Bulgaria and Bulgarians Plamen Pavlov,2009 *Blood Ties* İpek Yosmaoğlu,2013-11-27 The region that is today Macedonia was long the heart of the Ottoman Empire in Europe It was home to a complex mix of peoples and faiths who had for hundreds of years lived together in relative peace To be sure these people were no strangers to coercive violence and various forms of depredations visited upon them by bandits and state agents In the final decades of the nineteenth century and throughout the twentieth century however the region was periodically racked by a bitter conflict that was qualitatively different from previous outbreaks of violence In *Blood Ties* İpek K Yosmaoglu explains the origins of this shift from sporadic to systemic and pervasive violence through a social history of the Macedonian Question Yosmaoglu s account begins in the aftermath of the Congress of Berlin 1878 when a potent combination of zero sum imperialism nascent nationalism and modernizing states set in motion the events that directly contributed to the outbreak of World War I and had consequences that reverberate to this day Focusing on the experience of the inhabitants of Ottoman Macedonia during this period she shows how communal solidarities broke down time and space were rationalized and the immutable form of the nation and national identity replaced polyglot fluid associations that had formerly defined people s sense of collective belonging The

region was remapped populations were counted and relocated An escalation in symbolic and physical violence followed and it was through this process that nationalism became an ideology of mass mobilization among the common folk Yosmaoglu argues that national differentiation was a consequence and not the cause of violent conflict in Ottoman Macedonia

Religious Liberty in Transitional Societies John Anderson, 2003-08-14 It is commonly assumed that the issue of religion declines in political significance as societies modernise However the upheaval associated with the shift from authoritarian to more open regimes can be accompanied by a revitalisation of religion Individuals within these societies are struggling to find meaning in the seeming chaos of political change religious elites are seeking to define their own role within the new order and political elites are looking for new ways of ensuring legitimacy and building national unity In this book John Anderson constructs a theoretical framework where he compares and contrasts the politics of religious liberty in two Southern European countries two Central Eastern European countries and the evolution of the former USSR particularly Russia Exploring these issues of religious recognition and religious diversity Anderson attempts to expose the wider problem of creating a democratic mentality in such transitional societies through extensive original research and interviews

Aleksandur Stamboliiski Richard Crampton, 2009-04-01 Aleksandur Stamboliiski was one of the most original politicians of the 20th century His tragedy was that he came to power at the end of the First World War in which Bulgaria had been defeated It fell to him therefore to accept and apply the peace settlement This created tensions between him and traditional Bulgarian nationalism tensions which ended with his murder in 1923 The book will examine the origins of this traditional nationalism from the foundation of the Bulgarian state in 1878 and of the agrarian movement which came to represent the social aspirations of the majority of the peasant population It will also illustrate Stamboliiski's rise to power and examine his ideology Emphasis will be placed on how this ideology clashed with the monarchy the military and the nationalists Stamboliiski's policies in the Balkan wars and the First World War will be described before the details of the 1919 peace settlement are examined The implementation of those terms will then be discussed as will the coup of 1923 The legacy of the peace treaty in the inter war period and of Stamboliiski's image in the years after his downfall will form the final section of the book *Entangled Histories of the Balkans - Volume Three* Roumen Daskalov, Alexander

Vezenkov, 2015-03-10 Modern Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories The authors in this volume take a different approach They view the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories This regards the treatment of shared historical legacies by rival national historiographies The volume deals with historiographical disputes that arose in the process of nationalizing the past Contributors include Diana Mishkova Alexander Vezenkov Roumen Daskalov Tchavdar Marinov and Bernard Lory Revolutionary World David Motadel, 2021-03-25 The first truly global history of revolutions and revolutionary waves in the modern age from Atlantic

Censorship Derek Jones,2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of

and contemporary fate of freedom of expression **The Balkans** Mark Biondich, 2011-02-17 The Balkans has long been a place of encounter among different peoples religions and civilizations resulting in a rich cultural tapestry and mosaic of nationalities But it has also been burdened by a traumatic post colonial experience The transition from traditional multinational empires to modern nation states has been accompanied by large scale political violence that has resulted in the deaths of hundreds of thousands and the permanent displacement of millions more Mark Biondich examines the origins of these conflicts while treating the region as an integral part of modern European history shaped by much the same forces and intellectual impulses It reminds us that political violence and ethnic cleansing have scarcely been unique to the Balkans As Biondich shows the political violence that has bedevilled the region since the late nineteenth century stemmed from modernity and the ideology of integral nationalism employed by states that were dominated by democratizing or authoritarian nationalizing elites committed to national homogeneity Throughout this period the Balkan proponents of democratic governance civil society and multiculturalism were progressively marginalized The history of revolution war political violence and ethnic cleansing in the modern Balkans is above all the story of this tragic marginalization
