Concise World Armies 2009 Ravi Rikhye, 2012 A 1180 page Orders of Battle for the world's armies [Irish Army Orders of Battle 1923-2004](#) Adrian J English, 2005 The first ever compilation of the Irish Army's Orders of Battle from its formation in 1923 to 2004 Includes several current Tables of Organization and Equipment 140 content pages [The Measure of Civilization](#) Ian Morris, 2014-02-23 A groundbreaking look at Western and Eastern social development from the end of the ice age to today In the past thirty years there have been fierce debates over how civilizations develop and why the West became so powerful *The Measure of Civilization* presents a brand new way of investigating these questions and provides new tools for assessing the long term growth of societies Using a groundbreaking numerical index of social development that compares societies in different times and places award winning author Ian Morris sets forth a sweeping examination of Eastern and Western development across 15 000 years since the end of the last ice age He offers surprising conclusions about when and why the West came to dominate the world and fresh perspectives for thinking about the twenty first century Adapting the United Nations approach for measuring human development Morris's index breaks social development into four traits energy capture per capita organization information technology and war making capacity and he uses archaeological historical and current government data to quantify patterns Morris reveals that for 90 percent of the time since the last ice age the world's most advanced region has been at the western end of Eurasia but contrary to what many historians once believed there were roughly 1 200 years from about 550 to 1750 CE when an East Asian region was more advanced Only in the late eighteenth century CE when northwest Europeans tapped into the energy trapped in fossil fuels did the West leap ahead Resolving some of the biggest debates in global history *The Measure of Civilization* puts forth innovative tools for determining past present and future economic and social trends **Military Review**, 2010-07 *Professional Journal of the United States Army*, 2006-10 **A War Like No Other** Richard C. Bush, Michael E. O'Hanlon, 2007-04-01 Nobody approaches the objectivity and precision of Bush and O'Hanlon when it comes to analysis of the military and political dimensions of the Taiwan issue This is one challenge that U S policymakers and military strategists cannot afford to get wrong and scholars cannot afford to ignore Michael Green former Senior Director for Asian Affairs National Security Council *The Showdown to Come* In 1995 during a heated discussion about that year's Taiwan crisis a Chinese general remarked to a U S diplomat In the end you care more

about Los Angeles than you do about Taipei In a single sentence he both questioned the level of America s commitment to a longtime ally and threatened massive perhaps nuclear retaliation should the United States intervene militarily on Taiwan s behalf In the end President Clinton sent two aircraft carriers to the region and China ceased its military exercises in the Taiwan Strait A decade later however China is much stronger both economically and militarily and it holds a significant amount of America s national debt If another Taiwan crisis should occur as it almost certainly will would China back down In A War Like No Other you ll discover how little it would take to transform the close cooperation and friendly rivalry between the United States and the People s Republic of China into the first ever shooting war between two nuclear powers This chilling look into one possible future offers thoughtful advice to both governments on how to reduce the chances of such a nightmare actually occurring Two Brookings Institution scholars offer specific prescriptions on how the two nations can improve communications especially in times of crisis avoid risky behavior even when provoked and above all remember which buttons not to push
