Nathan H. Brandt

Con Brio Four Russians Called The Budapest String Quartet:

Con Brio Nat Brandt, 2000-07-26 A 1959 New Yorker profile captured the inspired risk taking and raw creative spark of a Budapest String Quartet rehearsal Sasha leaped from his chair and with violin held aloft played the passage with exaggerated schmalz like a street fiddler in Naples Kroyt stopped playing and started singing a Russian song Mischa Schneider thereupon performed a number of stupendous triads on his cello Only Roisman went quietly on with his part untouched by the pandemonium around him playing Beethoven with his noble tone and elegant bowing Here were four men with personalities as varied as their ways of playing Yet when they played they produced a perfect union of instrumental voices and interpretive nuances that not only created an entirely new audience for chamber music in America but also made the Budapest String Quartet the premier chamber music group of the twentieth century

Research and Information Guide is a reference tool for anyone interested in chamber music. It is not a history or an encyclopedia but a guide to where to find answers to questions about chamber music. The third edition adds nearly 600 new entries to cover new research since publication of the previous edition in 2002. Most of the literature is books, articles in journals and magazines, dissertations and theses, and essays or chapters in *Festschriften*, treatises, and biographies. In addition to the core literature, obscure citations are also included when they are the only studies in a particular field. In addition to being printed, this volume is also for the first time available online. The online environment allows for information to be updated as new research is introduced. This database of information is a live resource, fully searchable and with active links. Users will have unlimited access; annual revisions will be made, and a limited number of pages can be downloaded for printing.

The Cambridge Companion to the String Quartet Robin Stowell, 2003-11-13. This Companion offers a concise and authoritative survey of the string quartet by eleven chamber music specialists. Its fifteen carefully structured chapters provide coverage of a stimulating range of perspectives previously unavailable in one volume. It focuses on four main areas: the social and musical background to the quartet's development; the most celebrated ensembles; string quartet playing, including aspects of contemporary and historical performing practice; and the mainstream repertoire, including significant mixed ensemble compositions involving string quartet. Various musical and pictorial illustrations and informative appendixes, including a chronology of the most significant works, complete this indispensable guide. Written for all string quartet enthusiasts, this Companion will enrich readers' understanding of the history of the genre, the context and significance of quartets as cultural phenomena, and the musical, technical, and interpretative problems of chamber music performance. It will also enhance their experience of listening to quartets in performance and on recordings.

Classical and Romantic Performing Practice Clive Brown, 2025-02-12. Drawing upon early recordings, documentary evidence, and the few surviving mechanical instruments, author Clive Brown investigates how we might rediscover the subliminal messages. Classical and Romantic music notation was intended to convey to performers, and argues that composers' intentions for their notation ought not to be confused with their expectations for its execution. The revised and expanded second edition incorporates new information resulting from the author's continued research and practical experimentation since 1999 and his work with a succession of talented doctoral students.
