 design and construction professionals are not professional writers Instead they are people who spend a large part of their  
 professional lives writing That s a big difference and that s where this book will help The Architect s Guide to Writing has  
 been written not by an English major but by Bill Schmalz an architect who knows the kinds of documents his fellow  
 professionals routinely have to write and understands the kinds of technical mistakes they often make in their writing This  
 book is designed to meet the specific needs of design and construction professionals It s not going to waste their time with  
 the things that most educated professionals know but it will help them with the things they don t know or are unsure of It s  
 not a Chicago Manual sized encyclopaedic reference that includes everything any writer would ever need to know because  
 architects don t need to know everything But what they do need to know and what they use every day in their professional  
 lives has been assembled in this book      *The London Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc*
