No detailed description available for SEMANTICS MAIENBORN ET AL BD 33 1 HSK E BOOK *Time and Narrative, Volume 1* Paul Ricoeur,1984 In the first two volumes of this work Paul Ricoeur examined the relations between time and narrative in historical writing fiction and theories of literature This final volume a comprehensive reexamination and synthesis of the ideas developed in volumes 1 and 2 stands as Ricoeur s most complete and satisfying presentation of his own philosophy

Karl Barth's Theology of Relations, Volume 1 Gary Deddo,2015-08-04 This work originally published as one volume in the Peter Lang series Issues in Systematic Theology is now available in two volumes In the first volume Gary Deddo shows how Barth grasped the nature of relations as intrinsic to the being and act of the Triune God and to God s relations to us and our relationship to God in Christ Deddo then completes his comprehensive survey showing how Barth saw the reality of the divine relationships analogically pertains by grace to humanity and its creaturely relationships Barth s doctrine of God Christology and theological anthropology are all intrinsically onto relational to borrow a term coined by Thomas F Torrance In the second volume Deddo shows how Barth s relational theology is intrinsically ethical As a case study Deddo explicates Barth s ethical teaching on the relationship between parents and children found in section 54 of his chapter on Freedom in Fellowship in CD III 4 He further demonstrates the relevance and fruitfulness of Barth s theology of relations for critically engaging other theological and non theological views of the family and for shedding ethical light on a wide range of contemporary issues facing families especially in the North American context Karl Barth is known for his insight into the inseparability of act and being in God What is less recognized is that Barth s theological understanding of dynamic covenantal relationship is also essential to his doctrine of the Triune God his Christology and theological anthropology God is revealed in Jesus Christ to be one in act being and relation Humanity is revealed in Jesus Christ to be essentially a unity of act being and relation The failure to see the ethical implications of Barth s theology can be traced in large part to the failure to grasp how Barth s understanding of God s being and act is also essentially relational Deddo s work corrects this oversight and opens up the door to better comprehension of Barth s trinitarian doctrine of God his Christology anthropology and ethics

Time and Narrative: Volume 1 Paul Ricoeur,2022-12-22 The first volume in the eminent philosopher s three part examination of time and narrative exploring their relationship in the context of historical writing Time and Narrative builds on Paul Ricoeur s earlier analysis in The Rule of Metaphor of semantic innovation at the level of the sentence Ricoeur here examines the creation of meaning at the textual level with narrative rather than metaphor as the ruling concern Ricoeur finds

a healthy circle between time and narrative time is humanized to the extent that it portrays temporal experience Ricoeur proposes a theoretical model of this circle using Augustine's theory of time and Aristotle's theory of plot and further develops an original thesis of the mimetic function of narrative He concludes with a comprehensive survey and critique of modern discussions of historical knowledge understanding and writing from Aron and Mandelbaum in the late 1930s to the work of the Annales school and that of Anglophone philosophers of history of the 1960s and 1970s This work in my view puts the whole problem of narrative not to mention philosophy of history on a new and higher plane of discussion Hayden White History and Theory

Situation Theory and Its Applications: Volume 1 Robin Cooper,Kuniaki Mukai,John Perry,Center for the Study of Language and Information (U.S.),1990 Situation Theory grew out of attempts by Jon Barwise in the late 1970s to provide a semantics for naked infinitive perceptual reports such as Claire saw Jon run Barwise's intuition was that Claire didn't just see Jon an individual but Jon doing something a situation Situations are individuals having properties and standing in relations A theory of situations would allow us to study and compare various types of situations or situation like entities such as facts events and scenes One of the central themes of situation theory of meaning and reference should be set within a general theory of information one moreover that is rich enough to do justice to perception communication and thought By now many people have contributed by the need to give a rigorous mathematical account of the principles of information that underwrite the theory
