The Craft of Research, Third Edition Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, 2009-05-15 With more than 400 000 copies now in print *The Craft of Research* is the unrivaled resource for researchers at every level from first year undergraduates to research reporters at corporations and government offices Seasoned researchers and educators Gregory G Colomb and Joseph M Williams present an updated third edition of their classic handbook whose first and second editions were written in collaboration with the late Wayne C Booth *The Craft of Research* explains how to build an argument that motivates readers to accept a claim how to anticipate the reservations of readers and to respond to them appropriately and how to create introductions and conclusions that answer that most demanding question So what The third edition includes an expanded discussion of the essential early stages of a research task planning and drafting a paper The authors have revised and fully updated their section on electronic research emphasizing the need to distinguish between trustworthy sources such as those found in libraries and less reliable sources found with a quick Web search A chapter on warrants has also been thoroughly reviewed to make this difficult subject easier for researchers Throughout the authors have preserved the amiable tone the reliable voice and the sense of directness that have made this book indispensable for anyone undertaking a research project *The Craft of Research, 2nd edition* Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, 2008-04-15 Since 1995 more than 150 000 students and researchers have turned to *The Craft of Research* for clear and helpful guidance on how to conduct research and report it effectively Now master teachers Wayne C Booth Gregory G Colomb and Joseph M Williams present a completely revised and updated version of their classic handbook Like its predecessor this new edition reflects the way researchers actually work in a complex circuit of thinking writing revising and rethinking It shows how each part of this process influences the others and how a successful research report is an orchestrated conversation between a researcher and a reader Along with many other topics *The Craft of Research* explains how to build an argument that motivates readers to accept a claim how to anticipate the reservations of thoughtful yet critical readers and to respond to them appropriately and how to create introductions and conclusions that answer that most demanding question So what Celebrated by reviewers for its logic and clarity this popular book retains its five part structure Part 1 provides an orientation to the research process and begins the discussion of what motivates researchers and their readers Part 2 focuses on finding a topic planning the project and locating appropriate sources This section is brought up to

date with new information on the role of the Internet in research including how to find and evaluate sources avoid their misuse and test their reliability Part 3 explains the art of making an argument and supporting it The authors have extensively revised this section to present the structure of an argument in clearer and more accessible terms than in the first edition New distinctions are made among reasons evidence and reports of evidence The concepts of qualifications and rebuttals are recast as acknowledgment and response Part 4 covers drafting and revising and offers new information on the visual representation of data Part 5 concludes the book with an updated discussion of the ethics of research as well as an expanded bibliography that includes many electronic sources The new edition retains the accessibility insights and directness that have made The Craft of Research an indispensable guide for anyone doing research from students in high school through advanced graduate study to businesspeople and government employees The authors demonstrate convincingly that researching and reporting skills can be learned and used by all who undertake research projects New to this edition Extensive coverage of how to do research on the internet including how to evaluate and test the reliability of sources New information on the visual representation of data Expanded bibliography with many electronic sources
