Alternative Globalizations James Mark, Artemy M. Kalinovsky, Steffi Marung, 2020-02-11 Globalization has become synonymous with the seemingly unfettered spread of capitalist multinationals but this focus on the West and western economies ignores the wide variety of globalizing projects that sprang up in the socialist world as a consequence of the end of the European empires This collection is the first to explore alternative forms of globalization across the socialist world during the Cold War Gathering the work of established and upcoming scholars of the Soviet Union Eastern Europe and China *Alternative Globalizations* addresses the new relationships and interconnections which emerged between a decolonizing world in the postwar period and an increasingly internationalist eastern bloc after the death of Stalin In many cases the legacies of these former globalizing impulses from the socialist world still exist today Divided into four sections the works gathered examine the economic political developmental and cultural aspects of this exchange In doing so the authors break new ground in exploring this understudied history of globalization and provide a multifaceted study of an increasing postwar interconnectedness across a socialist world Socialist Alternative for Eastern Europe J. The Alternative in Eastern Europe. Translated by David Fernbach Rudolf Bahro, 1978 *Ideologies of Eastness in Central and Eastern Europe* Tomasz Zarycki, 2014-03-21 This book explores how the countries of Eastern Europe which were formerly part of the Soviet bloc have since the end of communist rule developed a new ideology of their place in the world Drawing on post colonial theory and on identity discourses in the writings of local intelligentsia figures the book shows how people in these countries no longer think of themselves as part of the east and how they have invented new stereotypes of the countries to the east of them such as Ukraine and Belarus to which they see themselves as superior The book demonstrates how there are a whole range of ideologies of eastness how these have changed over time and how such ideologies impact in a practical way relations with countries further east
