The Vacant Chair Reid Mitchell, 1993 In many ways the Northern soldier in the Civil War fought as if he had never left home On campsites and battlefields the Union volunteer adapted to military life with attitudes shaped by networks of family relationships in units of men from the same hometown Understanding these links between the homes the troops left behind and the war they had to fight writes Reid Mitchell offers critical insight into how they thought fought and persevered through four bloody years of combat In *The Vacant Chair* Mitchell draws on the letters diaries and memoirs of common soldiers to show how mid nineteenth century ideas and images of the home and family shaped the union soldier s approach to everything from military discipline to battlefield bravery For hundreds of thousands of boys as they called themselves the Union army was an extension of their home and childhood experiences Many experienced the war as a coming of age rite a test of such manly virtues as self control endurance and courage They served in companies recruited from the same communities and they wrote letters reporting on each other s performance conscious that their own behavior in the army would affect their reputations back home So too were they deeply affected by letters from their families as wives and mothers complained of suffering or demanded greater valor Mitchell also shows how this hometown basis for volunteer units eroded respect for military rank as men served with officers they saw as equals Lieut Col Dewey introduced Hugh T Reid one sergeant wrote dryly by saying Boys behold your colonel and webeheldhim In return officers usually adopted paternalist attitudes toward their boys especially in the case of white officers commanding black soldiers Mitchell goes on to look at the role of women in the soldiers experiences from the feminine center of their own households to their hatred of Confederate women as she devils The intimate relations and inner life of the Union soldier the author writes tell us much about how and why he kept fighting through four bloody years and why demoralization struck the Confederate soldier as the war penetrated the South threatening his home and family while he was at the front The Northern soldier did not simply experience the war as a husband son father or brother he fought that way as well he writes That was part of his strength The Confederate soldier fought the war the same way and in the end that proved part of his weakness *The Vacant Chair* uncovers this critical chapter in the Civil War experience showing how the Union soldier saw and won our most costly conflict
