Amado El:

The Practical Spanish Teacher; Or a New Method of Learning to Read, Write, and Speak the Spanish Language, in a Series of Lessons Norman Pinney, 1855 *The Complete Posthumous Poetry* César Vallejo, 1980-09-29
The Translation judges for the National Book Awards Richard Miller Alastair Reid Eliot Weinberger cited Clayton Eshleman and Jose Rubia Barcia's translation of Cesar Vallejo's *The Complete Posthumous Poetry* as follows: This is the first National Book Award to be given to a translation of modern poetry; it is a recognition of Clayton Eshleman's seventeen-year apprenticeship to perhaps the most difficult poetry in the Spanish language. Eshleman and his present collaborator Jose Rubia Barcia have not only rendered these complex poems into brilliant and living English but have also established a definitive Spanish text based on Vallejo's densely rewritten manuscripts. In recreating this modern master in English they have also made a considerable addition to poetry in our language.

El despertar de los ELEMENTOS Milagros Rodriguez Rosario, 2024-01-05
Se les olvido que al despertar la furia del elemento fuego las llamas fueron incesantes respirar quemaba sus pulmones la piel desprendia de sus huesos El tiempo paso convirtiendo en mito lo que casi destruye la raza humana El medico de una de las aldeas lucha contra los devastadores eventos climatologicos causados por las batallas de los elementos mas soporta torturas con tal de salvar la mujer que siempre ha amado estando en los brazos del hombre equivocado el cual se ha dejado consumir por la codicia de su mejor amigo esclavizando su pueblo mas amenazando con destruir los seres enviados por el espiritu del planeta Tierra

World Editors Gustavo Guerrero, Benjamin Loy, Gesine Müller, 2020-12-16
The existence of World Literature depends on specific processes, institutions, and actors involved in the global circulation of literary works. The contributions of this volume aim to pay attention to these multiple material dimensions of Latin American 20th and 21st century literatures. From perspectives informed by materialism, sociology, book studies, and digital humanities, the articles of this volume analyze the role of publishing houses, politics of translation, mediators and gatekeepers, allowing insights into the processes that enable books to cross borders and to be transformed into globally circulating commodities. The book focusses both on material resources of literary archives, key actors in literary and cultural markets, prizes and book fairs, as well as on recent dimensions of the digital age. Statements of some of the leading representatives of the global publishing world complement these analyses of the operations of selection and aggregation of value to literary texts.
