Borchert,2006 This volume includes an appendix containing entries from Albert the Great to Xenophon a thematic outline of contents bibliographies and an index to the reference set      **The Philosopher's "I"** J. Lenore Wright,2012-02-01 This book examines philosophers autobiographies as a genre of philosophical writing Author J Lenore Wright focuses her attention on five philosophical autobiographies Augustine s Confessions Descartes Meditations Rousseau s The Confessions Nietzsche s Ecce Homo and Hazel Barnes s The Story I Tell Myself In the context of first person narration she shows how the philosophers in question turn their attention inward and unleash their analytical rigor on themselves Wright argues that philosophical autobiography makes philosophical analysis necessary and that one cannot unfold without the other Her distinction between the ontological and rhetorical dimensions of the self creates a rich middle ground in which questions of essence and identity bear upon existence      Alasdair MacIntyre's Engagement with Marxism ,2008-03-31 Although Alasdair MacIntyre is best known today as the author of After Virtue 1981 he was in the 1950s and 1960s one of the most erudite members of Britain s Marxist Left being a militant within first the Communist Party then the New Left and finally the heterodox Trotskyist International Socialism group This selection of his essays on Marxism from that period aims to show that his youthful thought profoundly informed his mature ethics and that in the wake of the collapse of the state capitalist regimes in Russia and Eastern Europe the powerful and optimistic revolutionary Marxist ethics of liberation he articulated in that period is arguably as salient to anti capitalist activists today as it was half a century ago      **Dictionary of Twentieth-Century British Philosophers** Stuart Brown,Hugh Terence Bredin,2005-08-01 No Marketing Blurb      **Judson Dance Theater** Ramsay Burt,2006-09-27 The Judson Dance Theatre explores the work and legacy of one of the most influential of all dance companies which first performed at the Judson Memorial Church in downtown Manhattan in the early 1960s There a group of choreographers and dancers including future well known artists Twyla Tharp Carolee Schneemann Robert Morris Trisha Brown Yvonne Rainier and others created what came to be known as postmodern dance Taking their cues from the experiments of Merce Cunningham they took movements from everyday life walking running gymnastics to create dances that influenced not only future dance work but also minimalism in music and art as well as the wedding of dance and speech in solo performance

pieces Judson's legacy has been explored primarily in the work of dance critic Sally Banes in a book published in the 1980s. Although the dancers from the so-called Judson School continue to perform and create new works and their influence continues to grow from the US to Europe and beyond, there has not been a book-length study in the last two decades that discusses this work in a broader context of cultural trends. Burt is a highly respected dance critic and historian who brings a unique new vision to his study of the Judson dancers and their work, which will undoubtedly influence the discussion of these seminal figures for decades to come. *Performative Traces: Judson Dance Theatre and Its Legacy* combines history, performance analysis, theory, and criticism to give a fresh view of the work of this seminal group of dancers. It will appeal to students of dance history, theory, and practice as well as all interested in the avant-garde arts and performance practice in the 20th century.

**Radical Nature** Christian de Quincey, 2010-02-22. An exploration of consciousness in all matter from quantum to cosmos. Outlines theories of consciousness in ancient and modern philosophy from before Plato to Alfred North Whitehead. Reveals the importance of understanding mind in matter for our relationships with the environment, with other people, even with ourselves. Are rocks conscious? Do animals or plants have souls? Can trees feel pleasure or pain? Where in the great unfolding of life did consciousness first appear? How we answer such questions can dramatically affect the way we live our lives, how we treat the world of nature, and even how we relate to our own bodies. In this new edition of the award-winning *Radical Nature*, Christian de Quincey explores the hard problem of philosophy: how mind and matter are related, and proposes a radical and surprising answer: that matter itself tingles with consciousness at the deepest level. It's there in the cells of every living creature, even in molecules and atoms. Tracing the lineage of this idea through Western philosophy and science, he shows that it has a very noble history from before Plato to Alfred North Whitehead. He reveals that the way to God is through nature, and that understanding how body and soul fit together has surprising consequences for our relationships with our environment, with other people, and even with ourselves.

*Creative Alternatives to Communism* Donald Wilhelm, 1981

**The Quest for God in the Work of Borges** Annette U. Flynn, 2011-11-03. This book argues that the quest for God, though largely unheeded by the critical canon, was a major and enduring preoccupation for Borges. This is shown through careful analysis both of his essays, with their emphasis on his philosophical, theological explorations, and of the narrative articulations, which are his stories. It is in the poetry of his middle and closing years, however, that Borges' search is most manifest, as it is no longer obscured. Spanning different periods of his life and different literary genres, Borges' work attests to a maturing and evolving quest. The book reveals Borges' engagement as an active and evolving process, and its chronological structure allows the reader to trace his thought over time. Flynn shows that the spiritual component in Borges' writing drives key texts from the 1920s to the 1980s. Offering an interpretation that unlocks a fuller significance of his work, she shows how Borges' reflections on time and identity are symptomatic of a deeper spiritual searching, which can only be answered by a Divine Absolute.

*The Quest for Plausible Christian Discourse in a World of Pluralities* Younhee Kim, 2008. This book

critically examines David Tracy's well known methodology of fundamental theology namely his revisionist model as developed in his *Blessed Rage for Order* 1975 together with his methodological shifts through the 1980s 1990s and early 2000s It explores how successful he has been in constructing a methodology for the public theological discourse that he deems so necessary More particularly this book asks how serviceable this methodology is for articulating Christian discourse in an intelligible and public way in the contemporary context of religious plurality Reality and Mystical Experience F. Samuel Brainard, 2008-03-05 Responding to our modern disillusionment with any claims to absolute truth regarding morality or reality this book offers a conceptual approach for discussing absolutes without denying either the relevance of divergent religious and philosophical teachings or the evidence supporting postmodern and poststructuralist critiques Case studies of mysticism within Advaita Vedanta Hinduism M\_dhyamika Buddhism and Nicene Christianity demonstrate the value of this approach and offer many fresh insights into the metaphysical presuppositions of these religions as well as into the nature and value of mystical experience Like Douglas Hofstadter's *Gödel Escher Bach* this book finds ultimate reality to be rationally graspable only as an eternal fugue of pattern and paradox Yet it does not so much counter other philosophical views as provide a conceptual tool for understanding and classifying incommensurable views **The Craft of Research, Third Edition**
