Cutting The Lions Tail:

Cutting the Lion's Tail Muḥammad Ḥasanayn Haykal,1986 **Now Through a Glass Darkly** Edward Peter Nolan,1990 Nolan explores the way Roman and medieval authors used the mirror as both instrument and metaphor

Cutting the Lion's Tail Muhammad Husayn Haykal,1987 *Book Review* Keith Kyle,1986 **Suez Deconstructed** Philip Zelikow,Ernest May,2018-09-04 Experiencing a major crisis from different viewpoints step by step The Suez crisis of 1956 now little more than dim history for many people offers a master class in statecraft It was a potentially explosive Middle East confrontation capped by a surprise move that reshaped the region for years to come It was a diplomatic crisis that riveted the world s attention And it was a short but startling war that ended in unexpected ways for every country involved Six countries including two superpowers had major roles but each saw the situation differently From one stage to the next it could be hard to tell which state was really driving the action As in any good ensemble all the actors had pivotal parts to play Like an illustration that uses an exploded view of an object to show how it works this book uses an unprecedented design to deconstruct the Suez crisis The story is broken down into three distinct phases In each phase the reader sees the issues as they were perceived by each country involved taking into account different types of information and diverse characteristics of each leader and that leader s unique perspectives Then after each phase has been laid out editorial observations invite the reader to consider the interplay Developed by an unusual group of veteran policy practitioners and historians working as a team Suez Deconstructed is not just a fresh way to understand the history of a major world crisis Whether one s primary interest is statecraft or history this study provides a fascinating step by step experience repeatedly shifting from one viewpoint to another At each stage readers can gain rare experience in the way these very human leaders sized up their situations defined and redefined their problems improvised diplomatic or military solutions sought ways to influence each other and tried to change the course of history

Futile Diplomacy: Operation Alpha and the failure of Anglo-American coercive diplomacy in the Arab-Israeli conflict, 1954-1956 Neil Caplan,1983 These four volumes provide a careful and balanced behind the scenes account of the intricate diplomatic activity of the period between 1913 and 1956 Exploiting a range of available archive sources as well as extensive secondary sources they provide an authoritative analysis of the positions and strategies which the principal parties and the would be mediators adopted in the elusive search for a stable peace The text of each volume comprises both analytical historical chapters and a selection of primary documents from archival sources *Pearson's Prize* John Melady,2006-04-15 In the fall of 1956 the world was on the brink of war Egyptian President Gamel Nasser nationalized the Suez Canal and Britain France and Israel attacked him Russia supported Nasser and Soviet Premier Khrushchev threatened nuclear holocaust if the United States became militarily involved Soon the matter became a major problem for the United Nations Fortunately because of the efforts of Lester Pearson then Canada s Minister of External Affairs the crisis was defused Pearson proposed a U N peacekeeping force be sent to Egypt to separate

the warring factions there and keep the peace Because his idea was adopted Pearson helped save the world from war For his outstanding statesmanship Pearson won the Nobel Prize for Peace the only Canadian ever to do so This book written to commemorate the fiftieth anniversary of the event is about the Suez and about Pearson s work during a tension filled time in the twentieth century *Key to the Sinai* George Walter Gawrych,1990 In both the 1956 and 1967 wars Abu Ageila was the main gateway to the Sinai for the Israel Defense Forces Yet there were marked differences between Egyptian and Israeli war plans preparations operations and results in the two battles for the area In 1956 Israel carried the burden of a constricting alliance with Britain and France and faced other extensive military problems The result was that Israel fought a difficult and costly battle for Abu Ageila In contrast in 1967 the Israel Defense Forces developed a brilliant operational plan and achieved effective unit command and control and attained a decisive victory **Reconstructing Rural Egypt** Amy J.

Johnson,2004-01-01 Johnson s book provides the rich and untold story of the architect behind Egypt s inspired and highly successful social reform policies The Rural Social Centers of the German educated Ahmed Hussein were the cornerstones of his project initiatives and these centers integrated social services through complete community participation His programs flourished and were used as models for rural development projects worldwide After the 1952 revolution Hussein s influence waned and he refused to participate in Gamal Abd el Nasir s development schemes Abd el Nasr s eventual obliteration of Hussein s reform projects led to Hussein s resignation Although he never again became involved in public life Hussein created a school of thought in Egypt that endures today Johnson chronicles current efforts of several organizations to revive Hussein s methods and reform agenda **Reassessing Suez 1956** Simon C. Smith,2016-04-08 The nationalization of the Suez Canal in 1956 triggered one of the gravest international crises since the Second World War The fiftieth anniversary of the Suez crisis in 2006 presented an ideal opportunity to re visit and reassess this seminal episode in post war history Although much has been written on Suez this study provides fresh perspectives by reflecting the latest research from leading international authorities on the crisis and its aftermath By drawing on recently released documents by including previously neglected aspects of Suez and by reassessing its more familiar ones the volume makes a key contribution to furthering research on and understanding of the crisis The volume explores the origins of the crisis the crisis itself and the aftermath all from a broad perspective An introduction by the editor presents the current state of the historiography and provides an overview of the debates surrounding the crisis while the conclusion by Scott Lucas not merely draws the themes of the book together but also explores the crisis in its regional and international context Within the overall context of focussing on the international and military aspects of the crisis it is an explicit intention to embody in the contributions the multifaceted nature of Suez Although Britain as in many ways the principal actor is strongly represented there are also highly original chapters on both the regional and international dimensions to the crisis and crucially the interaction between the two As well as exploring the role of the main protagonists essays also deal with American Jordanian and Turkish reactions to the invasion

The overall result is an innovative thought provoking and wide ranging reassessment of Suez and its aftermath which at a time when the Middle East once again holds the world's attention is particularly appropriate

Futile Diplomacy, Volume 4 Neil Caplan, 2015-05-15 This book first published in 1997 focuses on the Anglo American cooperation which began during the relatively uneventful years 1953 and 1954 and which led to a covert operation code named Alpha which aimed unsuccessfully at convincing Egyptian and Israeli leaders to consider a settlement through secret negotiations As with the other three volumes that make up *Futile Diplomacy* this volume comprises Dr Caplan's expert in depth analysis with a wealth of primary source documents making this a key reference source in the study of the Arab Israeli conflict

The Egyptian Intelligence Service Owen L. Sirrs, 2010-02-25 This book analyzes how the Egyptian intelligence community has adapted to shifting national security threats since its inception 100 years ago Starting in 1910 when the modern Egyptian intelligence system was created to deal with militant nationalists and Islamists the book shows how the security services were subsequently reorganized augmented and centralized to meet an increasingly sophisticated array of challenges including fascism communism army unrest Israel France the United Kingdom conservative Arab states the Muslim Brotherhood and others The book argues that studying Egypt's intelligence community is integral to our understanding of that country's modern history regime stability and human rights record Intelligence studies have been described as the missing dimension of international relations It is clear that intelligence agencies are pivotal to understanding the nature of many Arab regimes and their decision making processes and there is no published history of modern Egyptian intelligence in either a European language or in Arabic though Egypt has the largest and arguably most effective intelligence community in the Arab world This book will fill a clear gap in the intelligence literature and will be of much interest to students of intelligence studies Middle Eastern politics international security and IR in general

The Post-Imperial Age: The Great Powers and the Wider World J.P.D. Dunbabin, 2014-07-15 This volume looks at the impact on the wider world of the end of the European empires and their replacement by a new international order dominated by East West rivalries After surveying the decolonization process the book looks successively at the different patterns of experience in Southern Africa South East Asia and India East Asia and the Pacific the Middle East and the Americas It concludes with a sustained analysis of the International System the functioning of international organizations and the global role of money and trade

The Quest for Hegemony in the Arab World Elie Podeh, 1995 This study offers us a fascinating survey of the struggle for Arab hegemony between Iraq and Egypt as portrayed by the events surrounding the question of Middle Eastern defence 1945-58 and accentuated by the struggle over the Baghdad Pact

Four Arthurian Romances 12th cent. de Troyes Chrétien,

Divided City Kai Bird, 2010-07-08 Crossing Mandelbaum Gate is a vivid memoir of an American boy growing up in the midst of the Arab Israeli conflict three major wars and three decades of political upheavals in the Middle East Set in Jerusalem 1956 1958 Beirut 1970 Saudi Arabia 1962 1965 Amman and Cairo 1965 1967 Bird's book explains through a blend of memoir and history why the

Western experience in the Middle East has been so turbulent Through Bird's Zelig like presence the reader experiences the Suez War of 1956 the June 1967 War and the Black September hijackings of 1970 that led to the Jordanian Civil War Bird's memoir shows how all of these momentous events led to the rise and tragic downfall of a secular Arab nationalist ethos only to be replaced by the rise of a fundamentalist politically reactionary Islamist movement The narrative history tells the stories of such illuminating figures as life long Jerusalem resident George Antonius author of *The Arab Awakening* and his charismatic wife Jordan's King Hussein and his CIA connections the businessman Salem bin Laden Osama's older brother and a family friend Saudi kings Faisal and Khalid President Nasser of Egypt and Leila Khaled the striking young Palestinian radical who hijacked one of the Black September planes The son of a U S Foreign Service officer Kai Bird spent his formative years with the Arabs but he ended up marrying the only daughter of two Holocaust survivors This Shoah survival story becomes a part of Bird's own personal narrative and provides him with a deeper understanding of the historical relationship between the destruction of European Jewry and the Arab Israeli conflict This extraordinary memoir by a Pulitzer prize winning historian sheds new light on all the wars of the Middle East fought in the name of identity

The Merveilleux in Chrétien de Troyes' Romances Lucienne Carasso-Bulow, 1976 **The Sacred Books of the East** Friedrich Max Müller, 1895

Gaina Sûtras, 1895 *Illustrating the Phaenomena* Elly Dekker, 2013 In this volume all extant celestial maps and globes made before 1500 are described and analysed It also discusses the astronomical sources involved in making these artefacts in antiquity the Middle Ages the Islamic world and the European Renaissance before 1500
