**Illustrated Universal History: Being a Clear and Concise History of All Nations** Israel Smith Clare,1885

**Church-State Relations in Africa in the Nineteenth and Twentieth Centuries** Jairzinho Lopes Pereira,2022-08-26 This edited collection examines church state relations in the European colonies in Africa during the late nineteenth and twentieth centuries The chapters focus on the period stretching from the most agitated stages of the scramble for Africa during the 1870s and 1880s to the great wave of independence of African colonies in the 1950s and 60s and culminates in a discussion of colonial legacies during its aftermath The Church and the State although often having conflicting goals and agendas walked hand in hand throughout the entire colonial period with imperialism of the spirit being inconceivable without the groundwork of Catholic missionaries Exploring the major domains that determined the course of church state relations in the colonies the authors analyse relations between the Holy See and the colonial powers and between national Catholic authorities and secular authorities as well as the international order and socio political developments in the metropolises They argue that interactions between state and church in Africa s European colonies were contingent upon the complex dynamics of interests that both secular and ecclesiastical entities endeavoured to preserve or promote With a particular focus on the Belgian and Portuguese colonies in Africa this book provides useful reading for scholars of European imperial history and ecclesiastical history

**The Portuguese** Barry Hatton,2016-01-06 Portugal is an established member of the European Union one of the founders of the euro currency and a founder member of NATO Yet it is an inconspicuous and largely overlooked country on the continent s south west rim In the fifteenth and sixteenth century Age of Discovery the Portuguese led Europe out of the Mediterranean into the Atlantic and they brought Asia and Europe together Evidence of their one time four continent empire can still be felt not least in the Portuguese language which is spoken by more than 220 million people from Brazil across parts of Africa to Asia Analyzing present day society and culture The Portuguese also considers the nation s often tumultuous past The 1755 Lisbon earthquake was one of Europe s greatest natural disasters strongly influencing continental thought and heralding Portugal s extended decline The Portuguese also weathered Europe s longest dictatorship under twentieth century ruler Ant nio Salazar A 1974 military coup called the Carnation Revolution placed the Portuguese at the centre of Cold War attentions Portugal s quirky relationship with Spain and with its oldest ally England is also scrutinized Portugal which claims Europe s oldest fixed borders measures just 561 by 218 kilometres Within that space however it offers a patchwork of widely differing and beautiful landscapes With an easygoing and seductive lifestyle expressed most fully in their love of food the Portuguese also have an anarchical streak evident in many facets of contemporary life A veteran journalist and commentator on Portugal the author paints an intimate portrait of a fascinating and at times contradictory country and its people

**Utopias of Otherness** Fernando Arenas,2003

Forges a new understanding of how these two Lusophone nations are connected The closely entwined histories of Portugal and Brazil remain key references for understanding developments past and present in either country Accordingly Fernando Arenas considers Portugal and Brazil in relation to one another in this exploration of changing definitions of nationhood subjectivity and utopias in both cultures Examining the two nations shared language and histories as well as their cultural social and political points of divergence Arenas pursues these definitive changes through the realms of literature intellectual thought popular culture and political discourse Both Brazil and Portugal are subject to the economic political and cultural forces of postmodern globalization Arenas analyzes responses to these trends in contemporary writers including Jose Saramago Caio Fernando Abreu Maria Isabel Barreno Vergilio Ferreira Clarice Lispector and Maria Gabriela Llansol Ultimately Utopias of Otherness shows how these writers have redefined the concept of nationhood not only through their investment in utopian or emancipatory causes such as Marxist revolution women s liberation or sexual revolution but also by shifting their attention to alternative modes of conceiving the ethical and political realms

**Portugal** Charles F. Gritzner, Douglas A. Phillips, 2007 Portugal has an industrialized economy made up primarily of light industry and is a member of the European Union A full color overview of a fascinating nation this is a guide to students who want to learn more about this country s culture geography and economy

*European Integration and Disintegration* Robert Bideleux, Professor Richard Taylor, Richard Taylor, 2002-09-11 Europe has changed radically since 1989 and continues to change at great speed This book deals with the principle problems and challenges confronting Europe in the aftermath of the Cold War and the collapse of European communism Whilst endeavouring to strike a balance between East West North and South the volume is more concerned with the changing political economic and cultural morphology of Europe and of the relations within it than with the formal institutional arrangements of the European Community and its successor the European Union There are already numerous books on the institutional development of the EU but relatively few with a wider compass and institutional interpretations of European integration The book shows that the study of European integration should be taken in the round avoiding a narrow and self centered concern with the development of the lesser Europe of the EU It demonstrates that integration should be seen as neither an inexorable predetermined process nor as an automatic consequence of high levels of economic interdependence but rather as something that proceeds in fits and starts and sometimes suffers reverses

*Censorship* Derek Jones, 2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by

censorship and for all those who are interested in the history of and contemporary fate of freedom of expression

**Ricardo's Dream** Nat Dyer, 2024-11-26 From the workings of financial markets to our response to the ecological crisis economic theory shapes the world But where do these ideas come from Ricardo's Dream tells the fascinating story of David Ricardo Adam Smith's only real rival as the founder of economics The wealthiest stock trader of his day Ricardo introduced the study of abstract models to economics He also developed the theory of trade that underpinned globalization and hides behind its mathematical facade a history of power empire and slavery Brimming with fresh ideas and stories Ricardo's Dream shows how too many economists from Ricardo's day to our own have turned away from observing the real world and led us astray

A Companion to Portuguese Literature Thomas Foster Earle, Stephen Parkinson, Cláudia Pazos Alonso, 2013 An essential chronological framework for students of Portuguese literature This companion volume offers an introduction to European Portuguese literature for university level readers It consists of a chronological overview of Portuguese literature from the twelfth century to the present day by some of the most distinguished literary scholars of recent years leading into substantial essays centred on major authors genres or periods and a study of the history of translations It does not attempt an encyclopaedic coverage of Portuguese literature but provides essential chronological and bibliographical information on all major authors and genres with more extensive treatment of key works and literary figures and a particular focus on the modern period It is unashamedly canonical rather than thematic in its examination of central authors and periods without neglecting female writers In this way it provides basic reference materials for students beginning the study of Portuguese literature and for a wider audience looking for general or specific information The editors have made a principled decision to exclude both Brazilian and African literature which demand separate treatment STEPHEN PARKINSON CLAUDIA PAZOS ALONSO and T F EARLE are all members of the Sub Faculty of Portuguese at the University of Oxford CONTRIBUTORS Vanda Anastácio Helena Carvalhao Buescu Rip Cohen T F Earle David Frier Lu's Gomes Mariana Gray de Castro Helder Macedo Patricia Odber de Baubeta Hilary Owen Stephen Parkinson Cláudia Pazos Alonso Juliet Perkins Teresa Pinto Coelho Phillip Rothwell Mark Sabine Claire Williams Clive Willis
