## Basic Writings Of Existentialism:

*Basic Writings of Existentialism* Gordon Marino, 2007-12-18 Edited and with an Introduction by Gordon Marino Basic Writings of Existentialism unique to the Modern Library presents the writings of key nineteenth and twentieth century thinkers broadly united by their belief that because life has no inherent meaning humans can discover we must determine meaning for ourselves This anthology brings together into one volume the most influential and commonly taught works of existentialism Contributors include Simone de Beauvoir Albert Camus Fyodor Dostoevsky Ralph Ellison Martin Heidegger Søren Kierkegaard Friedrich Nietzsche Jean Paul Sartre and Miguel de Unamuno y Jugo *Existentialism* Charles B. Guignon, Derk Pereboom, 1995 This book offers a brief introduction to the thought of four figures central to existential philosophy Kierkegaard Nietzsche Heidegger and Sartre An introductory chapter presents the basic perspective and concerns of existentialism and describes its place in the history of philosophy Similar introductions are provided for each of the four philosophers followed by selections from their major works Background readings are also excerpted from works by Hegel and Husserl No index c Book News Inc Existentialism from Dostoevsky to Sartre Walter Kaufmann, 1975-03 A Meridan book **Summary of Gordon Marino's Basic Writings of Existentialism** Everest Media, 2022-05-15T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Søren Aabye Kierkegaard was the father of existentialism He was born in Copenhagen in 1813 He entered the University of Copenhagen in 1830 but it took him more than a decade to finish his degree He passed his exams in 1840 and a year later completed his dissertation On the Concept of Irony With Constant Reference to Socrates 2 Kierkegaard wrote about the relation between ethics and religion and he suggested that faith was about the attempt to follow Christ in his self denial suffering and ultimately in his humiliation He no longer wanted to participate in making a fool of God 3 The ethical is the universal and it applies to everyone at all times It is immanent in itself and has nothing outside itself that is its end but it is its own end The single individual sensuously and psychically qualified in immediacy is the individual who has his end in the universal 4 Faith is the paradox that the individual is higher than the universal yet justified before it It is a higher position that cannot be mediated and yet it exists eternally It is this paradox that Abraham believed in and it is this paradox that makes faith exist Jean-Paul Sartre Jean-Paul Sartre, 2001 This first collection of Sartre's key philosophical writings provides an indispensable resource for all students and readers of his work which has been extremely influential in philosophy literature and politics **BASIC WRITINGS OF EXISTENTIALISM (INTERLOAN 353777).** , **Existentialism from Dostoevsky to Sartre** Walter Arnold Kaufmann, 1960 *Existentialism from Dostoevski to Sartre* Walter Kaufmann, 1957 **Jean-Paul Sartre: Basic Writings** Jean-Paul Sartre, 2002-01-04 Jean Paul Sartre is one of the most famous philosophers of the twentieth century The principle founder of existentialism a political thinker and famous novelist and dramatist his work has exerted enormous influence in philosophy literature politics and cultural studies Jean Paul Sartre Basic Writings is the first collection of Sartre's

Can technology change what it means to be human? In this thoroughly revised second edition of Emotional Amoral Egoism, Professor Nayef Al-Rodhan demonstrates the impact of our innate predispositions on key issues from conflict, inequality, and transcultural understanding to Big Data, fake news, and the social contract. However, it is the societies we live in and their governance structures that largely determine how we act on our innate predispositions. Consequently, Al-Rodhan proposes a new and sustainable good governance paradigm which must reconcile the ever-present tension between the three attributes of human nature: Emotional Amoral Egoism and the nine critical needs of human dignity. This book is a perfect resource for enlightened readers, academics, and policy makers interested in how our innate instincts and tendencies shape the world we live in and how the interplay between neurophilosophy and policy can be harnessed for pragmatic and sustainable peace, security, and prosperity solutions for all at all times and under all circumstances.

Lynch is examined as a postmodern artist and the themes of darkness, logic and time are discussed in depth. *A Companion to Phenomenology and Existentialism* Hubert L. Dreyfus, Mark A. Wrathall, 2009-04-20. A Companion to Phenomenology and Existentialism is a complete guide to two of the dominant movements of philosophy in the twentieth century. Written by a team of leading scholars including Dagfinn Føllesdal, J. N. Mohanty, Robert Solomon, Jean-Luc Marion. Highlights the area of overlap between the two movements. Features longer essays discussing each of the main schools of thought, shorter essays introducing prominent themes and problem-oriented chapters. Organised topically around concepts such as temporality, intentionality, death and nihilism. Features essays on unusual subjects such as medicine, the emotions, artificial intelligence and environmental philosophy.

**Geographical Thought** Lalita Rana, 2014-01-01. Geographical thought at any point in time is a manifestation of the prevailing viewpoints and methodological approaches in vogue. The development of geography has a history of evolution of over 2000 years. The discipline has been crafted over time to incorporate ideas from various schools of thought and several other disciplines from ancient to modern times. The existing methodology and the subject matter of Geography is a reflection of this assemblage and evolution. The nature of development remained more philosophical up to the modern period. The First edition of this book published in 2008 was an attempt towards compilation of relevant study material on evolution of Geographic thought in a systematic way up to the modern period. The book has been revised with the addition of two elaborated sections, i.e. one each on the Classical and the Contemporary tradition in geography. However, the major thrust of present book is on the nature of geographic developments in its contemporary phase. More recently, the anthropocentrism and a concern about methodology are more evident in the development of discipline.

*Phenomenology and Existentialism in the Twentieth Century* Anna-Teresa Tymieniecka, 2009-09-30. Phenomenology and existentialism transformed understanding and experience of the Twentieth Century to their core. They had strikingly different inspirations and yet the two waves of thought became merged as both movements flourished. The present collection of research devoted to these movements and their unfolding interaction is now especially revealing. The studies in this first volume to be followed by two succeeding ones range from the predecessors of existentialism: Kierkegaard, Jean Wahl, Nietzsche to the work of its adherents: Shestov, Berdyaev, Unamuno, Blondel, Blumenberg, Heidegger and Mamardashvili, Dufrenoy and Merleau-Ponty to existentialism's congruence with Christianity or with atheism. Among the leading Husserlian insights are treated: essence and experience, the place of questioning ethics and intentionality, temporality and passivity and the life-world. The following book will uncover the perennial concerns guiding the wondrous interplay of these two inspirational sources.

*Sartre and the International Impact of Existentialism* Alfred Betschart, Juliane Werner, 2020-04-21. This edited collection re-examines the global impact of Sartre's philosophy from 1944-68. From his emergence as an eminent philosopher, dramatist and novelist to becoming the world's conscience through his political commitment, Jean-Paul Sartre shaped the mind-set of a generation.

influencing writers and thinkers both in France and far beyond Exploring the presence of existentialism in literature theatre philosophy politics psychology and film the contributors seek to discover what made Sartre s philosophy so successful outside of France With twenty diverse chapters encompassing the US Europe the Middle East East Asia and Latin America the volume analyses the dissemination of existentialism through literary periodicals plays universities and libraries around the world as well as the substantial challenges it faced The global post war surge of existentialism left permanent traces in history exerting considerable influence on our way of life in its quest for authenticity and freedom This timely and compelling volume revives the path taken by a philosophical movement that continues to contribute to the anti discrimination politics of today     Philosophy ,
