English Revolutionary Republicanism takes stock of developments in the scholarship of seventeenth century English republicanism by looking at the movements and schools of thought that have shaped the field over the decades the linguistic turn the cultural turn and the religious turn While scholars of seventeenth century republicanism share their enthusiasm for their field they have approached their subject in diverse ways The contributors to the present volume have taken the opportunity to bring these approaches together in a number of case studies covering republican language republican literary and political culture and republican religion to paint a lively picture of the state of the art in republican scholarship The volume begins with three chapters influenced by the theory and methodology of the linguistic turn before moving on to address cultural history approaches to English republicanism including both literary culture and practical political culture The final section of the volume looks at how religion intersected with ideas of republican thought Taken together the essays demonstrate the vitality and diversity of what was once regarded as a narrow topic of political research

Kyoko Takanashi, 2022-11-17 A recurrent trope in eighteenth and nineteenth century British fiction compares reading to traveling and asserts that the pleasures of novel reading are similar to the joys of a carriage journey Kyoko Takanashi points to how these narratives also however draw attention to the limits of access often experienced in travel and she demonstrates the ways in which the realist novel too is marked by issues of access both symbolic and material Limited Access draws on media studies and the history of books and reading to bring to life a history of realism concerned with the inclusivity of readers Examining works by Henry Fielding Laurence Sterne Walter Scott Charles Dickens William Makepeace Thackeray and George Eliot Takanashi shows how novelists employed metaphors of transport to constantly reassess what readers could

and could not access She gives serious attention to marginalized readers figured within the text highlighting their importance and how writers were concerned about the limited access of readers to their novels Discussions of transport allowed novelists to think about mediation and as this study shows these concerns about access became part of the rise of the novel and the history of realism in a way that literary history has not yet recognized Geopolitics and the Quest for Dominance Jeremy Black,2015-11-25 History and geography delineate the operation of power not only its range but also the capacity to plan and the ability to implement Approaching state strategy and policy from the spatial angle Jeremy Black argues that just as the perception of power is central to issues of power so place and its constraints and relationships is partly a matter of perception not merely map coordinates Geopolitics he maintains is as much about ideas and perception as it is about the actual spatial dimensions of power Black s study ranges widely examining geography and the spatial nature of state power from the 15th century to the present day He considers the rise of British power geopolitics and the age of Imperialism the Nazis and World War II and the Cold War and he looks at the key theorists of the latter 20th century including Henry Kissinger Francis Fukuyama and Samuel P Huntington Philip Bobbitt Niall Ferguson and others British It-Narratives, 1750-1830, Volume 1 Mark Blackwell,Liz Bellamy,Christina Lupton,Heathe Keenleyside,2024-08-01 It narratives are prose fictions that take as their central characters animals or inanimate objects This four volume reset collection includes numerous examples of narratives in different forms including short stories excerpts from novels periodical fiction and serialized works 1650-1850 Kevin L. Cope,2020-02-14 1650 1850 publishes essays and reviews from and about a wide range of academic disciplines literature philosophy art history history religion and science Interdisciplinary in scope and approach 1650 1850 emphasizes aesthetic manifestations and applications of ideas and encourages studies that move between the arts and the sciences Labors of Innocence in Early Modern England Joanna Picciotto,2010-06-15 Joanna Picciotto s Labors of Innocence in Early Modern England is a splendid study of the origins development and eventual decline of the Experimentalist tradition in seventeenth and early eighteenth century English letters In tracing out the arc of this intellectual and professional trajectory Picciotto engages productively with the crucial religious socio economic philosophical and literary movements associated with the ongoing labors of the innocent eye Eileen Reeves Princeton University **The Hanoverian Succession** Prof Dr Andreas Gestrich,Dr Michael Schaich,2015-06-28 Three hundred years after the succession of the first Hanoverian king this volume provides an intriguing perspective of a dynasty challenging assumptions of the Hanoverians as petty minded monarchs presiding over an inconsequential court Looking afresh at the Georgian monarchs and their role influence and legacy within Britain Hanover and beyond the chapters shine new light on important topics from rivalling concepts of monarchical legitimacy and court culture to the multi confessional set up of the British composite monarchy and the role of the military the Anglican Church and the aristocracy in defining and challenging the political order Perspectives on Mobility Ingo Berensmeyer,Christoph Ehland,2013-08-01 Literature as cultural

discourse has always courted mobility From the nomadic wanderings of the heroes of Homer and Virgil through the adventures of the medieval knight errants to the travellers of modern times movement and mobility have been constitutive elements of story telling Since writers have begun to explore the experiential dimension of movement their texts have embraced the essential changeability and instability of mobile worlds In this sense literature reflects and processes the transformative force of movement on the perception of the world and is part of the broader cultural discourses of mobility From the 1936 film *Night Mail* to the rapid movements of the dime novel detective and the metaphorical coding of automobility in Futurist poetry the essays in this volume offer new perspectives on the phenomenon of mobility at the intersection between the literary imagination and cultural experience They explore movement as a decisive force of change in the story of modernity and show how literature in its representation of mobility simultaneously aims both to mirror and to grasp the phenomenon
