Concordant Discord:

Concordant discord : the interdependence of faiths Robert Charles Zaehner, 1970 **Machiavelli in Tumult** Gabriele Pedullà, 2018-08-30 Reconstructs the origins of the idea that social conflict and not concord makes political communities powerful **Lyric Tactics** Ingrid Nelson, 2017-01-13 In *Lyric Tactics* Ingrid Nelson argues that the lyric poetry of later medieval England is a distinct genre defined not by its poetic features rhyme meter and stanza forms but by its modes of writing and performance which are ad hoc improvisatory and situational *The Inklings and Culture* Monika B. Hilder, Sara L. Pearson, Laura N. Van Dyke, 2020-11-24 How did five twentieth century British authors C S Lewis J R R Tolkien Charles Williams Owen Barfield and Dorothy L Sayers along with their mentors George MacDonald and G K Chesterton come to contribute more to the intellect and imagination of millions than many of their literary contemporaries put together How do their achievements continue to inform and potentially transform us in the twenty first century In this first collection of its kind addressing the entire famous group of seven authors the twenty seven chapters in *The Inklings and Culture* explore the legacy of their diverse literary art inspired by the Christian faith art that continues to speak hope into a hurting and deeply divided world **Essays by Rosemond Tuve** Rosemond Tuve, 2015-03-08 Collected here are fourteen articles by one of the leading Renaissance scholars of our age They range in time from her first critical essay in 1929 to her last in 1964 and reflect the major concerns of her scholarly career Originally published in 1970 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Age of Subtlety* Javier Patiño Loira, 2024-06-14 *The Age of Subtlety* is the first book length study to examine the seventeenth century craze for rhetorical conceits in connection with scientific and technological debates Focusing on Italy and Spain it argues that these intricate and challenging metaphors became embodiments of a competition between natural and human ingenuity as well as sites to reflect on the consequences of telescopic and microscopic vision the boundaries between natural and artificial and the generation of life *Myth and Meaning in Early Taoism* N. J. Girardot, 1988 *Myth and Meaning in Early Daoism* examines some of the earliest texts associated with the Daoist tradition primarily the Daode jing Zhuangzi and Huainanzi from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of hundun the primal chaos being and principle that is foundational for the philosophy and practice of the Dao as creatio continua in cosmic social and individual life Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective this work when it was written challenged many prevailing conceptions of the Daode jing and Zhuangzi as primarily philosophical texts without

any religious significance or affinity with the later sectarian traditions While controversial and at times playfully provocative the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world

Shakespeare's Tragic Cosmos T. McAlindon, Thomas McAlindon, 1996-04-18 This study focuses on Romeo and Juliet Julius Caesar the four main tragedies and Antony and Cleopatra Tom McAlindon argues that there were two models of nature in Renaissance culture one hierarchical in which everything has an appointed place and the other contrarious showing nature as a tense system of interacting opposites liable to sudden collapse and transformation This latter model informs Shakespeare's tragedy

Logical and Ethical Issues Bimal Krishna Matilal, 2004

Theology and Music at the Early University Nancy van Deusen, 1994-10-01 At the climax of one of his most important and comprehensive works *De cessatione legalium* the thirteenth century theologian and natural philosopher Robert Grosseteste uses a musical example to make a point fundamental to the treatise Music using time as its material located between the abstract and the concrete served as an analogy thus making a difficult philosophical concept perceptible In using music as an analogy Grosseteste drew upon a long tradition established by Augustine confirmed within the new Aristotelian reception and a newly translated Platonic dialogue

But the first rector of the University of Oxford was also demonstrating music's place within the curriculum of the early university namely as a ministry discipline efficiently and efficaciously exemplifying traditional Augustinian as well as new Aristotelian principles This book unites the most important theological philosophical subjects discussed by Robert Grosseteste throughout his prodigious output with those exemplified by an anonymous contemporary English writer on music The work shows how music collaborated with the other liberal arts operating within the early university curriculum as a ministry discipline Music made accessible through the figurae of its notation and through sound otherwise nearly unapproachable new Aristotelian concepts The influence was reciprocal in that new Aristotelian tools and conceptualization greatly influenced music notation and style Music theory has been studied in isolation as pertaining only to music This study is the first to relate music of the early thirteenth century to its intellectual context overturning dogma uncritically accepted since the beginning of this century concerning so called modal rhythm and showing how contrary motion rather than forming a musical convention demonstrated a key Aristotelian concept

Invisible Hands Jonathan Sheehan, Dror Wahrman, 2022-12-06 A synthesis of eighteenth century intellectual and cultural developments that offers an original explanation of how Enlightenment thought grappled with the problem of divine agency Why is the world orderly and how does this order come to be Human beings inhabit a multitude of apparently ordered systems natural social political economic cognitive and others whose origins and purposes are often obscure In the eighteenth century older certainties about such orders rooted in either divine providence or the mechanical operations of nature began to fall away In their place arose a new appreciation for the complexity of things a new recognition of the world's disorder and randomness new doubts about simple relations of cause and effect but with them also a new ability to imagine the world's orders whether natural or manmade as self organizing If large systems are left to their own devices eighteenth century Europeans increasingly came to believe order will emerge on its own without any need for external design or direction In *Invisible Hands* Jonathan Sheehan and Dror Wahrman trace the many appearances of the language of self organization in the eighteenth century West Across an array of domains including religion society philosophy science politics economy and law they show how and why this way of thinking came into the public view then grew in prominence and arrived at the threshold of the nineteenth century in versatile multifarious and often surprising forms Offering a new synthesis of intellectual and cultural developments *Invisible Hands* is a landmark contribution to the history of the Enlightenment and eighteenth century culture

Classicism and Christianity in Late Antique Latin Poetry Philip Hardie, 2019-08-27 After centuries of near silence Latin poetry underwent a renaissance in the late fourth and fifth centuries CE evidenced in the works of key figures such as Ausonius Claudian Prudentius and Paulinus of Nola This period of resurgence marked a milestone in the reception of the classics of late Republican and early imperial poetry In *Classicism and Christianity in Late Antique Latin Poetry* Philip Hardie explores the ways in which poets writing on non-Christian and Christian subjects used the classical traditions of Latin poetry to construct their relationship with Rome's imperial past and present and with the by now not so new belief system of the state religion Christianity The book pays particular attention to the themes of concord and discord the cosmic sense of late antiquity novelty and renouatio paradox and miracle and allegory It is also a contribution to the ongoing discussion of whether there is an identifiably late antique poetics and a late antique practice of intertextuality Not since Michael Robert's classic *The Jeweled Style* has a single book had so much to teach about the enduring power of Latin poetry in late antiquity

The Christian Mystery Louis Bouyer, 2004-07-10 Mysticism has a place in all the major world religions This book begins with the assertion that Christian Mysticism in its most essential state is the mystery of Christ's union with God Certain major theologians including Albert Ritschl and Karl Barth have stood in opposition to the concept of mysticism and have even suggested that it is opposite to the heart of the Gospel and indeed the whole Bible Yet Bouyer here makes a strong argument for understanding Mysticism as central to the Christian faith This analysis of mysticism is contrasted with its place in pagan religions and its role throughout Christian history In so doing Bouyer reveals the significance of mysticism for understanding the meaning of life
