

Theories of Personality Study Guide for Exam1

1. What is personality? What do traits tell us?
Personality is a more or less stable psychophysical system of thoughts, emotions, and behavior. Each person has their own patterns in their personality.
Personality is the ABC's- Affect Behavior and Cognition
Traits are characteristic adaptations that include motives, goals, plans, strategies, values, self-image, and developmental tasks.
Traits are relatively broad terms to describe one another.
A trait is a stable dimension across time and situations of personality that can be used to characterize people. We can use traits to describe ourselves and others.
2. Know the longitudinal study of TV violence and aggression by Leonard Eron. What hypotheses was he able to investigate? What do the correlations mean?
He studied 500 children in 3rd grade (boys) in Chicago for TV violence and aggression. Examined 10 years later. 8 years old and 10 years old.
Hypothesis... Situation and
A correlation of .21 is not a strong correlation. Situational hypothesis: .31; Selective hypothesis: .01 ; Personality hypothesis: .38
3. Given a study description, be able to identify the type of study (correlational, experimental), the variables (what is the IV?), and strengths and weaknesses of the design?
Experiments are to find causality. The experiment method has the ability to ascertain what causes what. In an experiment, you manipulate a variable. Opposed to measuring the variable like in the correlational. Correlational is how strong or weak two variables are. The stronger the r-value the stronger correlation. IV is the independent variable, which can be measured or manipulated. The dependent variable is measured with a correlation value.
4. Be familiar with examples of S, I, B, and L data.
The S data is Self-reports
The I data is informant data. The types of observers. Naturalistic vs. artificial observations.
The B data is Behavior data. These are behavior (social interactions), performance (IQ, memory, reaction time), physiology (skin conductance, eyeblink startle reflex, brain imaging), projective tests (TAT, Roschach inkblots), and MMPI.
The L data is life-outcome: health, education, work, marriage, and parenthood. The examples are interviews with mothers of 8-10-year-old children. Rated severity and frequency of temper tantrums. Men who had exhibited temper tantrums. Women who had exhibited temper tantrums.
5. With respect to assessment, be familiar with reliability, validity, and generalizability.
 - Reliability: is something consistent?
 - Test-retest reliability: do you get the same results each time.
 - Internal consistency: do the items relate/are consistent with each other
 - Inter-rater reliability: do two people see the same thing.
 - Validity: does it actually measure what is supposed to?
 - Face validity: does it look like it is measuring what it is supposed to.
 - Predictive/criterion validity: can you use the measure to predict various outcomes.

Aids A Christian Response Study Guide For Adults:

Aids ,1987 **Sexuality, Religion, and Magic** Michael A. Kőszegi,1994 **AIDS, a Christian Response** Howard E. Mueller,Rodney L. Rathmann,Arnold E. Schmidt,1987 *AIDS Bibliography* ,1995-05 **Index to Book Reviews in Religion** ,1990 **Resources in Education** ,1997-10 **Guidelines for the Prevention Care and Treatment of Persons with Chronic Hepatitis B Infection** World Health Organization,2015-08-05 These are the first World Health Organization WHO guidelines for the prevention care and treatment of persons living with CHB infection and complement similar recent published guidance by WHO on the prevention care and treatment of infection due to the hepatitis C virus HCV In contrast to several recent international guidelines on the management of CHB infection from the United States Europe Asia Pacific and the United Kingdom UK the primary audience for these WHO guidelines is country programme managers in all settings but particularly in LMICs to help plan the development and scale up of hepatitis B prevention care and treatment These guidelines are also intended for health care providers who care for persons with CHB in these settings The recommendations are structured along the continuum of care for persons with CHB from initial assessment of stage of disease and eligibility for treatment to initiation of first line antiviral therapy and monitoring for disease progression toxicity and HCC and switch to second line drugs in persons with treatment failure They are intended for use across age groups and adult populations The recommendations in these guidelines promote the use of simple non invasive diagnostic tests to assess the stage of liver disease and eligibility for treatment prioritize treatment for those with most advanced liver disease and at greatest risk of mortality and recommend the preferred use of nucleos t ide analogues with a high barrier to drug resistance tenofovir and entecavir and entecavir in children aged 2 11 years for first and second line treatment These guidelines also recommend lifelong treatment in those with cirrhosis and regular monitoring for disease progression toxicity of drugs and early detection of HCC An additional chapter highlights management considerations for specific populations including those coinfectd with HIV HCV and hepatitis D virus HDV children and adolescents and pregnant women **ThirdWay** ,1985-09 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture

Religious Responses to HIV and AIDS Miguel Munoz-Laboy,Jonathan Garcia,Joyce Moon-Howard,Patrick A. Wilson,Richard Parker,2016-01-08 Religious institutions shaped the ways individuals communities and societies responded to HIV and AIDS since the 1980s This book draws on research studies ranging in context from sites in sub Saharan Africa to New York City in the USA to examine the complexity of responding to the epidemic both globally and locally Religious systems of meaning practices and institutions have been central to the articulation of projects for social change and inversely sometime strongly resistant to change in diverse institutional responses to HIV and AIDS Sometimes religious movements provided powerful forces for community mobilisation in response to the social vulnerability economic exclusion and health problems associated with HIV In other contexts religious cultures have reproduced values and practices that have seriously

impeded more effective approaches to mitigate the epidemic By highlighting these complex and sometimes contradictory social processes this book provides new insights about the potential for religious institutions to address the HIV epidemic more effectively More broadly it shows how research can be done on religion in the area of global public health showing how civil society organizations shape opportunities for health promotion a crucial and new area of global public health research This book was originally published as a special issue of Global Public Health SCM Studyguide: Biblical Hermeneutics David Holgate,Rachel Starr,2019-09-30 The SCM Studyguide Biblical Hermeneutics offers entry level undergraduates a framework for interpreting the Bible The book goes beyond offering guidance on how to do exegesis and is intended as a practical tool to help readers develop good interpretative strategies for themselves As such it features pedagogical tools such as Try it Out boxes to assist students to develop a tested and thought through overall interpretative strategy of their own This fully updated 2nd edition takes into account the changing church and world context and the new challenges this context brings as students seek to read the Bible with attentiveness integrity and faithfulness Table of contents Acknowledgements Introduction 1 Where Do We Want to Go 2 Past Experience and Present Expectations 3 Tools for Exegesis 4 Our Reality 5 Committed Readings 6 Enabling Dialogue with the Text 7 Our Goal Life Affirming Interpretations Summary of the Interpretative Process References and Further Reading Index of Biblical References Index of Names Index of Subjects
