Conceptualizing Child Adult Relationships:

Conceptualising Child-Adult Relations Leena Alanen, Berry Mayall, 2002-11-01 Conceptualising Child Adult Relations focuses on how children conceptualise and experience child adult relations The authors explore the idea of generation as a key to understanding children's agency in intersection with social worlds which are largely organised and ordered by adults The authors explore two interconnected themes how children define the division of labour between children and adults and how far children regard themselves as constituting a separate group This book is ground breaking in its focus on the variety and commonality in children's lives and views across a broad range of contexts It provides innovative theoretical approaches to the growing study of childhood by homing in on intergenerational relations as a main concept and draws attention to links across the main sites of children's lives such as the home neighbourhood and school Moreover for policy related issues this book provides food for thought about the social conditions and status of childhood and the factors structuring it

Conceptualizing Child-adult Relations Leena Alanen, Berry Mayall, 2001-01-01 This book brings together case studies from a wide range of societies with varying social expectations in order to examine childhood and how this stage in life differs from adulthood for example in terms of work and status

Counseling Theories and Case Conceptualization Stephen V. Flynn, Joshua J. Castleberry, 2023-10-30 One of the aspects of this textbook that I most appreciate is that Dr Flynn embraces action as a scholar by integrating the most relevant and impactful theoretical practices tackling developing trends such as telebehavioral health and challenging us as readers to apply complex theoretical constructs from an intersectional culturally responsive and social justice paradigm This is not a reimagining of the traditional counseling theories textbooks from 10 years ago but rather an act of evolution and engagement captured in the immediate assertion of social justice oriented theories Nicole R Hill Interim Provost and Vice President for Academic Affairs Professor Counselor Education Shippensburg University Helps future counselors apply key theoretical constructs to real world scenarios through session transcripts and detailed case conceptualizations For students enrolled in master's and advanced doctoral programs this groundbreaking textbook blends theoretical insight and practical application Woven throughout is a focus on the multiple levels of diversity intersectionality and identity that individuals embody and the skills and interventions necessary to produce positive outcomes The book is distinguished by the inclusion of Voices from the Field digital video interviews with 12 expert practitioners of leading theories These practitioners representing different contextual backgrounds and intersectional identities share their perspectives and experiences on how to best use a particular theory to help marginalized communities who have experienced discrimination All theory based chapters provide readers with case conceptualizations session transcripts and videos of Voices from the Field Additionally all chapters include learning objectives chapter summaries and student activities Within each chapter students will learn theory aligned assessment instruments that resonate with clients needs and acquire proficiency in an eclectic array of techniques derived from both classic and contemporary counseling theories The book

innovatively applies techniques and skills to pressing issues such as racism discrimination and inequity through adept application of theory to empower healing and transformation Instructors will also have access to a full suite of ancillaries including an Instructor Manual Test Bank and chapter PowerPoints Key Features Mapped to the Council for the Accreditation of Counseling and Related Educational Programs CACREP 2016 and 2024 standards Examines nuances of 36 counseling theories new and emerging counseling theories and describes 24 theoretically congruent assessment instruments Includes 12 digitally recorded Voices from the Field interviews that showcase first person accounts from diverse clinicians working with marginalized communities people of color LGBTQIA clientele and other underrepresented populations Contains detailed information about the profession s unique theoretical history leaders legacies waves of philosophical and political change and practice based skills Incorporates information needed to fully understand how counseling theories make meaning of mental health issues human development and client and counselor therapeutic roles Chapters include an examination of the findings of contemporary theory based research Demonstrates the use of theoretical and atheoretical case conceptualization and skills using the same reoccurring case Provides session transcripts for each theoretical chapter demonstrating in depth examples of theory based skills

Conceptualising Child-adult Relationships ,2001 **Treated Like a Child** ,2025-09-25 One of the core principles of the UN Convention on the Rights of the Child is non discrimination However little attention has been given to how this principle can protect children from discrimination because of age and childhood This anthology brings together experts from children s rights studies to explore both overall issues related to discrimination of children as well as non legitimate differential treatment in specific contexts including climate crisis child labour migration healthcare and child protection Attention is drawn to the potential to advance children s rights in the framework of nondiscrimination in relation to children as a group

Handbook of Psychological Assessment, Case Conceptualization, and Treatment, Volume 2 Michel Hersen,David Reitman,2008-05-13 Edited by recognized experts Michel Hersen and David Reitman Handbook of Psychological Assessment Case Conceptualization and Treatment Volume 2 Children and Adolescents is a thorough and practical reference for those working with children and adolescents Bringing together the most current theories and evidence based applications chapters address issues of importance including depressive disorders substance use disorders and childhood psychosis Each chapter follows a structured format opening with an overview of assessment followed by case conceptualization and finally recommended treatment

Hidden Hands Angela Bolton,Phillip Mizen,Christopher Pole,2002-01-04 Hidden Hands focuses on a specific and neglected area of contemporary child welfare that of children s paid work and labour This book provides the first cross cultural examination of children s productive activities their relationship to children s broader social lives and their implications for the child s education welfare and well being The contributors look at the situation both here and overseas They discuss issues including conflicts between schooling education and work in the UK child poverty motivating children to work children from ethnic minorities

the work and labour of children in industrialised countries and the situation in the US Denmark Germany and Russia The growth in the study of childhood encompasses anthropology sociology social policy and social work as well as education This book will be of use in all of these areas *Children Taken Seriously* Jan Mason,Toby Fattore,2005-01-15 In *Children Taken Seriously* leading researchers and policy makers consider how children can be recognized as social actors rather than passive consumers or victims Using children s own views and experiences as a starting point they explore how children can be involved as partners in the decision making processes that affect them in social work education health care and broader social policies Chapters on the theoretical background draw parallels between developments in children s and women s rights and discuss communication issues and social and sexual constructions of children Other chapters explore issues of policy and practice in a variety of areas from Family Group Conferencing and child protection to child labour and notions of active citizenship Highlighting the important role of schools in empowering children the authors discuss children s engagement in and participation in their own education and how children s rights theory influences debates over discipline This accessible and thought provoking book is a rich source of insight and ideas for social workers teachers mental health professionals and anyone working with children Vietnam's Children in a Changing World Rachel Burr,2006-03-24 Like the majority of children living in the global South today a large number of Vietnamese youths work to help support their families International human rights organizations have focused on these children seeking to bring their lives into line with an understanding of childhood that is generally accepted in the developed world In this ethnographic study Rachel Burr draws on her daily observations of working children in Hanoi and argues that these youngsters are misunderstood by the majority of agencies that seek to help them Most aid programs embrace a model of childhood that is based on Western notions of individualism and bountiful resources They further assume that this model is universally applicable even in cultures that advocate a collective sense of self and in countries that do not share the same economic advantages Burr presents the voices and experiences of Vietnamese children in the streets in a reform school and in an orphanage to show that workable solutions have become lost within the rhetoric propagated by aid organizations The reality of providing primary education or adequate healthcare for all children for instance does not stand a chance of being achieved until adequate resources are put in place Yet organizations preoccupied with the child rights agenda are failing to acknowledge the distorted global distribution of wealth in favor of Western nations Offering a unique firsthand look at the experiences of children in contemporary Vietnam this book also provides a broad analysis of how internationally led human rights agendas are often received at the local level The Future of Childhood Alan Prout,2004-11-10 Alan Prout discusses the place of children and childhood in the late modernity He argues that there appears to be a greater cultural confusion about the form that childhood should take **Children, Technology and Culture** Ian Hutchby,Jo Moran-Ellis,2013-12-02 Childhood is increasingly saturated by technology from television to the Internet video games to video nasties camcorders to personal

computers Children Technology and Culture looks at the interplay of children and technology which poses critical questions for how we understand the nature of childhood in late modern society This collection brings together researchers from a range of disciplines to address the following four aspects of this relationship between children and technology children s access to technologies and the implications for social relationships the structural contexts of children s engagement with technologies with a focus on gender and the family the situatedness of children s interactions with technological objects the constitution of children and childhood through the mediations of technology _ This book represents a substantial contribution to contemporary social scientific thinking both about the nature of children and childhood the social impacts of technologies and the various relationships between the two **Consumption Norms and Everyday Ethics** L. Pellandini-Simányi,Léna Pellandini-Simányi,2014-03-11

How much is acceptable to consume What is appropriate to consume and which goods fall into the disapproved category Answers to these questions vary widely across time and space This book examines the sources of this variation by providing an account of how everyday consumption norms develop why they differ and why they change

Hanging Out, Messing Around, and Geeking Out, Tenth Anniversary Edition Mizuko Ito,Sonja Baumer,Matteo Bittanti,Danah Boyd,Rachel Cody,2019-09-24 The tenth anniversary edition of a foundational text in digital media and learning examining new media practices that range from podcasting to online romantic breakups Hanging Out Messing Around and Geeking Out first published in 2009 has become a foundational text in the field of digital media and learning Reporting on an ambitious three year ethnographic investigation into how young people live and learn with new media in varied settings at home in after school programs and in online spaces it presents a flexible and useful framework for understanding the ways that young people engage with and through online platforms hanging out messing around and geeking out otherwise known as HOMAGO Integrating twenty three case studies which include Harry Potter podcasting video game playing music sharing and online romantic breakups in a unique collaborative authorship style Hanging Out Messing Around and Geeking Out combines in depth descriptions of specific group dynamics with conceptual analysis Since its original publication digital learning labs in libraries and museums around the country have been designed around the HOMAGO mode and educators have created HOMAGO guidebooks and toolkits This tenth anniversary edition features a new introduction by Mizuko Ito and Heather Horst that discusses how digital youth culture evolved in the intervening decade and looks at how HOMAGO has been put into practice This book was written as a collaborative effort by members of the Digital Youth Project a three year research effort funded by the John D and Catherine T MacArthur Foundation and conducted at the University of California Berkeley and the University of Southern California *Childhood* Chris Jenks,2005 Childhood is an extremely complex and highly contested concept It refers to a life phase as well as to the age group defined as children but is also a cultural construction part of the social and economic structure of communities The key scholarship collected introduced and reprinted in these volumes reflects this complexity and introduces the reader to the wide variety of

interpretations that have been and continue to be placed on it. It might be suggested that the push or initiative in theorizing childhood has derived from advances within sociology and anthropology. However, the future provides potential for interdisciplinary study which this collection also reflects. The contemporary study of childhood must comprise a conjoining of disciplines: sociology, anthropology, psychology, social geography, history, philosophy, and socio-legal theory; all have something to add to the field and are represented within the collection. *Translating Childhoods* Marjorie Faulstich

Orellana, 2009-05-18 Though the dynamics of immigrant family life has gained attention from scholars, little is known about the younger generation often considered invisible. *Translating Childhoods* a unique contribution to the study of immigrant youth brings children to the forefront by exploring the work they perform as language and culture brokers and the impact of this largely unseen contribution. Skilled in two vernaculars, children shoulder basic and more complicated verbal exchanges for non-English speaking adults. Readers hear through children's own words what it means to be in the middle or the keys to communication that adults otherwise would lack. Drawing from ethnographic data and research in three immigrant communities, Marjorie Faulstich Orellana's study expands the definition of child labor by assessing children's roles as translators as part of a cost equation in an era of global restructuring and considers how sociocultural learning and development is shaped as a result of children's contributions as translators.

Wellbeing: A Complete Reference Guide, Wellbeing in Children and Families Susan H. Landry, 2014-03-17 This is a wide-ranging look at the factors which positively and negatively affect the wellbeing of children and families. Discusses core developmental competencies for later life, the role of the family, the impact of different settings and factors associated with lower levels of wellbeing. Brings together the latest research from leaders in the field of child development. Outlines important recommendations for families, caregivers, educators, social workers, and policymakers to assure and increase child wellbeing. Part of the six-volume *Wellbeing: A Complete Reference Guide* which brings together leading research from across the social sciences. **Case**

Conceptualization and Treatment Planning Pearl S. Berman, 2014-11-19 Using compelling client interviews and skill-building exercises, this practical book shows students how to tailor clinical work to the specific background of a client using any theoretical perspective. Thoroughly revised and expanded, the Third Edition of *Case Conceptualization and Treatment Planning* by Pearl S. Berman adds two new theoretical orientations: cultural therapy and the cognitive-behavioral model, and includes exercises for expanding student self-awareness of personal biases. Growing Up in Nineteenth-century Ireland

Mary Hatfield, 2019 A comprehensive cultural history of childhood in nineteenth-century Ireland which explores how the notion of childhood fluctuated depending on class, gender, and religious identity and presents invaluable new insights into Irish boarding schools, the material culture of childhood, and the experience of boys and girls in education. *Studying*

Children in Context M. Elizabeth Graue, Daniel J. Walsh, 1998-02-19 What is the world like for today's children? How do they construct meaning in it? Answering these key questions, *Studying Children in Context* explains the art and science of doing

qualitative research involving children Authors M Elizabeth Graue and Daniel J Walsh carefully discuss the research process dealing succinctly with generic research issues yet emphasizing where work with children presents its own particular challenges They look across the research enterprise in the first part of the book conceptualizing it as a holistic activity They next focus on fieldwork and in the final section examine the interpreting and reporting aspects of qualitative research In addition to presenting their own considerable experiences in fieldwork with children Graue and Walsh also present the contributions of numerous researchers with their own insights on key issues Studying Children in Context will be an invaluable addition to the libraries of teachers and researchers interested in qualitative research methods in general and in doing fieldwork with children in particular Children's Childhoods Berry Mayall, 2002-11 First published in 2004 Routledge is an imprint of Taylor Francis an informa company
