Language and Verbal Art Revisited Donna R. Miller, Monica Turci, 2007-04 This volume meant for both specialists and non specialists will appeal to both the growing number of scholars working in and students needing to investigate the field of literary linguistics or stylistics Aesthetic and Philosophical Reflections on Mood Birgit Breidenbach, 2020-04-19 This study explores the concept of Stimmung in literary and philosophical texts of the modern age Signifying both mood and attunement Stimmung speaks to the categories of affective experience and aesthetic design alike The study locates itself in the nexus between discourses on modernity existentialism and aesthetics and uncovers the pivotal role of Stimmung in 19th and 20th century European narrative fiction and continental philosophy The study first explores the philosophical and aesthetic origins and implications of Stimmung to then discuss its role in the narrative fiction of three key authors of modern literature Fyodor Dostoevsky Samuel Beckett and Thomas Bernhard These readings demonstrate a significant shift towards an aesthetic of affective intensity and immediacy in which the experience of the reading process takes centre stage as each author develops an aesthetic philosophy of Stimmung in their own right Through its focus on the concept of Stimmung the study thus unearths a fundamental link between existentialist concerns and narrative practice in modern literature On Some Plants

Hennig, 2017-11-16 Fusing speculative realism analytical and linguistic philosophy this book theorises the fundamental impact the experience of reading has on us In reading language provides us with a world and meaning becomes perceptible We can connect with another subjectivity another place another time At its most extreme reading changes our understanding of the world around us *Metanoia* meaning literally a change of mind or a conversion refers to this kind of new way of seeing To see the world in a new light is to accept that our thinking has been irrevocably transformed How is that possible And is it

merely an intellectual process without any impact on the world outside our brains Innovatively tackling these questions this book mobilizes discussions from linguistics literary theory philosophy of language and cognitive science It re articulates linguistic consciousness by underlining the poetic creative moment of language and sheds light on the ability of language to transform not only our thinking but the world around us as well **Problems of the Softwood Lumber Industry,**
