Knight, 2011-01-01 Using socio anthropological theory and archaeological evidence Knight argues that while the laws in the Hebrew Bible tend to reflect the interests of those in power the majority of ancient Israelites located in villages developed their own unwritten customary laws to regulate behavior and resolve legal conflicts in their own communities This book includes numerous examples from village city and cult from publisher description

The Emergence of Israel in Ancient Palestine Emanuel Pfoh, 2016-04-01 Taking advantage of critical methodology for history writing and the use of anthropological insights and ethnographic data from the modern Middle East this study aims at providing new understandings on the emergence of Israel in ancient Palestine and the socio political dynamics at work in the Levant during antiquity The book begins with a discussion of matters of historiography and history writing both in ancient and modern times and an evaluation on the incidence of the modern theological discourse in relation to history and history writing Chapter 2 evaluates the methodology used by biblical scholars for gaining knowledge on ancient Israelite society Pfoh argues that such attempts often apply socio scientific models on biblical narratives without external evidence of the reconstructed past producing a virtual past reality which cannot be confirmed concretely Chapter 3 deals with the archaeological remains usually held as clear evidence of Israelite statehood in the tenth century BCE The main criticism is directed towards archaeological interpretations of the data which are led by the biblical narratives of the books of Judges and Samuel resulting in a harmonic blend of ancient literature and modern anthropological models on state formation Chapter 4

continues with the discussion on how anthropological models should be employed for history writing. Socio-political concepts such as chiefdom society or state formation should not be imposed on the contents of ancient literary sources i.e. the Bible but used instead to analyse our primary sources: the archaeological and epigraphic records in order to create a socio-historical account. The final chapter attempts to provide an historical explanation regarding the emergence of Israel in ancient Palestine without relying on the Bible but only on archaeology, epigraphy and anthropological insights. This Israel is not the biblical one. This is the Israel from history, the one that the modern historian aims at recovering from the study of ancient epigraphic and archaeological remains. The arguments presented challenge the idea that the biblical writers were recording historical events as we understand this practice nowadays and that we can use the biblical records for creating critical histories of Israel in ancient Palestine. It also questions the existence of undisputable traces of statehood in the archaeological record from the Iron Age as the biblical images about a United Monarchy might lead us to believe. Thus, drawing on ethnographic insights, we may gain a better knowledge on how ancient Levantine societies functioned, providing us with a context for understanding the emergence of historical Israel as a major highland patronate with a socio-political life of almost two centuries. It is during the later periods of ancient Palestine's history, the Persian and the Graeco-Roman that we find the proper context into which biblical Israel is created, beginning a literary life of more than two millennia. **Hebrew**

Bible / Old Testament. III: From Modernism to Post-Modernism Magne Sæbø, Jean Louis Ska, Peter Machinist, 2014-12-10. The long and complex history of reception and interpretation of the Hebrew Bible/Old Testament through the ages described in the HBOT Project focuses in this concluding volume III Part 2 on the multifarious research and the different methods used in the last century. Even this volume is written by Christian and Jewish scholars and takes its wider cultural and philosophical context into consideration. The perspective is worldwide and ecumenical. Its references to modern biblical scholarship on which it is based are extensive and updated. The indexes, names, topics, references to biblical sources and a broad body of literature beyond are the key to the wealth of information provided. Contributors are: J. Barton, H. L. Bosman, A. F. The Interpretation of the Hebrew Word (People) in Samuel-Kings Luke Emehiele Ijezie, 2006 This study of the word people in the biblical context touches one of the central issues of biblical literature The author addresses the semantic and literary critical problems involved in interpreting the Hebrew word within the complex texts of 1 2 Samuel and 1 2 Kings While the word is often rendered by the English word people and its cognates in the modern languages it is also shown that the idea of people together with its semantic range in the modern usage is not identical to the ancient Hebrew Concerted effort is thus made to identify the basic factors and patterns that explain its meaning in various Hebrew contexts The study explains how expresses both Israel's identity as a secular polity as well as its identity as a religious entity The discussion is carried out in the light of a number of chosen texts and these are analyzed both synchronically and diachronically

Apostles of Revolution? Marxism and Biblical Studies Christina Petterson, 2020-04-20 In *Apostles of Revolution Marxism and Biblical Studies* Christina Petterson sheds light on the collaboration between Biblical studies and liberal ideology Marxist analysis of the bible is spreading but clarity about what constitutes Marxist readings and Marxist categories of analysis is lacking a lack of clarity compounded by the different strands within Marxist politics and its subtle resonances in biblical scholarship The author examines the interplay between Biblical studies and liberal ideology in two ways First by presenting and discussing some of the central Marxist categories of analysis namely history ideology and class and how these categories have been co opted into biblical studies and in the process lost their radical edge Second by discussing the emergence of the discipline of biblical studies during the

Enlightenment and to what extent the containment strategies of biblical studies overlap with those of capitalism Gerhard von Rad and the Study of Wisdom Literature Timothy J. Sandoval, Bernd U. Schipper, 2022-10-20 Gerhard von Rad's study of biblical wisdom literature in *Weisheit in Israel* 1970 is widely regarded as one of the most important studies in the field of ancient Israelite wisdom literature. More than fifty years later contributors to *Gerhard von Rad and the Study of Wisdom Literature* reevaluate the significance and shortcomings of the late scholar's work and engage new methods and directions for wisdom studies today. Contributors include George J. Brooke, Ariel Feldman, Edward L. Greenstein, Arthur Jan Keefer, Jennifer L. Koosed, Will Kynes, Christl M. Maier, Timothy J. Sandoval, Bernd U. Schipper, Mark Sneed, Hermann Spieckermann, Anne W. Stewart, Raymond C. Van Leeuwen, Stuart Weeks, and Benjamin G. Wright III. This collection of essays is essential reading not only for specialists in wisdom studies but also for scholars and advanced students of the Hebrew Bible in general.

The Oxford Handbook of Wisdom and the Bible Will Kynes, 2021 A high profile and authoritative volume in which a broad range of leading scholars in the field assess the current state of the art in the study of both Wisdom Literature as a category of texts in the Hebrew Bible and as a concept more generally. This particularly timely handbook captures the field at a time in which a plethora of new questions are being asked about Wisdom Literature and spans the gap between that cutting edge scholarship and standard textbook expositions.

Second Temple Studies IV Alice Hunt, 2012-08-02 Collection of the papers presented at the 2004 SBL sessions for the section Social Scientific Studies of the Second Temple period. *The Social History of Ancient Israel* Rainer Kessler, An accessible social history of ancient Israel designed for Old Testament courses. Includes a timeline and glossary of terms. *The Politics of Pessimism in Ecclesiastes* Mark R. Sneed, 2012-02-27 Scholars attempt to resolve the problem of the book of Ecclesiastes' heterodox character in one of two ways: either explaining away the book's disturbing qualities or radicalizing and championing it as a precursor of modern existentialism. This volume offers an interpretation of Ecclesiastes that both acknowledges the unorthodox nature of Qoheleth's words and accounts for its acceptance among the canonical books of the Hebrew Bible. It argues that instead of being the most secular and modern of biblical books, Ecclesiastes is perhaps one of the most religious and primitive. Bringing a Weberian approach to Ecclesiastes, it represents a paradigm of the application of a social science methodology.

Collective and Individual Responsibility Jurrien Mol, 2009-08-31 A long discussed theme concerning Ezekiel 18 and 20 is the relationship between collective and individual responsibility. In the first half of the twentieth century the discussion appeared to end as a result of the introduction of the corporate personality by Henry Wheeler Robinson 1872-1945. This concept became heavily discussed and was dismissed on the grounds of its superseded theoretical basis. The continuing use

of the concept requires a redefinition and a new theoretical basis which is provided by the multimodal framework by Geoffrey Samuel from the field of cultural anthropology Before applying the concept Ezekiel 18 and 20 are studied extensively relative to textual criticism philology grammar and structural analysis **Confronting the Past** Seymour Gitin,J.
