Agon Towards A Theory Of Revisionism:

Agon Harold Bloom, 1982 Expands on the controversial theory of revisionism presented in *The Anxiety of Influence* and *A Map of Misreading* Bloom's theory is based on a dialectic or contest involving opposing artistic and moral views which he particularly examines in relation to Romanticism the American poetic tradition Freud's theories and what the author calls the American religion of competitiveness that he sees best exemplified by contemporary Jewry **The Dangers of**

Interpretation Ilona Treitel, 2019-08-22 First published in 1996 This comparative study investigates thematic and technical similarities in the works of the two authors who shared a cultural heritage and achieved comparable status in their separate literary traditions Drawing upon theories by Bloom Bakhtin and Lacan the book examines ways in which Henry James and Thomas Mann treat the creative artist and analyze the creative and interpretive processes in their fiction The texts covered range from early works to their great modern novels *The Golden Bowl* and *Doctor Faustus* To a great extent the similarities between the works stem from the authors preoccupation with artistic responsibility Adopting Bloom's claim that the creative activity is an interpretive one and that the reader as well as the writer interprets a text into being the book also investigates the reader's responsibility in confronting the dilemmas challenging James and Mann's artist figures Such challenges are the dangers of interpretation discussed in this book Index Bibliography *Agonal Perspectives on Nietzsche's Philosophy of*

Critical Transvaluation Herman W. Siemens, 2021-11-08 Nietzsche's strengths as a critic are widely acknowledged but his peculiar style of critique is usually ignored as rhetoric or dismissed as violent or simply incoherent In this book Nietzsche's concept of the agon or *Wettkampf* a measured and productive form of conflict inspired by ancient Greek culture is advanced as the dynamic and organising principle of his philosophical practice enabling us to make sense of his critical confrontations and the much disputed concept of transvaluation or *Umwertung* Agonal perspectives are cast on number of key problems in his thought across a broad range of texts Topics and problems treated include critical history and the need for a limit in the negation of the past Nietzsche contra Socrates and the problem of closure Nietzsche contra humanism and the problem of humanity Nietzsche contra Kant on genius and legislation the problem of self legislation in relation to life and temporality Nietzsche's sense of community in its articulation with law and the normativity of taste resentment and the question of therapy in Nietzsche and Freud and the problem of total affirmation in relation to critique These studies have a broad appeal from MA level to advanced Nietzsche research **Agonistics** Janet Lungstrum, Elizabeth Sauer, 1997-01-01 Focuses on a very significant psycho cultural concept that of agonistics or contestatory creativity with ramifications in several areas of the postmodern debate cultural philosophy psychologies of race gender and the body and narratology **The Influence of**

Mikhail Bakhtin on the Formation and Development of the Yale School of Deconstruction Julio Peiró Sempere, 2014-05-02 This book explores the origins of American literary deconstruction in the light of the work of Russian philosopher Mikhail M Bakhtin To do so the author offers a comparative reading of Bakhtin's work and that of the literary

critics who formed the so called Yale School of Deconstruction namely Paul de Man J Hillis Miller Harold Bloom and Geoffrey Hartman By resorting to Bakhtin s challenging understanding of the dialogical nature of the world and his reworking of the notion of temporality in the literary work of art the readings offered in this book provide the reader with a new point of departure for one of the most influential movements in twentieth century literary theory literary deconstruction

Victorian Afterlives Robert Douglas-Fairhurst,2002 Victorian Afterlives examines a Victorian obsession with influence the often unpredictable after effects of words and actions in fields as diverse as mesmerism and theology literary theory and sanitation reform Marshall McLuhan and Northrop Frye B.W. Powe,2014-01-01 Marshall McLuhan and Northrop Frye are two of Canada s central cultural figures colleagues and rivals whose careers unfolded in curious harmony even as their intellectual engagement was antagonistic Poet novelist essayist and philosopher B W Powe who studied with both of these formidable and influential intellectuals presents an exploration of their lives and work in Marshall McLuhan and Northrop Frye Apocalypse and Alchemy Powe considers the existence of a unique visionary tradition of Canadian humanism and argues that McLuhan and Frye represent fraught but complementary approaches to the study of literature and to the broader engagement with culture Examining their eloquent but often acid responses to each other Powe exposes the scholarly controversies and personal conflicts that erupted between them and notably the great commonalities in their writing and biographies Using interviews letters notebooks and their published texts Powe offers a new alchemy of their thought in which he combines the philosophical hallmarks of McLuhan s The medium is the message and Frye s the great code Blake, Ethics, and Forgiveness Jeanne Moskal,1994 It demonstrates that Blake s protests are directed to laws based on obligation which assume that all human persons are essentially alike while Blake s advocacy of forgiveness among human beings assumes an ethics of character based on the cultivation of virtues The Saving Lie Agata Bielik-Robson,2011-03-30 Hailed as our era s most profound theorist of literary influence Harold Bloom s own influence on the landscape of literary criticism has been decisive His wide ranging critical writings have plumbed the depths of Romanticism explored the anxiety caused by the influence of one generation of poets on another wrestled with the idea of a literary canon and examined the relationship between religion and literature *Freud's Dream of Interpretation* Ken Frieden,2012-02-01 Frieden explores methods of dream interpretation in the Bible the Talmud and in the writings of Sigmund Freud and brings to light Freud s troubled relationship to his Judaic forerunners This book reveals unfamiliar associations in intellectual history and challenges received ideas in biblical Talmudic and Freudian scholarship Freud distanced himself from dream interpreters such as Joseph and Daniel by rejecting their intuitive methods and their claims to predict the future While biblical and Talmudic dream interpretation generally involve prophecy Freud sought to limit himself to the determination of prior causes in the dreamer s life Nevertheless Frieden demonstrates that Freud s strategies of interpretation and especially his use of free association inevitably guide the dreamer toward a future This resonance between ancient prophecy and modern psychology is merely

one example of the concealed relationship between Judaic and psychoanalytic dream interpretation Frieden shows the role both of actual influences and influences denied by Freud
