Coerced confessions have long been a staple of TV crime dramas and have also been the subject of recent news stories The complexity of such situations however is rarely explored even in the scientific literature Now in softcover Interrogations Confessions and Entrapment remains one of the best syntheses of the scientific legal and ethical findings in this area uncovering subtle yet powerful forces that often compromise the integrity of the criminal justice system Editor G Daniel Lassiter identifies the exposure of psychological coercion as an emerging frontier in legal psychology citing its roots in the third degree approach of former times and noting that its techniques carry little scientific validity A team of psychologists criminologists and legal scholars asks and goes a long way toward answering important questions such as What forms of psychological coercion are involved in interrogation Are some people more susceptible to falsely confessing than others What are the effects of psychological manipulation on innocent suspects Are coercive tactics ever justified with minors Can jurors recognize psychological coercion and unreliable confessions Can entrapment techniques encourage people to commit crimes What steps can law enforcement take to minimize coercion Throughout this progressive volume readers will find important research based ideas for educating the courts changing policy and implementing reform from improving police interrogation skills to better methods of evaluating confession evidence For the expert witness legal consultant or student of forensic psychology this is material whose relevance will only increase with time

Gudjonsson, 2018-07-23 Provides a comprehensive and up to date review of the development of the science behind the psychology of false confessions Four decades ago little was known or understood about false confessions and the reasons behind them So much has changed since then due in part to the diligent work done by Gisli H Gudjonsson This eye opening book by the Icelandic British clinical forensic psychologist who in the mid 1970s had worked as detective in Reykjavik offers a complete and current analysis of how the study of the psychology of false confessions came about including the relevant theories and empirical experimental evidence base It also provides a reflective review of the gradual development of the science and how it can be applied to real life cases Based on Gudjonsson s personal account of the biggest murder investigations in Iceland s history as well as other landmark cases The Psychology of False Confessions Forty Years of Science and Practice takes readers inside the minds of those who sit on both sides of the interrogation table to examine why confessions to crimes occur even when the confessor is innocent Presented in three parts the book covers how the science of studying false confessions emerged and grew to become a regular field of practice It then goes deep into the investigation of the mid 1970s assumed murders of two men in Iceland and the people held responsible for them It finishes with an in depth psychological analysis of the confessions of the six people convicted Written by an expert extensively involved in the development of the science and its application to real life cases Covers the most sensational murder cases in Iceland s history Deep analysis of the Reykjavik Confessions adds crucial evidence to understanding how and why coerced internalized false confessions occur and their detrimental and lasting effects on memory The Psychology of

Kierkegaard's Journals and Notebooks, Volume 8 Søren Kierkegaard,2015-08-18 For over a century the Danish thinker S ren Kierkegaard 1813 55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history s great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard s journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but

we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 8 of this 11 volume series includes five of Kierkegaard's important NB journals Journals NB21 through NB25 which cover the period from September 1850 to June 1852 and which show Kierkegaard alternately in polemical and reflective postures The polemics emerge principally in Kierkegaard's opposition to the increasing infiltration of Christianity by worldly concerns a development that in his view had accelerated significantly in the aftermath of the political and social changes wrought by the Revolution of 1848 Kierkegaard understood the corrupting of Christianity to be in the interest of the powers that be and he directed his criticism at politicians the press and especially the Danish Church itself particularly church officials who claimed to be reformers On the reflective side Kierkegaard delves into a number of authors and religious figures some of them for the first time including Montaigne Pascal Seneca Savonarola Wesley and F W Newman These journals also contain Kierkegaard's thoughts on the decisions surrounding the publication of the Anti Climacus writings The Sickness unto Death and especially Practice in Christianity Kierkegaard's reader gets the sense both of a gathering storm by the close of the last journal in this volume the famous attack on Christendom is less than three years away and a certain hesitancy What needs reforming Kierkegaard insists is not the doctrine or the Church but existences i e lives

Appletons' Journal, 1881 **The Confessing Society** Andreas Fejes, Magnus Dahlstedt, 2013-05-02

I highly appreciate the quality of Fejes and Dahlstedt's research and writing They manage to present in a comprehensible way some essential concepts of Foucault that help us to understand better what practices of lifelong learning in a broad sense are emerging nowadays in advanced liberal societies In doing so they contribute to the renewal of critical thinking in education They convince me that such renewal is important and necessary and I think both theoreticians and practitioners of lifelong learning will equally recognize and value this analysis particularly also because they present a good mix of theory and practice Professor Danny Wildemeersch Today people are constantly encouraged to verbalise and disclose their true inner self to others whether on TV shows in newspapers in family life or together with friends Such encouragement to disclose the self has proliferated through discourses on lifelong learning through which each citizen is encouraged to become a constant learner The Confessing Society takes a critical stance towards the modern relentless will to disclose the self and argues that society has become a confessing society Drawing on Foucault's later work on confession and governmentality this book carefully analyses how confession operates within practices of lifelong learning as a way to shape activated and responsible citizens and provides examples of how it might be possible to traverse the confessional truth of the present time

Chapters include Reflection and Reflective Practices Deliberation and Therapeutic Intervention Lifelong Guidance Medialised Parenting This controversial book is international in its scope and pursues current debates regarding trans national policy and to research discussions on education lifelong learning and governance and it will provoke lively debate amongst educational practitioners academics postgraduate and research students in education and lifelong learning in Europe North America and Australasia

The Doctrine of the Holy Spirit in the Major Reformed Confessions and Catechisms of the Sixteenth and Seventeenth Centuries Yuzo Adhinarta, 2012-06-14 With the rise of Pentecostalism in the early twentieth century and growth in the charismatic movement since a resurgence of interest in the Holy Spirit and Christian spirituality in both theology and the church's life has become evident Along with increased interest in the doctrine of the Holy Spirit there are criticisms of the treatment of the doctrine in church history for having neglected the Holy Spirit in both theology and the church's life Critical studies of the treatments of the doctrine of the Holy Spirit in church history have been laboriously conducted However there have not been many studies on the doctrine of the Holy Spirit in Reformed orthodoxy particularly in its confessional standards Recognizing the gap in the history of scholarship this work explores and provides a systematic account of the person and some aspects of the work of the Holy Spirit as presented in the major Reformed confessions and catechisms of the sixteenth and seventeenth centuries Attention is particularly given to those aspects of the work of the Holy Spirit that have not been greatly explored but are pertinent to contemporary discussions
