Joiner, 2006 Through the Howling Wilderness is replete with in depth coverage on the geography of the region the Congressional hearings after the Campaign and the Confederate defenses in the Red River Valley Lost Plantation Marc R. Matrana, 2006-01-01 Along the fertile banks of the Mississippi River across from New Orleans planter Camille Zeringue transformed a mediocre colonial plantation into a thriving gem of antebellum sugar production complete with a columned mansion known as Seven Oaks Under the moss strewn oaks the privileged master nurtured his own family but enslaved many others Excelling at agriculture business an ambitious canal enterprise and local politics Zeringue ascended to the very pinnacle of southern society But his empire soon came crashing down After the ravages of the Civil War and a nasty battle with a railroad company the family eventually lost the great estate Seven Oaks ultimately ended up in the hands of distant railroad executives whose only desire was to rid themselves of this heap of history Lost Plantation The Rise and Fall of Seven Oaks tells both of Zeringue s climb to the top and of his legacy s eventual ruin Preservationists and community members abhorred the railroad s indifferent attitude and the question of the plantation mansion s fate fueled years of fiery political battles These hard fought confrontations ended in 1977 when the exasperated railroad executives sent bulldozers through the decaying house By analyzing one failed effort Lost Plantation provides insight into the complex workings of American historical preservation efforts as a whole while illustrating how southerners deal with their multifaceted past The rise and fall of Seven Oaks is much more than just a local tragedy it is a glaring example of how any community can be robbed of its history Now as parishes around New Orleans recognize the great aesthetic and monetary value of restoring plantation homes and attracting tourism Jefferson Parish mourns a manor lost Marc R Matrana Westwego Louisiana is a local historian and preservationist See the author s site *Military Bibliography of the Civil War: Regimental publications and personal narratives. The Effects Of Southern Railroads On Interior Lines During The Civil War

Thomas George Ziek Jr.,2015-11-06 The purpose of this paper is to study the effects of the Southern railroad system on interior lines during the Civil War and determine whether or not the South enjoyed the advantage of interior lines The use of railroads during this conflict placed an enormous physical strain upon the limited industrial resources of the Confederacy and a great strain upon the intellectual agility of the Confederate High Command Based upon the evidence studied and the time space comparisons of both Northern and Southern railway operations several conclusions can be drawn the South entered the war with a rail system that was unable to meet the demands of modern war the Confederate leadership understood the importance of the railroad and its importance to strategic operations early in the war but were unwilling to adopt a course of action that best utilized their scarce assets Southern railroad speeds decreased dramatically by 1863 due to the inability of Southern railroads owners to perform needed maintenance on their railroad equipment tactical reverses on the field of battle especially the losses of both Corinth in May of 1862 and Knoxville in September of 1863 increased the distances that reinforcements would have to travel to fight a mobile intra theater war Union control maintenance and organization of its railway assets ensured that it would be able to move large numbers of troops at the strategic level efficiently from early 1863 to the end of the war Based on these conclusions the Confederacy lost the ability to shift troops on the strategic level more rapidly than the Union by 1863 This was a result of its physically weakened railroad system and military setbacks which caused Southern railroads to move forces over longer distances

No Pardons to Ask, Nor Apologies to Make William Henry King, 2006 William Henry King began war service in 1862 in Louisiana and ended it in 1865 in Camden Arkansas During this period he chronicled action in the Trans Mississippi theater producing a diary that yields one of the most important accounts from a Confederate enlisted man *No Pardons to Ask Nor Apologies to Make* is a gritty look into the life of a soldier with no romantic gloss While most journals record the mundane day to day routine King s consistently detailed entries notable for their literary style King s venomous wit and his colorful descriptions cover a wide array of matters pertaining to the Confederate experience in the West King s observations about his superiors the Confederacy contraband and the underreported Trans Mississippi campaign are especially striking Though his long service demonstrates a certain loyalty to the Confederate cause he writes sharp criticisms of his superiors of military discipline and of contemporaneous social and class conditions His discontent is rooted within a fiery sense of independence that conflicts with centralized authority whether it takes the form of military government or class control Few published diaries capture the tension and turmoil that existed in the Southern ranks or the class resentment that festered in some quarters of the Confederacy *No Pardons to Ask Nor Apologies to Make* makes an important contribution to understanding how class functioned in the Confederate command and also provides a much needed account of action in the Trans Mississippi theater where the primary sources are extremely slim

Clark, Jr., 2004-10-01 By the time of the Civil War the railroads had advanced to allow the movement of large numbers of troops even though railways had not yet matured into a truly integrated transportation system Gaps between lines incompatible track gauges and other vexing impediments remained in both the North and South As John E Clark explains in this compelling study the skill with which Union and Confederate war leaders met those problems and utilized the rail system to its fullest potential was an essential ingredient for ultimate victory
