Back on Track Philip G. Laird,2001

Australia s freight transport system now has the highest proportion of truck use of any developed country in the world and with New Zealand its cities are heavily dependent on cars Back on Track considers the historic economic and political issues that have led to this situation and concludes that the emergence of such a strongly road oriented system has not been in the national interest on both economic and environmental grounds It develops a detailed analysis of Australia s road transport deficit The authors suggest that rail is the neglected element in Australian and New Zealand transport systems and despite a history of policy paralysis they offer a rail based ten point plan that could see both countries transport systems back on track

Using new data on transportation trends from Australia and around the world the book sets out a vision for the future of freight and inter capital transport in Australia and New Zealand and offers innovative transport strategies for each of the major cities in both countries **Catalog of Copyright Entries. Burdan,2007 The Road to Safwan is a complete history of the 1st Infantry Divisions cavalry unit fighting in Operation Desert Storm Stephen A Bourque and John W Burdan III served in the 1st Infantry Bourque in Division Headquarters Burdan as the Operations Officer of the 1st Squadron 4th Cavalry Based on extensive interviews and primary sources Bourque and Burdan provide the most in depth coverage to date of a battalion level unit in the 1991 war showing how the unit deployed went into combat and adapted to changing circumstances The authors describe how the officers and men moved from the routine of cold war training to leading the Big Red One in battle through the Iraqi defenses and against the Iraqi Republican Guard The 1st Squadron 4th Cavalry participated in the 1st Brigade attack on G Day the large tank battle for Objective Norfolk the cutting of Basra Road and the capture of Safwan Airfield the site where General H Norman Schwarzkopf conducted cease fire negotiations with the Iraqis The squadrons activities are placed squarely within the context of both division and corps activities which illustrates the fog of war the chain of command and the uncertainty of information affecting command decisions The Road to Safwan challenges the myth that technology won the 1991 Persian Gulf War Contrary to popular view it was a soldier s war not much different from previous conflicts in its general nature What was different was the quality and intensity of the unit s training which resulted repeatedly in successful engagements and objectives secured It is the story of the people not the machines which ultimately led this squadron to the small town of Safwan Women Writers of Yiddish Literature Rosemary Horowitz,2015-05-08 Taking stock of Yiddish literature in 1939 critic Shmuel Niger highlighted the increasing number and importance of women writers However awareness of women Yiddish writers diminished over the years Today a modest body of novels short stories poems and essays by Yiddish women may be found in English translation online and in print and little in the way of literary history and criticism is available This collection of critical essays is the first dedicated to the works of Yiddish women writers introducing them to a new audience of English speaking scholars and readers Dead Cow Road - Life on the Front Lines of an International Crisis Mark Wentling,2017-05-15 Dead Cow Road is a compelling work of historical fiction that focuses on the US response to Somalia s 1992 famine US Foreign Service Officer Ray Read reluctantly accepts an assignment not of his liking but he persists in doing his duty for his country in war torn Somalia in spite of his contrary views and tortuous personal problems Through Ray s eyes the reader is provided an inside account of the US government s controversial handling of Somalia s complex emergency The daunting challenges of coping with the harsh realities of a ruined country while trying to do good amid dangerous chaos are

amply communicated This book also imparts key facts about the history people and places of this troubled region of Africa Given current interests and issues regarding the United States involvement in troubled areas of the world this book is timely Although Ray knows virtually nothing about Somalia he is thrust into Somalia s intractable problems and obliged to deal with some of its most unsavory actors He finds some relief from the stress of Somalia and his marital problems by striking up a chance romance with a beautiful Kenyan woman Ray lays his life on the line more than once but his sacrifices are not recognized In the end he is portrayed as a mere cypher in a larger and rapidly unfolding intense scene of unpredictable international consequences This well crafted and gripping story combines exceptional political analysis with lively human drama It also blends fictional characters with real life people The author demonstrates that he is a masterful researcher who has an exhaustive command of Somalia s grim predicament He artfully melds the results of his research with his firsthand experiences in Somalia to produce a remarkable book that educates and entertains His previous three books an African trilogy established his high reputation as an authority on Africa This book solidifies this reputation The author is one of the rare people on Earth who has visited or worked in all fifty four African countries *Roads Less Traveled* Lyn
