

A woman with dark curly hair, wearing a yellow long-sleeved shirt and green pants, stands in a modern office. She is looking at a smartphone in her left hand, with her right hand resting on her chin in a thoughtful pose. The background features a dark wall with several hexagonal wooden shelves, some containing small plants. To the right, a large, light blue circular graphic is overlaid on the image, containing the text. In the bottom left corner, a desk with a laptop and some papers is partially visible.

*THE ALTERNATIVE QUILL: WRITING ALTERNATIVE HISTORY* Beth Daniels, 2014-03      **Nature Loves to Hide: An Alternative History of Philosophy** Paul S. MacDonald, 2018-11 An alternative history of philosophy has endured as a shadowy parallel to standard histories although it shares many of the same themes It has its own founding texts in the late ancient Hermetica from whence flowed three broad streams of thought alchemy astrology and magic These thinkers attitude toward philosophy is not one of detached speculation but of active engagement even intervention It appeared again in the European Middle Ages in the Renaissance with Rabelais Paracelsus Agrippa Ficino and Bruno and in the early modern period with John Dee Robert Fludd Jacob B hme Thomas Browne Kenelm Digby van Helmont and Isaac Newton In the 18th 19th centuries this book considers Lichtenberg s Fragments Berkeley s Siris Swedenborg Hegel von Baader and great Romantics such as Novalis Goethe S T Coleridge and E A Poe as well as Nietzsche and in the 20th century it turns to the great modernist literature of Fernando Pessoa Robert Musil Ernst Bloch and P K Dick      **An Alternative History of Hyperactivity** Matthew Smith, 2011-07-01 In 1973 San Francisco allergist Ben Feingold created an uproar by claiming that synthetic food additives triggered hyperactivity then the most commonly diagnosed childhood disorder in the United States He contended that the epidemic should not be treated with drugs such as Ritalin but instead with a food additive free diet Parents and the media considered his treatment the Feingold diet a compelling alternative Physicians however were skeptical and designed dozens of trials to challenge the idea The resulting medical opinion was that the diet did not work and it was rejected Matthew Smith asserts that those scientific conclusions were in fact flawed An Alternative History of Hyperactivity explores the origins of the Feingold diet revealing why it became so popular and the ways in which physicians parents and the public made decisions about whether it was a valid treatment for hyperactivity Arguing that the fate of Feingold s therapy depended more on cultural economic and political factors than on the scientific protocols designed to test it Smith suggests the lessons learned can help resolve medical controversies more effectively      The Ancient World in Alternative History and Counterfactual Fictions Alberto J. Quiroga Puertas, Leire Olabarria, 2024-08-22 Focusing in turn on history powerful individuals under represented voices and the arts the essays in this collection cover a wide variety of modern and contemporary narrative fiction from Jo Walton and L Sprague De Camp to T S Chaudhry and Catherynne M Valente Chapters look into the question of chance versus determinism in the unfolding of historical events the role individuals play in shaping a society or occasion and the way art and literature symbolise important messages in counterfactual histories They also show how uchronic narratives can take advantage of modern literary techniques to reveal new and relevant aspects of the past giving voices to marginalised minorities and suppressed individuals of the ancient world Counterfactual fiction and uchronic narratives have been largely up until now the domain of literary critics However these modes of literature are here analysed by scholars of Ancient History Egyptology and Classics shedding important new light

on how cultures of the ancient world have been and still are perceived and to what extent our conceptions of the past are used to explore alternate presents and futures Alternate history entices the imagination of the public by suggesting hypothetical scenarios that never occurred underlining a latent tension between reality and imagination and between determinism and contingency This interest has resulted in a growing number of publications that gauge the impact of what if narratives and this one is the first to give scholars of the ancient world centre stage

**The Rise of the Roman Empire: An Alternative History, AD 375-641** Timothy Venning, 2025-05-30 Explores the rise of two empires through division conflict and eventual reunification blending historical events with vivid narratives An alternative history of success rather than decline and fall The actual history is set out and the alternative history with Old Time Lines OTL for reference It is a vivid narrative deeply researched full of events and people great and minor figures who come to life It is a story of division and controversy concerning imperial and dynastic ambition and struggle often caustic family relationships cultural and religious disputes with surviving paganism and the classical philosophy of Neo Platonism and expanding Christianity in church and state in both Empires The Empires are expanding in Europe the Middle East and Africa Division and crisis is followed by restoration more division but finally re unification

The Poetics of Genre in the Contemporary Novel Tim Lanzendörfer, 2015-11-19 The Poetics of Genre in the Contemporary Novel investigates the role of genre in the contemporary novel taking its departure from the observation that numerous contemporary novelists make use of popular genre influences in what are still widely considered to be literary novels it sketches the uses the work and the value of genre It suggests the value of a critical look at texts genre use for an analysis of the contemporary moment From this it develops a broader perspective suggesting the value of genre criticism and taking into view traditional genres such as the bildungsroman and the metafictional novel as well as the kinds of amalgamated forms which have recently come to prominence In essays discussing a wide range of authors from Steven Hall to Bret Easton Ellis to Colson Whitehead the contributors to the volume develop their own readings of genre s work and valence in the contemporary novel

comics and cartoonists pose alternatives to American comics to dominant perceptions even to gender and racial categories In contrast to the United States melting pot Canada has been understood to comprise a social cultural and ethnic mosaic with distinct cultural variation as part of its identity This volume reveals differences that often reflect in highly regional and localized comics such as Paul MacKinnon s Cape Breton specific Old Trout Funnies Michel Rabagliati s Montreal based Paul comics and Kurt Martell and Christopher Merkley s Thunder Bay specific zombie apocalypse The collection also considers some of the conventionally alternative cartoonists namely Seth Dave Sim and Chester Brown It offers alternate views of the diverse and engaging work of two very different Canadian cartoonists who bring their own alternatives into play Jeff Lemire in his bridging of Canadian US and mainstream alternative sensibilities and Nina Bunjevac in her own blending of realism and fantasy as well as of insider outsider status Despite an upsurge in research on Canadian comics there is still remarkably little written about most major and all minor Canadian cartoonists This volume provides insight into some of the lesser known Canadian alternatives still awaiting full exploration
