Conducting Brahms:

Conducting the Brahms Symphonies Christopher Dymont, 2016 A major study sure to fascinate musicians Brahms enthusiasts and those interested in the history of recorded music How did Brahms conduct his four symphonies What did he want from other conductors when they performed these works and to which among them did he give his approval And crucially are there any stylistic pointers to these performances in early recordings of the symphonies made in the first half of the twentieth century For the first time Christopher Dymont provides a comprehensive and in depth answer to these important issues Drawing together the strands of existing research with extensive new material from a wide range of sources the views of musicians contemporary journals memoirs biographies and other critical literature Dymont presents a vivid picture of historic performance practice in Brahms's era and the half century that followed Here is a remarkable panorama showcasing Brahms himself conducting together with those conductors whom he heard among them Levi Richter Nikisch Weingartner and Fritz Steinbach and their disciples such as Toscanini Stokowski Boult and Fritz Busch Here too are other famed Brahms conductors of the early twentieth century including Furtwängler and Abendroth whose connections with the Brahms tradition are closely examined Dymont then analyses recordings of the symphonies by these conductors and highlights aspects which the composer might well have commended Finally Dymont suggests the importance of his conclusions for those contemporary conductors who are currently attempting to rediscover genuine performance traditions in their own recreations of the symphonies This major study is complemented with forty photographs and a frontispiece It is sure to fascinate musicians Brahms enthusiasts and those interested in the history of recorded music CHRISTOPHER DYMENT is author of *Felix Weingartner Recollections and Recordings* Triad Press 1976 and *Toscanini in Britain* The Boydell Press 2012 He has published many articles about historic conductors over the last forty years Conducting Brahms Norman Del Mar, 1993 After two volumes of reflections on conducting the orchestral music of Beethoven Norman Del Mar now turns to the music of Brahms His own interpretations over a career of half a century have been hailed as unusually sincere and thoughtful As before Del Mar's insights will be of great interest to practicing musicians and lovers of these great works **Performing Brahms** Michael Musgrave, Bernard D. Sherman, 2003-10-02 A great deal of evidence survives about how Brahms and his contemporaries performed his music But much of this evidence found in letters autograph scores treatises publications recordings and more has been hard to access both for musicians and for scholars This book brings the most important evidence together into one volume It also includes discussions by leading Brahms scholars of the many issues raised by the evidence The period spanned by the life of Brahms and the following generation saw a crucial transition in performance style As a result modern performance practices differ significantly from those of Brahms's time By exploring the musical styles and habits of Brahms's era this book will help musicians and scholars understand Brahms's music better and bring fresh ideas to present day performance The value of the book is greatly enhanced by the accompanying CD of historic
