Producing Legality Marjorie Zatz, 2014-03-18 Producing Legality provides a window into the official construction of socialist legality in Cuba and the dissemination of this legal consciousness throughout the country. It links abstract theories of lawmaking and the state with the specific dilemmas confronting individual policymakers to detail the inner workings of the Cuban legal order. Diario de los debates Mexico. Congreso. Cámara de Diputados, 1879 Latinization of America Eliot Tiegel, 2007-10-01 Latinization of America provides a contemporary overview of the Hispanic population's cultural impact in the United States. The author explores the growth of this community in show business at large as well as in the Spanish speaking entertainment industry. Focusing on music, television, film, theater, and sports while also considering economic and political factors, the author tracks developments over the first decade of the 21st century. Encompassing the various groups of immigrants who create new vistas of opportunity for both Spanish speaking and mainstream entrepreneurs, this volume highlights the crossover and integration of Hispanics into competitive mainstream show business and the rush by Anglo companies to grab their piece of the Latin pie. **Proceedings of the Annual Conference** Asociación de Tecnicos Azucareros de Cuba, 1941 *Masters of War* Clara Nieto, 2011-01-04 In *Masters of War*, Clara Nieto adeptly presents the parallel histories of the countries of Latin America, histories that are intertwined, each reflecting the United States' coherent policy of intervention set into motion by the Monroe Doctrine. As the value of this continued policy comes increasingly into question, Nieto argues for the need to evaluate the alarming precedent set in Latin America: the institution of client dictatorships, the roles played by the interests of U.S. corporations, the enormous tolls taken on civilian populations, and the irreversible disruption of regional stability. Drawing from an impressive array of documents and sources as well as from her unique first-hand insights as a participant in crucial meetings and negotiations in the region from the mid 1960s through the mid 1980s, Nieto chronicles the Cuban Revolution, the CIA-sponsored coup against popularly elected President Allende in Chile, the U.S. invasions of Panama and Grenada, U.S. support for the cultivation and training of paramilitary death squads in Nicaragua, El Salvador, and Colombia, as well as similarly severe but less well-known situations in other countries such as Uruguay, Venezuela, Argentina, Peru, Bolivia, Honduras, and Guatemala. *Masters of War* offers, from an informed perspective, perhaps for the first time, a distanced, objective analysis of recent Latin American history. Clara Nieto's depth of knowledge and understanding is an invaluable resource at a time when the media is seen as unapologetically aligned with the interests of major corporations and policymakers, and the American public has reached a new height of apprehension regarding the intentions behind and consequences of its government's policies. **State-Sponsored Disinformation Around the Globe** Martín Echeverría, Sara García Santamaría, Daniel C. Hallin, 2024-08-28 This book explores the pervasive and globalized trajectory of domestic disinformation. It describes specific operations and general apparatuses of disinformation that are sponsored by the State.

Cuba's Second Economy Jorge F. Pérez, The economic crisis of the 1990s has propelled the second economy from behind the scenes to center stage Not only have black markets mushroomed but second economy activities connected to the free market that the Castro government has traditionally discouraged or even prosecuted are now being incorporated into the government's own economic strategy Self employment cultivation of individual plots and the use of foreign currencies to buy
