Basil Al Bayati:

Basil Al-Bayati Basil Al-Bayati,1993 Basil Al Bayati s individual and distinctive architectural style is admired throughout the Middle East and Europe for its fusion of function and symbolism His skilful weaving together of eastern and western architectural language aiming to reconcile two incompatible worlds has made him one of London s most admired architects practising today The metaphorical use of the plant and animal kingdoms creates a coherent structure in his work yet allows for inner rhythms patterns and complexities Demonstrated here in the Oriental Village by the Sea Dominican Republic the ecoskeleton of the animal provides the nucleus of the plan while its network of roads and causeways take their inspiration from the branching form of a tree This richly illustrated volume which covers Al Bayati s work over the last four years includes two of his recent projects in the Middle East the Qair Ghumdan Hotel in Yemen and the Sinmar Palaces These demonstrate his clever use of historic analogy as they take their inspiration from ancient stories celebrating mythological buildings BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Basil**

Constructing Identity in Contemporary Architecture Peter Herrle, Stephanus Schmitz, 2009 The global spread of uniform modes of production and cultural values has been accompanied by a dissemination of stereotypes of modern architecture styles almost everywhere around the globe Paradoxically the reverse process has also emerged In some countries the elites feel the necessity to counterbalance the loss of identity and defend their own cultures against the intruding forces of globalization What started as a defensive notion has developed into a more progressive attempt to re-create what has allegedly been lost This trend is being strongly expressed in discourses about architecture in countries of the South Who are the actors feeling compelled to construct new identities How are these new identities in architecture created in various parts of the world And which are the ingredients borrowed from

various historical and ethnic traditions and other sources These and other questions are discussed in five case studies from different parts of the world written by renowned scholars from Brazil Mexico Egypt India and Singapore Community and Unity Basil Al-Bayati,1983 Contemporary Architecture in the Arab States Udo Kultermann,1999 Coupling case studies with over 100 never before seen illustrations this volume chronicles modern architectural developments in the nations of Egypt Iraq Morocco Algeria Tunisia Libya Syria Jordan Lebanon Saudi Arabia the Gulf States the United Arab Emirates Oman Yemen and Sudan All types of buildings are discussed from government offices and public spaces to houses of education and religion The featured examples include designs for both commercial and private client BOOK JACKET *Journal* ,1989
