Making, Keeping, and Losing Friends Janice M. McCabe, 2025-10-21 Draws attention to the importance of support networks for students as they make keep and lose friends throughout college and beyond We re all familiar with the sentiment that college is the best time of your life Along with a newfound sense of freedom students have a unique opportunity to forge lifelong friendships at a point in life when friendship is particularly important Why is it then that so many college students are falling victim to what the US Surgeon General termed an epidemic of loneliness and isolation How do different aspects of college life help or hinder students ability to form deep connections In Making Keeping and Losing Friends How Campuses Shape College Students Networks sociologist Janice M McCabe shows that the way a college is structured whether students live in dorms or commute study abroad or stay close to campus have plentiful common areas for clubs to meet or not can either encourage or hinder the making of meaningful friendships Based on interviews with 95 students on three distinct campuses a small private college Dartmouth College a large public university University of New Hampshire and a non residential community college Manchester Community College McCabe captures a wide range of experiences and discovers how features of the campuses

make it easier or harder for students to make and keep friends She shows how and why across all three institutions some students thrive in deep and lasting friendships with their peers As McCabe s research reveals we need to look at the structures of students networks the institutions they attend and the importance of their identities in these places if we are to truly uncover and address the loneliness epidemic facing today s young adults

Not a Choice, Not a Job JANICE G. RAYMOND,2013-07-15 A generation ago most people did not know how ubiquitous and grave human trafficking was Now many people agree that the 35 7 billion business is an appalling violation of human rights But when confronted with

prostitution many people experience an odd disconnect because prostitution is shrouded in myths among them the claims that prostitution is inevitable and prostitution is a job or service like any other In *Not a Choice Not a Job* Janice Raymond challenges both the myths and their perpetrators Raymond demonstrates that prostitution is not sex but sexual exploitation and that legalizing and decriminalizing the system of prostitution as opposed to the prostituted women promotes sex trafficking expands the sex industry and invites organized crime Specifically Raymond exposes how legalized prostitution in the Netherlands Germany Australia and Nevada worsens crime and endangers women In contrast she reveals when governments work to prevent the demand for prostitution by prosecuting pimps brothels and prostitution users as in Norway Sweden and Iceland trafficking does not increase women are better protected and fewer men buy sex Raymond expands the boundaries of scholarship in women's studies making this book indispensable to human rights advocates around the world
