Conciliarist Tradition Constitutionalism In The Catholic Church 1300 187:

Reviving the Eternal City Elizabeth McCahill, 2013-10-14 In 1420 after more than one hundred years of the Avignon Exile and the Western Schism the papal court returned to Rome which had become depopulated dangerous and impoverished in the papacy's absence Reviving the Eternal City examines the culture of Rome and the papal court during the first half of the fifteenth century As Elizabeth McCahill explains during these decades Rome and the Curia were caught between conflicting realities between the Middle Ages and the Renaissance between conciliarism and papalism between an image of Rome as a restored republic and a dream of the city as a papal capital Through the testimony of humanists rhetorical texts and surviving archival materials McCahill reconstructs the niche that scholars carved for themselves as they penned vivid descriptions of Rome and offered remedies for contemporary social economic religious and political problems In addition to analyzing the humanists intellectual and professional program McCahill investigates the different agendas that popes Martin V 1417 1431 and Eugenius IV 1431 1447 and their cardinals had for the post Schism pontificate Reviving the Eternal City illuminates an urban environment in transition and explores the ways in which curialists collaborated and competed to develop Rome's ancient legacy into a potent cultural myth

The Conciliarist Tradition Francis Oakley, 2003-11-27 In the early fifteenth century the general council assembled at Constance and representing the universal Church put an end to the scandalous schism which for almost forty years had divided the Latin Church between rival lines of claimants to the papal office It did so by claiming and exercising an authority superior to that of the pope an authority by virtue of which it could impose constitutional limits on the exercise of his prerogatives stand in judgement over him and if need be depose him for wrongdoing In so acting the council gave historic expression to a tradition of conciliarist constitutionalism which long competed for the allegiance of Catholics worldwide with the high papalist monarchical vision that was destined to triumph in 1870 at Vatican I and to become identified with Roman Catholic orthodoxy itself This book sets out to reconstruct the half millennial history of that vanquished rival tradition
