

CONCERNING FOUR  
PRECURSORS OF HENRY  
GEORGE AND THE SINGLE  
TAX, AS ALSO THE LAND  
GOSPEL ACCORDING TO  
WINSTANLEY "THE DIGGER,"

DAVIDSON, JOHN MORRISON

# Concerning Four Precursors Of Henry George And The

**Francis K. Peddle, William S. Peirce**

## **Concerning Four Precursors Of Henry George And The:**

**Concerning four precursors of Henry George and the single tax, as also the land gospel according to Winstanley 'the digger'.** John Morrison Davidson,1903      **Henry George, The Transatlantic Irish, and their Times** Kenneth C. Wenzer,2009-06-09 The American political economist Henry George devoted his life to the single tax Virtually forgotten today his best seller Progress and Poverty influenced numerous people in the English speaking world His fame and fall were due to a temporary alliance with the American Irish Catholics who were agitating for the land war in Ireland      *An Anthology of Henry George's Thought* Henry George,Kenneth C. Wenzer,1997 During the latter half of the nineteenth century a number of social philosophers gained pre eminence throughout North America and Europe for their writings and speeches Henry George being one of the best known often referred to as progressivists they sought to expose the established and growing socio economic iniquities that were the result of swift industrialisation and called for a new political economy and social order This book the first in a trilogy examines the basics of Henry George's political and social philosophy Through careful and exhaustive research into George's original works including Progress and Poverty Our Land and Land Policy and articles in the Standard the editor has compiled in one volume the essentials required for a clear and comprehensive understanding of Henry George's thinking Volume I An Anthology of Henry George's Thought Volume II An Anthology of Tolstoy's Spiritual Economics Volume III An Anthology of Single Land Tax      **Henry George's Legacy in Economic Thought** John Laurent,2005-01-01 Henry George's Legacy in Economic Thought will appeal in particular to upper level students and scholars of the history of economic thought and the public sector but also to economists more widely

**Concerning Four Precursors of Henry George and the Single Tax as Also the Land Gospel According to Winstanley "The Digger."** John Morrison Davidson,1904      **The Radical Soldier's Tale** Carolyn Steedman,2016-07-01 First published in 1988 The Radical Soldier's Tale is both an introduction to and a transcript of his Memoirs written after his retirement in 1881 In this autobiography he presents his life as a soldier during the Sikh Wars his life as a policeman and the ideologies which divided people from each other in the societies he had known and read about Carolyn Steedman introduces the Memoirs by placing the document in its textual context as well as the context of history and politics and shows how it directs fascinating light on popular political thought in the mid Victorian years In her introduction she looks closely at the kind of narratives people have access to in different social circumstances and the stories they tell themselves to explain who they are This book will be of particular interest to students of Victorian history and politics      **Henry George (1839-1897)** Mark Blaug,1992 Part of a series presenting critical appraisals of influential economists from the age of Aristotle to the present The individuals examined have shaped both the theory and practice of modern economics Each volume combines classic statements by economists with the most recent research      *The Annotated Works of Henry George* Francis K. Peddle,William S. Peirce,2022-02-02 Henry George 1839 1897 rose to fame as a social reformer and economist amid the

industrial and intellectual turbulence of the late nineteenth century His best selling Progress and Poverty 1879 captures the ravages of privileged monopolies and the woes of industrialization in a language of eloquent indignation His reform agenda resonates as powerfully today as it did in the Gilded Age and his impassioned prose and compelling thought inspired such diverse figures as Leo Tolstoy John Dewey Sun Yat Sen Winston Churchill and Albert Einstein This six volume edition of The Annotated Works of Henry George assembles all his major works for the first time with new introductions critical annotations extensive bibliographical material and comprehensive indexing to provide a wealth of resources for scholars and reformers Volume V of this series presents the unabridged and posthumously published text of The Science Political Economy 1898 George s original text is comprehensively supplemented by annotations which explain his many references to other political economists and writers both well known and obscure A new index augments accessibility to the text the critical annotations and their key terms The introductory essay by Professor Francis K Peddle Political Economy and the Satisfactions of Wealth provides the historical economic and primarily philosophical context for George s debates with the prominent political economists and thinkers of his time Henry George in history books and documentaries is generally portrayed as a prominent reformer in the Gilded Age one who ushered in with others the social and economic advances of the Progressive Era in the period from the 1890s to the 1920s The Science of Political Economy reveals George to be one of the most original and systematic architects of political economy and its developing self image as a science in the nineteenth century along with David Ricardo John Stuart Mill and Alfred Marshall Henry George wrote The Science of Political Economy in order to correct the many confusions and myths about the nature and definition of wealth value and money as well as the essential assumptions behind efficient production and the moral basis of the distribution of wealth He defined political economy as the science that treats of the nature of wealth and of the laws of production and distribution It is not for him a science of human psychology or the twists and turns of political life George s constructive critiques of previous political economists led to fresh insights about the meaning and the limitations of political economy about the intriguing relation between wealth and value and about how the proper distribution of wealth in society ought to be understood as a function of the cooperative character of civilization Volume V of The Annotated Works of Henry George presents the culmination of his life s work and thought

**An Anthology of Single Land Tax Thought** Kenneth C. Wenzer,1997 An understanding of the Single Land Tax or the single tax on land value as it is usually known and of Henry George go hand in hand for this was a major tenet of his political economy This final volume in the Henry George Centennial Trilogy comprises selections from the works of distinguished scholars both past and present on the single land tax and its relation to Georgist philosophy Drawing upon principles of land economics they offer detailed and diverse insights into the concept of a single tax based on land value and the practical uses of land value taxation in industrialised economies as an effective and equitable way to redistribute wealth **Ireland's Hope: The “peculiar theories” of James Fintan Lalor** James P. Bruce,2020-10-06 In 1847 and 1848 a little known farmer named

James Fintan Lalor wrote a series of newspaper articles in which he outlined his vision for Ireland after the Great Famine. Although they have been reprinted and republished many times since until now there has been no systematic study of the principles and proposals that Lalor expounded. In this book the author considers Lalor's brief career as a writer and offers new insights into his treatment of the national and land questions. By elucidating Lalor's ideas on these questions, exploring possible influences on his thinking and assessing the impact of his writings on his contemporaries, the author seeks to address what he regards as two deficiencies in the historiography. The first of these is the tendency to assign only a minor supporting role to Lalor during the brief heyday of Young Ireland. Academic studies typically portray him as little more than a catalyst in the radicalisation of figures like John Mitchel rather than as a profoundly original thinker in his own right. The second issue is the commonly held perception of Lalor's proposals on land tenure as foreshadowing the creation of a peasant proprietary later in the century. The author argues that Lalor advocated a much more radical plan that would link his two primary objectives: the creation of a sovereign Irish republic and transfer of control over landholding from a small number of landlords to the entire Irish people. By comparing and contrasting Lalor's theories with those of earlier figures such as Thomas Paine and James Brontë, this ground-breaking book broadens the perspective on Lalor and his writings beyond the context of Irish nationalism. As the author concludes, Lalor's unique contribution to Irish radical thought merits a more prominent place in nineteenth-century intellectual history than it has hitherto received. This book will be of great value to anyone interested in Irish history since 1800, especially in the areas of the Great Famine, the Young Ireland movement, and the Land War.

**Handbook of Public Finance** Jürgen Backhaus, Richard E. Wagner, 2006-01-16 The Handbook of Public Finance provides a definitive source reference and text for the field of public finance. In 18 chapters it surveys the state of the art, the tradition and breadth of the field, but also its current status and recent developments. The Handbook's intellectual foundation and orientation is truly multidisciplinary. Throughout its examination of the standard material of public finance, it explores the connections between that material and such neighboring fields as political science, sociology, law, and public administration. The editors and contributors to the Handbook are distinguished scholars who write clearly and accessibly about the political economy of government budgets and their policy implications. To address the needs and interests of international scholars, they place European issues next to the American agenda and give attention to the issues of transformation in Central Eastern Europe and elsewhere. General Editors: Jürgen G. Backhaus, University of Erfurt; Richard E. Wagner, George Mason University. Contributors: Andy H. Barnett, Charles B. Blankart, Thomas E. Borchering, Rainald Borck, Geoffrey Brennan, Giuseppe Eusepi, J. Stephen Ferris, Fred E. Folvay, Andrea Garzoni, Heinz Grosseketaler, Walter Hettich, Scott Hinds, Randall G. Holcombe, Jean Michel Josselin, Carla Marchese, Alain Marciano, William S. Peirce, Nicholas Sanchez, David Schap, A. Allan Schmid, Russell S. Sobel, Stanley L. Winer, Bruce Yandle.

**The Law of Freedom, and Other Writings** Gerrard Winstanley, 1983. Leader of the Diggers or True Levellers, whose colony was forced to disband in 1650. Gerrard

Winstanley stands out from a century remarkable for its development in political thought as one of the most fecund and original of political writers An acute and penetrating social critic with a passionate sense of justice he worked out a collectivist theory which strikingly anticipates nineteenth and twentieth century socialism He was the first modern European thinker to write in the vernacular advocating a communist society and to call upon ordinary people to realize it Winstanley published a number of pamphlets on the colony's behalf among them a summary of his ideas published in 1652 as *The Law of Freedom in a Platform* and dedicated to Oliver Cromwell Christopher Hill's selection from Winstanley's many published pamphlets demonstrates the coherence and social relevance of Winstanley's philosophy while it reveals his mastery of colloquial prose and his superb use of imagery **Henry George and British Socialism** Peter d'Alroy Jones,1991

*Britain's Flirtation with the Socialist Imaginary* Chris Wilkes,2024-05-09 In 1945 Winston Churchill fresh from winning World War Two for Britain called an election Within days he was thrown out and a completely new form of government took hold What followed was a revolutionary period in British history in which centuries of tradition were questioned Socialism appeared to be waiting in the wings This book traces the origins of this transformation in the long history of British democracy It examines the ideas and actions which began in the 1930s that enabled this revolution and the new society that emerged beyond its origins and into the 21st Century The problems that this revolution sought to solve remain to this day as the British government in 2024 wrestles with strikes social disorder and massive economic headwinds Understanding the history of the present dilemmas is essential if we are to grapple successfully with the enduring problems Britain still faces to this day Gerrard Winstanley John Gurney,2012-11-09 Christian Communist leader of the Diggers movement and bete noire of the landed aristocracy Gerard Winstanley 1609-1676 was one of the founders of a movement which fought for the redistribution of land and the abolition of wages and property under Oliver Cromwell John Gurney reveals the hidden history of Winstanley and his movement As part of the radical ferment which swept England at the time of the civil war Winstanley led the Diggers in taking over land and running it as a common treasury for all provoking violent opposition from landowners Gurney also guides us through Winstanley's writings which are among the most remarkable prose writings of his age Gurney proves that the Diggers or the New Levellers as they called themselves remain as an inspiration to many radical movements today Land and Liberalism Andrew Phemister,2023-03-09 Irish land in the 1880s was a site of ideological conflict with resonances for liberal politics far beyond Ireland itself The Irish Land War internationalised partly through the influence of Henry George the American social reformer and political economist came at a decisive juncture in Anglo American political thought and provided many radicals across the North Atlantic with a vision of a more just and morally coherent political economy Looking at the discourses and practices of these agrarian radicals alongside developments in liberal political thought Andrew Phemister shows how they utilised the land question to articulate a natural and universal right to life that highlighted the contradictions between liberty and property In response to this popular agrarian movement liberal thinkers

discarded many older individualistic assumptions and their radical democratic implications in the name of protecting social order property and economic progress Land and Liberalism thus vividly demonstrates the centrality of Henry George and the Irish Land War to the transformation of liberal thought *Natural Law and Moral Philosophy* Knud Haakonssen,1996-02-23 Providing the most comprehensive guide to modern natural law theory available this major contribution to the history of philosophy sets out the full background to liberal ideas of rights and contractarianism and offers an extensive study of the Scottish Enlightenment *Concerning Four Precursors of Henry George and the Single Tax, as Also the Land Gospel According to Winstanley the Digger (Classic Reprint)* John Morrison Davidson,2015-08-08 Excerpt from Concerning Four Precursors of Henry George and the Single Tax as Also the Land Gospel According to Winstanley the Digger About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *A Covenantal Imagination* William Johnson Everett,2021-12-15 This harvest of articles drawn from William Johnson Everett s career of teaching and research on four continents and in a variety of institutions shows the breadth depth and diversity of his interests Like spotlights in the wider field of Christian social ethics they illuminate the key threads that have held together an emerging tapestry of thought woven around the powerful concept of covenant Whether lifting up concepts of covenant federalism and corporation the oikos of work family and faith the public nature and mission of the church or the ethical meaning of journey metaphors his rich and artful style leads us into thinking more deeply about the way our lives are joined in a covenantal imagination about a more just and sustainable world **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1904
