whether or not the International Monetary Fund and World Bank and their intervention strategies are a positive force for change in the developing world continues to rage Featuring both macroeconomic and microeconomic approaches this book brings together an international team of contributors and centres upon three broad themes the ideology of the IMF and World Bank poverty reduction conditionality In exploring these themes this book will be a valuable reference for postgraduate students and professionals in the fields of development studies and political economy **The Companion to**

**Development Studies** Vandana Desai, Robert B. Potter, 2008 The Companion to Development Studies is an essential one stop reference for anyone with an interest in development studies Over 100 international experts have been brought together to present a comprehensive overview of the key theoretical and practical issues dominating contemporary development studies Building on the success of the first edition the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics including ageing culture and development corruption and development and global terrorism Each chapter summarises current debates and provides guidance for further reading and research The Companion to Development Studies is indispensable for students of development studies at all levels from undergraduate to postgraduate and beyond in departments of development studies geography politics international relations sociology social anthropology and economics Revisiting the European Union as Empire Hartmut Behr, Yannis A. Stivachtis, 2015-06-26 The

European Union's stalled expansion the Euro deficit and emerging crises of economic and political sovereignty in Greece Italy and Spain have significantly altered the image of the EU as a model of progressive civilization However despite recent events the EU maintains its international image as the paragon of European politics and global governance This book unites leading scholars on Europe and Empire to revisit the view of the European Union as an imperial power It offers a re appraisal of the EU as empire in response to geopolitical and economic developments since 2007 and asks if the policies practices and priorities of the Union exhibit characteristics of a modern empire This text will be of key interest to students and scholars of the EU European studies history sociology international relations and economics *Theorizing the European*

*Neighbourhood Policy* Sieglinde Gstöhl, Simon Schunz, 2016-12-19 Despite growing scholarly interest in the EU's flagship policy towards its Eastern and Southern neighbours serious attempts at theory building on the European Neighbourhood Policy ENP have been largely absent from the academic debate This book aims at contributing to fill this research gap in a three fold manner first and foremost it aims at theorizing the ENP as such explaining the origins development and

effectiveness of this policy Building on this effort it also pursues the broader objective of addressing certain shortcomings in EU external relations theory and even beyond in International Relations theory Finally it aspires to provide new insights for European policy makers It is one of the first volumes to provide different theoretical perspectives on the ENP by revisiting and building bridges between mainstream and critical theories stimulating academic and policy debates and thus setting a novel less EU centric research agenda This text will be of key interest to scholars students and practitioners in EU external relations EU foreign policy the European Neighbourhood Policy and more broadly in European Union Politics and International Relations **New Challenges to the Separation of Powers** Antonia Baraggia,Cristina Fasone, Luca P.

Vanoni,2020-11-27 This insightful book guides readers through the transformation of and theoretical challenges posed by the separation of powers in national contexts Building on the notion that the traditional tripartite structure of the separation of powers has undergone a significant process of fragmentation and expansion this book identifies and illustrates the most pressing and intriguing aspects of the separation of powers in contemporary constitutional systems *Three Revolutions: Mobilization and Change in Contemporary Ukraine I* Pawel Mink, Georges Reichardt, Iwona Kowal,2019-10-31 Volume One of Three Revolutions presents the overall research and discussions on topics related to the revolutionary events that have unfolded in Ukraine since 1990 The three revolutions referred to in this project include the Revolution on Granite 1990 the Orange Revolution 2004 2005 and the Euromaidan Revolution 2013 2014 The project s overall goal was to determine the extent to which we have the right to use the term revolution in relation to these events Moreover the research also uncovered the methodological problems associated with this task Lastly the project investigated to what extent the three revolutions are connected to each other and to what extent they are detached Hence the research in this volume not only discusses the theoretical aspects but also provides new analyses on such issues as religion memory and identity in Ukraine

**The Companion to Development Studies, 2nd Edition** Vandana Desai,Robert B Potter,2013-01-22 The Companion to Development Studies is an essential one stop reference for anyone with an interest in development studies Over 100 international experts have been brought together to present a comprehensive overview of the key theoretical and practical issues dominating contemporary development studies Building on the success of the first edition the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics including ageing culture and development corruption and development and global terrorism Each chapter summarises current debates and provides guidance for further reading and research The Companion to Development Studies is indispensable for students of development studies at all levels from undergraduate to postgraduate and beyond in departments of development studies geography politics international relations sociology social anthropology and economics *Good Neighbourliness in the European Legal Context* Dimitry Kochenov,Elena Basheska,2015-07-28 Good Neighbourliness in the European Legal Context provides the first detailed assessment of the essence and application of the principle of good neighbourly relations in the

European legal context illustrating its findings by a multi faceted array of studies dedicated to the functioning of good neighbourly relations in a number of key fields of EU law The main claim put forward in this book is that the principle of good neighbourly relations came to occupy a vital place in the European legal context underpinning the very essence of the integration exercise The European Union's Eastern Neighbourhood Today Dan Dungaciu, Valentin Naumescu, 2015-02-05

This book arrives at a very significant time throughout Europe Not only is the European Union currently facing a prolonged economic and social crisis with nascent political consequences such as the ascension of populist parties in the 2014 European elections but also its Eastern neighbourhood is confronted with the growing hostility of an assertive Russia opposing any new advance of the West towards its frontiers Bringing together experts in fields such as international relations political science political sociology diplomacy security studies and European studies with robust academic and professional backgrounds and expertise with regard to the region this volume explores this significant window of opportunity and will undoubtedly appeal to a global audience The considerable diversity of approaches and styles here allows a multidimensional diagnosis and analysis of present day Eastern Europe This volume defines a series of major regional opportunities vulnerabilities and dilemmas and explores the complex perspectives of the new Eastern Europe located between the European Union and Russia under its current name of the EU's Eastern Neighbourhood along with the tensions and challenges of a possible second Cold War **Security and Cross-border Cooperation in the EU, the Black Sea Region and Southern Caucasus** Ayça

*IMF Staff Papers, Volume 56, No. 4* International Monetary Fund. Research Dept., 2009-11-04 This paper empirically evaluates four types of costs that may result from an international sovereign default reputational costs international trade exclusion costs costs to the domestic economy through the financial system and political costs to the authorities It finds that the economic costs are generally significant but short lived and sometimes do not operate through conventional channels The political consequences of a debt crisis by contrast seem to be particularly dire for incumbent governments and finance ministers broadly in line with what happens in currency crises **EU Conflict Management** James Hughes, 2013-09-13 The

EU's self promotion as a conflict manager is embedded in a discourse about its shared values and their foundation in a connection between security development and democracy This book provides a collection of essays based on the latest cutting edge research into the EU's active engagement in conflict management It maps the evolution of EU policy and strategic thinking about its role and the development of its institutional capacity to manage conflicts Case studies of EU conflict management within the Union in its neighbourhood and further afield explore the consistency coherence and politicization of EU strategy at the implementation stage The essays examine the extent to which the EU can exert influence on conflict dynamics and outcomes Such influence depends on a number of changing factors how the EU conceptualizes

conflict and policy solutions the balance of interests within the EU on the issue divided or concerted and the degree of politicization in the EU's role the scope for an external EU role and the value attached by the conflict parties to EU engagement a value that is almost wholly bound to their interest in a membership perspective or other strong relationship to the EU rather than to shared values as an end in themselves This book was based on a special issue of *Ethnopolitics*

*Policy Diffusion and Telecommunications Regulation* Véronique Wavre, 2018-01-22 This study investigates regulatory reforms in the telecommunications sector of Middle Eastern and North African MENA countries It explores telecommunications innovations in three developing economies Morocco Jordan and Egypt with a focus on regional and European trends in telecommunications policies Common knowledge suggests that the European Union and its member states are the main influential regulatory power in the MENA region However the empirical analysis of selected telecommunications regulations universal service obligation USO and spectrum management reveals that reforms are not always determined by European countries but may also originate from other developing countries such as Peru and Chile This finding attests to the rise of regulatory influence from the Global South which challenges traditional transfers of regulations originating from more industrially advanced countries

**Interregionalism and the European Union** Mario Telò, Louise Fawcett, Frederik Ponjaert, 2016-03-09 Is the EU isolated within the emergent multipolar world Concentrating on interregional relations and focussing on the European Union's EU evolving international role with regards to regional cooperation this innovative book collects a set of fresh empirical analyses of interregional ties binding the EU with its Eastern and Southern neighbourhood as well as with Asia Africa and the Americas The 25 leading authors from 5 continents have contributed original and diverse chapters and the book advances a novel theoretical post revisionist approach beyond both the Eurocentrism of Europe First perspectives as well as the Euroscepticism of those advocating to simply move Beyond Europe After a Foreword by A Acharya the book's five sections reflect the main drivers of EU interregional policies The European Union as a Sophisticated Laboratory of Regional and Interregional Cooperation with chapters by M Telò L Fawcett and T Risse De Facto Drivers of Regionalism F Ponjaert M Shu A Vallado and C Jakobeit De Jure Drivers of Regionalism S Lavenex G Finizio C Jakobeit R Coman C Cocq S Teo L Shah Cognitive Drivers of Regionalism J Riland E Fitriani S Stavridis S Kingah P Bacon and Instrumental Drivers of Regionalism B Delcourt C Olsson G Møller A Malamud P Seabra and L Fioramonti J Kostopoulos

**Democracy Promotion in the EU's Neighbourhood** Sandra Lavenex, Frank Schimmelfennig, 2013-09-13 EU external democracy promotion has traditionally been based on linkage i.e. bottom up support for democratic forces in third countries and leverage i.e. the top down inducement of political elites towards democratic reforms through political conditionality The advent of the European Neighbourhood Policy and new forms of association have introduced a new third model of democracy promotion which rests in functional cooperation between administrations This volume comparatively defines and assesses these three models of external democracy promotion in the EU's relations with its

eastern and southern neighbours It argues that while linkage has hitherto failed to produce tangible outcomes and the success of leverage has basically been tied to an EU membership perspective the governance model of democracy promotion bears greater potential beyond the circle of candidate countries This third approach while not tackling the core institutions of the political system as such but rather promoting transparency accountability and participation at the level of state administration may turn out to remain the EU's most tangible form of democratic governance promotion in the future This book was originally published as a special issue of Democratization

**Development Cooperation in Times of Crisis** José Antonio Alonso, José Antonio Ocampo, 2012 This title revisits the causes of the 2008 global economic collapse re-evaluating the international response to the crisis and suggesting more effective approaches to development cooperation It explains how leading governments undertook extraordinary measures to offset the 2008 economic crisis shoring up financial institutions stimulating demand to reverse recession and rebalancing budgets to alleviate sovereign debt The book argues that these measures were effective because they were coordinated internationally and were matched with sweeping global financial reforms

**The EU in a Trans-European Space** Serena Giusti, Irina Mirkina, 2019-02-19 This book examines political social and economic interactions in highly interconnected areas stretching from Europe to Eastern Europe North Africa the Middle East and East Asia labelled as Trans Europe The first part of the book focuses on the interests of several leading actors in Trans Europe The second part deals with the actions of national actors trying to compete with the EU influence in their shared neighbourhood The third part studies cross border issues such as economic dynamics migration flows and energy markets in the Trans European space

***EU Good Governance Promotion in the Age of Democratic Decline*** Digdem Soyaltin-Colella, 2022-09-05 The European Union EU support for good governance reforms has been the cornerstone of its conditionality and funding policies and contributed its role as a transformative power This book re-evaluates the EU's governance promotion capacity both within the EU and beyond its borders in light of the simultaneous decline in democracy in Europe in particular and across the whole world in general The book is divided into three parts Part I focuses on the EU's good governance transfer to member and accession countries Part II examines how and to what extent the EU's governance promotion strategies travel beyond its borders and focuses on neighbours partners and aid recipient countries especially in Africa Part III turns to other regional and global actors and discusses the implications of illiberal contesters such as China and Russia on the future of EU's good governance promotion efforts The findings of the book bring fresh insights for the scope and depth of the EU's governance transfer capacity

**Turkey-EU Relations** Kenan Aksu, 2013-01-04 This book attempts to introduce the untold story of the positive aspects of EU Turkey relations from historical backgrounds to international impacts and from farming to cooperation against international terrorism Turkey EU relations are sometimes easy to observe but at the same time very complicated and difficult to understand On the one hand the EU does not want to lose its long term ally's interest in joining the Union but on the other hand it does not want a vast Muslim country with its

huge young population to change the EU's already struggling dynamics. The New Turkey on the other side does not want to let itself down by trying to join the Union at any cost. It wants to join the Union but stay as a Democratic Muslim Turkey rather than a Democratic European Turkey. Both in Turkey and in the EU though, members of the public have very mixed feelings towards this relationship as their perceptions are shaped by the ideological interpretations of their leaders. For example, people who travel to Turkey or Europe have a completely different understanding of the relations than the ones who only hear it from politicians. Therefore, mutual positive aspects are either underestimated or completely missed. This book aims to fill some of those missed gaps.
