How We Learn Klaus Issler,Ron Habermas,2002-05-17 No one fully understands how learning works but educational psychologists understand a great deal about what works The collaborative team of Klaus Issler and Ronald Habermas has assembled an integration of theology and instructional theory in Teaching for Reconciliation Foundations and Practice of Christian Educational Ministry Now they expound on one aspect of educational theory theology to help teachers choose the method that best reaches particular learners in a specific learning situation How We Learn demystifies the principles of educational psychology The book identifies means and barriers in learning motivational factors that make learners receptive learning s outcome in attitudes spirituality and behavior Application sections special exercises and examples plus dozens of figures and tables aid understanding of learning effectiveness age related development individual learning style special education and other issues From Engineer to Manager: Mastering the Transition, Second Edition B. Michael

Aucoin,2018-09-30 Providing clear expert guidance to help engineers make a smooth transition to the management team this a newly revised and updated edition of an Artech House bestseller belongs on every engineer s reference shelf The author s 30 plus year perspective indicates that while most engineers will spend the majority of their careers as managers most are dissatisfied with the transition Much of this frustration is the result of lack of preparation and training This book provides a solid grounding in the critical attitudes and principles needed for success The greatly expanded Second Edition adds critical new discussions on the development of healthy teams meeting management delegating decision making and personal branding New managers are taught to internalize the attitudes and master the associated skills to excel in and be satisfied with the transition to management The book explains how to communicate more effectively and improve relationships with colleagues Professionals learn how to use their newly acquired skills to solve immediate problems Moreover they are shown how to apply six fundamental principles to their on going work with engineering teams and management Supplemental material such as templates exercises and worksheets are available at no additional cost at ArtechHouse.com **Thinking**

on Purpose Neil Paton,2014-12-22 Is there a secret that some people seem to know about and use in creating lives that are overflowing with success and abundance The answer is absolutely yes Over the years it s been proven beyond a shadow of a doubt and yet surprisingly it remains a mystery to most to this very day We are the consequences of our environment and although we may not recognize the underlying forces influencing our lives each day the fact is we are all playing a role for the most part unconsciously in creating the outcomes that make up our lives Our thoughts create our feelings our feelings create our actions and our actions create our outcomes Indirectly yet surely we alone are ultimately responsible for the outcomes of our lives through the thoughts we have chosen to emotionally connect with The silver lining is that we also all

have within our reach the ability to directly create new outcomes for a future that is limited only by the thoughts we choose from this day forward Only through learning how to consistently make constructive thought choices can we begin to make a difference in our lives and in the lives of those around us Join me on a personal journey learning the so called secrets and making them work for you in creating the life of your dreams A brand new world awaits Why not come and start building it
