PROPER DISPOSITIONS* FOR THE FULL EFFECTS OF THE LITURGY, A STUDY OF SACROSANCTUM CONCILIIUM, PAR. 11

This paper will consider the role of the heart in the faithful's liturgical participation that enables the liturgy to "produce its full effects" in the Christian person (SC 11).

In the Catholic theological tradition, the role of the dispositions of the heart holds a profound place. The spiritual life should dispose one to the liturgy of the Church, and the way Christ's mysteries are celebrated should also dispose one's heart to a deeper union with Christ. Within this dispositive dynamic, I will explore the teaching presented in paragraphs 10-13, through an examination of the thought of various theologians. From this perspective we will understand further the importance of how one's voice must draw their mind into a cooperation with divine grace (SC 11).

Indeed, not only the voice, but the whole person's bodily engagement in the liturgy should draw the person into the Paschal Mystery.

Ecology, Liturgy, and the Sacraments Irwin, Kevin W.,2023 This book is based on the principle that the liturgy is the enactment of the work of our redemption through the raising up acknowledging and revering elements of the cosmos the earth and our fellow creatures in our common home It is inspired by Pope Francis s encyclical Laudato Si On Care for Our Common Home in its entirety not just the sections on the Eucharist and liturgy because it presents a world view and requires respecting and caring for all creatures who share this planet It is illuminated by research into the history of sacramental theologies and the contemporary context of concern for the environment In effect there is no such thing as one Roman Catholic theology of the sacraments and more often than not differing contexts in the life of the church and the world required differing contents for sacramental theology The author argues that concern for the environment is a traditional Catholic premise based on the goodness of creation and that God is creator of heaven and earth He also argues that an ecological approach to sacramental theology can help to understand underlying factors and principles in the enactment of the liturgy of the sacraments about how and where God is discovered in the world in general and in the liturgy and sacraments in an intense and focused way through engagement with all who dwell in our common home
