Conditions Of Music:

Conditions of Music Alan Durant, 1984-01-01 Music is performed reproduced and heard differently today as a result of twentieth century technology A new consideration of these changes is a practical and cultural necessity In Conditions of Music Alan Durant extends Deryck Cooke s Language of Music placing the insights of Cooke into a much wider sociological and historical framework Conditions of Music provides a basis for detailed commentary and criticism of music Unlike literature and painting around which illuminating critical techniques and theories have developed little common ground exists for music criticism The appraisal argument adopted here implies a major revision of accepted ways of thinking about contemporary directions of music

Physiological Influences of Music in Perception and Action Shannon E. Wright, Valentin Bégel, Caroline Palmer, 2022-03-09 This Element reviews literature on the physiological influences of music during perception and action It outlines how acoustic features of music influence physiological responses during passive listening with an emphasis on comparisons of analytical approaches It then considers specific behavioural contexts in which physiological responses to music impact perception and performance First it describes physiological responses to music that evoke an emotional reaction in listeners Second it delineates how music influences physiology during music performance and exercise Finally it discusses the role of music perception in pain focusing on medical procedures and laboratory induced pain with infants and adults

The Power of Music Susan Hallam, Evangelos Himonides, 2022-07-11 Building on her earlier work *The Power of Music A Research Synthesis of the Impact of Actively Making Music on the Intellectual Social and Personal Development of Children and Young People* this volume by Susan Hallam and Evangelos Himonides is an important new resource in the field of music education practice and psychology A well signposted text with helpful subheadings *The Power of Music An Exploration of the Evidence* gathers and synthesises research in neuroscience psychology and education to develop our

understanding of the effects of listening to and actively making music Its chapters address music s relationship with literacy and numeracy transferable skills its impact on social cohesion and personal wellbeing as well as the roles that music plays in our everyday lives Considering evidence from large population samples to individual case studies and across age groups the authors also pose important methodological questions to the research community The Power of Music defends qualitative research against a requirement for randomised control trials that can obscure the diverse and often fraught contexts in which people of all ages and backgrounds are exposed to and engage with music This magnificent and comprehensive volume allows the evidence about the power of music to speak for itself thus providing an essential directory for those researching music education and its social personal and cognitive impact across human ages and experiences *Music Glocalization*

David Hebert,Mikolaj Rykowski,2018-06-11 This unique edited volume offers a distinctive theoretical perspective and advanced insights into how music is impacted by the interaction of global forces with local conditions As the first major book to apply the timely notion of glocality to music this collection features robust scholarship on genres and practices from many corners of the world from studies of European opera professions and the oeuvre of several contemporary art music composers to music in Uzbekistan and Indonesia urban street musicians and even the didjeridoo The authors interrogate theories of glocalization distinguishing this notion from globalization and other more familiar concepts and demonstrate how its application illuminates the mechanisms that link changing musical practices and technologies with their social milieu This incisive book is relevant to scholars of many different specializations particularly those with a deep interest in relationships between music and society both past and present More broadly its discussions will be of value to those concerned with how changing policies and technologies impact cultural heritage and the creative approaches of performing artists worldwide
