

EXPOSURE AND CONCEALMENT IN DIGITALIZED PUBLIC SPACES¹

Dr. Bo Zhao

"The public-private boundary faces in two directions-keeping disruptive materials out of the public arena and protecting private life from the crippling effects of the external gaze."²

I. INTRODUCTION

Recently, the Dutch data protection authority CBP decided that monitoring people in and around shops by tracking mobile WiFi signal without consent for commercial purposes is against Dutch Data Protection law.³ Dutch company Bluetrace B.V. provided clients with WiFi sensor technology to collect data from shop visitors and passers for commercial analysis. By collecting unique WiFi MAC address automatically transited from mobile phones,⁴ the technology registered mobile and map out their movements. Because device Geo-location data matches the real location of their users in general when they are switched on, WiFi tracking sensors can therefore register and follow users even if they only pass by on street. The investigation found that a large number of Dutch citizens have been affected, when Bluetrace's sensors were installed in many Dutch cities, and they were not aware that they are monitored. Under Dutch Data Protection Law, CBP found that WiFi tracking involves the processing of personal data of a sensitive nature such as location data. It defined Bluetrace as a data controller consequent to the essential role in data collection and processing it played. It

Concealment And Exposure:

Concealment and Exposure Thomas Nagel, 2002 Thomas Nagel is widely recognized as one of the top American philosophers working today Reflecting the diversity of his many philosophical preoccupations this volume is a collection of his most recent critical essays and reviews The first section Public and Private focuses on the notion of privacy in the context of social and political issues such as the impeachment of President Clinton The second section Right and Wrong discusses moral political and legal theory and includes pieces on John Rawls G A Cohen and T M Scanlon among others The final section Mind and Reality features discussions of Richard Rorty Donald Davidson and the Sokal hoax and closes with a substantial new essay on the mind body problem Written with characteristic rigor these pieces reveal the intellectual passion underlying the incisive analysis for which Nagel is known Hidden Intercourse Wouter J. Hanegraaff, Jeffrey Kripal, 2008-12-31 From rumours about gnostic orgies in antiquity to the explicit erotic symbolism of alchemical texts from the subtly coded eroticism of medieval kabbalah to the sexual magic practiced by contemporary occultists and countercultural translations of Asian Tantra the history of Western esotericism is rich in references to the domains of eros and sexuality This volume which brings together an impressive array of top level specialists is the first to analyze the eroticism of the esoteric without sensationalism or cheap generalizations but on the basis of expert scholarship and attention to textual and historical detail While there are few other domains where the imagination may so easily run wild the various contributions seek to distinguish fact from fiction only to find that historical realities are sometimes even stranger than the fantasies In doing so they reveal the outlines of a largely unknown history spanning more than twenty centuries Privacy Steven M. Interstellar Space Sarah Anne Beattie,2025-01-23 This book is a response to two questions The first concerns how we can do better as human beings in addressing the broken relationships between humankind the environment in which we live and the other species with which we coexist in an increasingly fragile world The second concerns whether secular humanism can provide the answer or if there is an important contribution that Christian faith can offer to an understanding of the human condition that will empower effective transformational action The book explores the possibility of developing an interpretive approach to biblical narrative that allows a biblical perspective of reality to provide an important complementary rather than competing supplement to developing scientific perspectives of reality These are perspectives emerging from quantum mechanics and astrophysics that challenge both our conceptual ability and the limits of language in articulating mystery that in resisting physical explanation appears to demand new or different ways of thinking about ourselves and the world in which we live **The City as Target** Ryan Bishop,Gregory Clancey,John W. Phillips,2012-03-29 Bringing together scholars from a diverse range of disciplines The City as Target provides a sustained and critical response to the relationship between the concept of targeting in its many forms and notions of understanding imagining and shaping the urban Among the many spatial and graphic terms used to describe cities in urban studies the word target is rarely encountered Though equally spatial it differs from these others by implying some motive force and more than that a force with some intentionality To target is to aim to project and ultimately to impact It suggests a space of violence or at least action or movement resulting in displacement which most other terms do not In that sense it is useful underused and perhaps revelatory Rather than approach the city as simply a site of growth processes and developments the contributors to this volume treat it as the recipient of attentions The work draws on a wide variety of geographical sites and historic monuments in order to explore this concept examining and challenging current urban theories It seeks to highlight both the power of The Global City and the current vulnerability and fragility of urban culture exploring the city as a recipient and a culprit in relation to issues including terrorism and urban warfare the latest cyclical failure of global financial markets and the relatively new spectre of environmental unsustainability Offering a unique and relevant contribution to the literature this work will be of great interest to scholars of urban theory international relations postcolonial politics and military studies **Research Report** ,2005
