Environmental, Health, and Business Opportunities in the New Meat Alternatives Market Bogueva, Diana,Marinova, Dora,Raphaely, Talia,Schmidinger, Kurt,2018-12-28 There are various innovations and new technologies being produced in the energy transportation and building industries to combat climate change and improve environmental performance but another way to combat this is examining the world s food resources Currently there are global challenges associated with livestock and meat consumption giving way to resource scarcity and the inability to sustain animal agriculture Environmental Health and Business Opportunities in the New Meat Alternatives Market is a pivotal reference

source that provides vital research on the development of plant based foods and nutritional outcomes Through analyzing innovative and disruptive trends in the food industry it presents opportunities utilizing meat alternatives to create a more engaged consumer a stronger economy and a better environment Highlighting topics such as meat consumption nutrition health and gender perspectives this book is ideally designed for policymakers economists health professionals nutritionists technology developers academicians and graduate level students *The New Politics of Sinn Féin* Kevin Bean,2007-01-01 Sinn Féin in ourselves or we ourselves began innocuously enough at least in etymology when founder Arthur Griffith asked the publishers of an Oldcastle paper if he might use their name for a new political party that he was setting up Since that 1905 founding however and through its journey from revolutionary movement to potential political partner in the state it was pledged to destroy the modern political meaning of Sinn Féin reflects a contradictory and tension heavy history of Irish republicanism *The New Politics of Sinn Féin* is a powerful and revealing assessment of the ideological and organizational development of provisional republicanism since 1985 The first half of the volume chronicles the processes of change that transformed the republican movement from its revolutionary origins to its current role as a civic and legislative power while the second half explores the ideological implications of this transition Arguing that the political movement remains a site of contestation between elements of the universal and the particular Kevin Bean looks especially to the tensions between civic and ethnic conceptions of identity and the nation as a way to define Sinn Féin in its current incarnation making this an essential volume for anyone concerned with the contemporary state of Irish politics Nicholls, Montgomery, and Knowles on The Law of Extradition and Mutual Assistance Clive Nicholls,Clare Montgomery,Julian B. Knowles,Anand Doobay,Mark Summers,2013-03-14 *Nicholls Montgomery and Knowles on The Law of Extradition and Mutual Assistance* provides a comprehensive and analytical treatment of the laws covering the extradition and mutual assistance agreements as well as international mutual assistance Provides extensive treatment of both extradition and mutual assistance in one text *Asian Cities in an Era of Decentralisation* Michelle Ann Miller,Tim Bunnell,2016-03-16 This book critically engages with the idea of decentralization as empowering cities and their residents to act innovatively and creatively The contributions thus highlight how the term empowerment in the context of decentralization regimes masks a competing array of intentions and agendas Who and what are empowered given a voice and allowed to participate via the processes and structures of decentralization and to what ends are too frequently assumed in normative conversations about bringing government closer to the people and community driven development Creating an illusion of a shared language and common set of priorities therefore obscures more complex realities particularly when there is a disconnect between the official goals of decentralization and civil society aspirations that reinforces politics of exclusion at the grassroots Equally official processes of decentralization can and often are accompanied by less visible processes of recentralization through the reassertion of central state control over putatively autonomous jurisdictions Through studies in six Asian countries India the Philippines Indonesia Bangladesh Thailand and

Japan the essays in this book examine cases whereby a range of urban actors and institutions have been empowered via decentralization and how this realignment of local power relations impacts upon the dynamics of urban governance albeit not always in socially progressive ways This book was published as a special issue of Space and Polity
