Early Modern Merchants and their Books Angus Vine, 2025-07-23 *Early Modern Merchants and their Books* offers the first dedicated study of the literary and intellectual lives of the merchants of seventeenth century Britain. Drawing primarily on unpublished manuscript material but also on a range of rarely discussed printed texts, the book reveals for the first time the importance of this mercantile humanism. A contribution principally to the field of book history but with significance for early modern literary studies, cultural and intellectual history, global history and history of science too, this volume examines mercantile account books, letter books, anthologies and manuals as well as mercantile libraries and archives and mercantile poetic and pedagogical works to document this now little known literary and intellectual culture. Working across geographical contexts as well as institutional structures, the book examines merchants as accountants, record keepers, authors, collectors and compilers and reveals the creative interplay between financial, commercial, administrative, archival, memorial and devotional categories and practices in the early modern mercantile world. Through a series of mercantile microhistories, each based on a single document or group of associated documents, the book traces the range and extent of this mercantile humanism and identifies its signature textual and material forms as well as its key subjects and concerns and some of its most important actors. *Early Modern Merchants and their Books* in this way challenges long held assumptions about knowledge making in the seventeenth century and pushes back against equally persistent beliefs about merchants in the period. As such, it not only offers a revisionist history of the early modern merchantry and a major new account of learning in the seventeenth century but also constitutes a significant methodological intervention in book history itself.

Structure of Slavery in Indian Ocean Africa and Asia Gwyn Campbell, 2004-11-23 The abolition of slavery in and around the Western Indian Ocean have been little studied. This collection examines the meaning of slavery and its abolition in relation to specific indigenous societies and to Islam, a religion that embraced the entire region and draws comparisons between similar developments in the Atlantic system. Case studies include South Africa, Mauritius, Madagascar, the Benadir Coast, Arabia, the Persian Gulf and India. This volume marks an important new development in the study of slavery and its abolition in general and an original approach to the history of slavery in the Indian Ocean and Asia regions.

Small Island, Large Ocean Burkhard Schnepel, 2023-05-19 This book is about a Small Island, namely Mauritius, in the southwestern Indian Ocean. It is also about a Large Ocean, the Indian Ocean world, its peoples, histories and cultures. It casts light on the life of an island through what is known not only about the island itself but also through what is known about the wider Indian Ocean world. It is also about the Indian Ocean world in that it focuses on an island which in many senses and dimensions is not only a model of but in some respects also a model for wider developments and features of relevance to the Indian Ocean world as a whole.

The Dodo and the Solitaire Jolyon C. Parish, 2012-12-03 This account of two extinct bird species offers an amazing amount of history references facts maps and illustrations Library Journal The Dodo and the Solitaire is the most comprehensive book to date about these two famously extinct birds It contains all the known contemporary accounts and illustrations of the dodo and solitaire covering their history after extinction and discussing their ecology classification phylogenetic placement and evolution Both birds were large and flightless and lived on inhabited islands some five hundred miles east of Madagascar The first recorded descriptions of the dodo were provided by Dutch sailors who encountered them in 1598 and within a century the dodo was extinct So quickly did the bird disappear that there is insufficient evidence to form an entirely accurate picture of its appearance and ecology and the absence has led to much speculation This extraordinary book pieces together the story of these two lost species from the fragments that have been left behind An up to date and comprehensive review of
