Re-thinking Picturebooks for Intermediate and Advanced Learners: Perspectives for Secondary English Language Education Grit Alter,Thorsten Merse,2023-11-27 Der

didaktische Wert von Picturebooks für den Englischunterricht in der Grundschule gilt als unumstritten. Jedoch gibt es in Forschung und Unterrichtspraxis derzeit kaum Anstöße wie der Transfer dieses vermeintlich kindlichen Literaturmediums in die Sekundarstufe gelingen kann. Dieser Band legitimiert Picturebooks als komplex angelegte Textform, die sich auch mit fortgeschrittenen Lernenden zu kompetenz- und inhaltsorientierter Arbeit im Englischunterricht anbietet. Die im Band versammelten konzeptuellen und empirischen Perspektiven zeigen angehenden und praktizierenden Lehrkräften konkret auf, wie vielfältig Picturebooks den Unterricht bereichern können. Eine große Bandbreite praktischer Beispiele verdeutlicht ihr Potenzial für den Englischunterricht der Sekundarstufen von der Förderung verschiedener Literacies und literarischen Lernens bis hin zur Fokussierung von Themen wie Umwelt, sozialer Gerechtigkeit oder kultureller Diversität. *Handbook of Research on International Business and Models for Global Purpose-Driven Companies* Perez-Urbe, Rafael Ignacio, Largacha-Martinez, Carlos, Ocampo-Guzman, David, 2020-11-20 International businesses struggle to be competitive and influential at the global market level. It makes connections between video games and time-tested pedagogical techniques such as discovery learning and feedback to improve student engagement and learning. It also examines the social nature of gaming such as techniques for driver, navigator, partners, small groups, and whole class structures to help make thinking visible. It expands the traditional design process teachers engage in by encouraging use of video game design techniques such as playtesting. The author emphasizes designing curricular games for problem solving and warns against designing games that are simply Alex Trebek host of Jeopardy wearing a mask. By drawing on multiple fields such as systems thinking, design theory, assessment, and curriculum design, this book relies on theory to generate techniques for practice. *Single Mothers, Patriarchy and Citizenship in India: Rethinking Lone Motherhood through the Lens of Socio-legal and Policy Framework* Adv. Dr. Shalu Nigam, 2024-02-18 Motherhood is a powerful virtue. However, in a patriarchal society, it is construed narrowly to uphold the heteronormative family norms which prioritize men over women. This traditional framework overlooks the diverse family forms and alienates female-headed households. Rather, families headed by lone mothers are chastened and labelled as broken.

pathological and degenerative. Despite constitutional guarantees of equality and justice the state and society alienate them, deny them visibility and absolve themselves of the responsibilities of protecting their citizenship rights. Nevertheless, for ages single mothers, despite all hardships, have been defying patriarchal norms and are bringing up their children solely with little support available from their families, society, or the state. Rather, they are challenging the dominant and hegemonic male breadwinner and provider model. This work examines this active and empowered notion of motherhood or feminist and emancipatory mothering while focusing on how lone mothers are redefining and reshaping the socio-cultural norms to pave the social transformation through their maternal activism. With the increase in the number of female-headed households, this work recommends the need for an alternative approach to disrupt the dominant themes of victimhood, poverty, destitution, and neglect by deploying the axis of intersectionality. It suggests that the state needs to evolve a comprehensive empowerment framework to specifically recognize the entitlements of single mothers as citizens and take steps to advance their citizenship rights.

Rethinking Gifted Education James H. Borland, 2003-01-01. Gifted education is in a period of transition, unlike any it has experienced in this generation. Thinkers within the field and without are questioning the practice of gifted education, the theoretical foundations on which this practice rests, and even the value and legitimacy of the concept of giftedness. This fresh and provocative volume contains essays by leading thinkers on gifted education and by writers outside the field who have examined it critically. Each author examines, reconsiders, and challenges the assumptions and beliefs underlying the theory and practice of gifted education, providing a roadmap to guide both current considerations of and future planning for gifted education programs.

Universities with a Social Purpose Kerry Shephard, V. Santhakumar, 2024-01-05. This book is a narrative of conversations between two professors with different backgrounds, academic disciplines, life experiences, and from different continents. It shows how their discourse has brought them to a single destination defined by a mutual interest in the social purposes of universities and a hope in common that their academic efforts will somehow do good in the world. The seventeen internationally agreed Sustainable Development Goals (SDGs) provide focus for aspirations and plans regarding sustainability, but notably the SDGs' targets and indicators rarely provide detailed accounts of who is expected to enact change. This book addresses the role of higher education in this context and explores the social purposes of universities and their relation to the Sustainable Development Goals. It presents an academic analysis of this complex situation based on insights from published literature on higher education and the personal but very different experiences of two professors with this shared interest.

Sefa Dei,2009-12-04 One is always struck by the brilliant work of George Sefa Dei but nothing so far has demonstrated his pedagogical leadership as much as the current project With a sense of purpose so pure and so thoroughly intellectual Dei shows why he must be credited with continuing

the motivation and action for justice in education He has produced in this powerful volume Teaching Africa the same type of close reasoning that has given him credibility in the anti racist struggle in education Sustaining the case for the democratization of education and the revising of the pedagogical method to include Indigenous knowledge are the twin pillars of his style A key component of this new science of pedagogy is the crusade against any form of hegemonic education where one group of people assumes that they are the masters of everyone else Whether this happens in South Africa Canada United States India Iraq Brazil or China Dei s insights suggest that this hegemony of education in pluralistic and multi ethnic societies is a false construction We live pre eminently in a world of co cultures not cultures and sub cultures and once we understand this difference we will have a better approach to education and equity in the human condition **Quality**
