perception of the body and the problems of global and homogenised culture      Transhumanism and the Image of God Jacob Shatzer,2019-04-09 Examining the transhumanist movement biblical ethicist Jacob Shatzer grapples with the potential for technology to transform the way we think about what it means to be human Exploring the doctrine of incarnation and topics such as artificial intelligence robotics medical technology and communications tools he guides us into careful consideration of the future of Christian discipleship in a disruptive technological environment      **Sociocultural Studies and**

**Implications for Science Education** Catherine Milne,Kenneth Tobin,Donna DeGennaro,2015-07-15 The chapters included in this book address two major questions what are some of the methodological and theoretical issues in sociocultural research in urban education and science education and what sort of questions do technological and virtual contexts raise for these types of research perspectives The chapters build off Ken Tobin s personal history of sociocultural research in science education and as they do each chapter asks philosophical sociological and or methodological questions that inform our understanding of the challenges associated with conducting research in experiential and virtual contexts

*Reconceptualizing Mental Illness in the Viral Age* Elliott B. Martin, Jr.,2024-07-03 Reconceptualizing Mental Illness in the Viral Age Souls in the Machine reframes the pop culture milieu of the current state of mental illness and mental wellness in the post COVID era The profound psychological trauma left in the wake of the neuro exhaustion engendered by this explosive epoch has created the perfect atmosphere cybersphere for another historical Great Awakening Previously infectious ideas infrequently led to moral and psychological upheaval However with mass social and popular media now comprising the psychosocial milieu from which emerge today s social contagions the speed ease and facility with which ideas infect and commandeer the cybersphere is so profound as to be mentally devastating Techno psychopathologies have hyper evolved In an age of overwhelming distraction and irresistible technology the one certainty amid the chaos is that the current standard of conceptualizing mental illness through checklist diagnostics has been outdated since the digital era began The human mind is now fundamentally different      **Collaborative Art in the Twenty-First Century** Sondra Bacharach,Siv B.

Fjærestad,Jeremy Neil Booth,2016-05-05 Collaboration in the arts is no longer a conscious choice to make a deliberate artistic statement but instead a necessity of artistic survival In today s hybrid world of virtual mobility collaboration decentralizes creative strategies enabling artists to carve new territories and maintain practice based autonomy in an increasingly commercial and saturated art world Collaboration now transforms not only artistic practices but also the

development of cultural institutions communities and personal lifestyles This book explores why collaboration has become so integrated into a greater understanding of creative artistic practice It draws on an emerging generation of contributors from the arts art history sociology political science and philosophy to engage directly with the diverse and interdisciplinary nature of collaborative practice of the future

Women and the Politics of Representation in Southeast Asia Adeline Koh, Yu-Mei Balasingamchow, 2015-06-03 Singapore and Malaysia are rapidly modernising globalising Asian states which although being distinct nations since 1965 share common elements in the on going struggle over the meaning of gender and sexuality in their societies This is the first book to discuss a range of discourses around gender in these two countries Women and the Politics of Representation in Southeast Asia Engendering Discourse in Singapore and Malaysia seeks to give an overview of how gender and representation come together in various configurations in the history

and contemporary culture of both nations It examines the discursive construction of gender sexuality and representation in a variety of areas including the politics of everyday life education popular culture literature film theatre and photography Chapters examine a range of tropes such as the Orientalist Sarong Party Girl the iconic Singapore Girl of Singapore Airlines and the figure of pious Muslim femininity celebrated by Malaysian NGO IMAN all of which play important roles in delineating limitations for gender roles The collection also draws attention to resistance to these gender boundaries in theatre film blogs and social media and pedagogy Bringing together research from a variety of humanistic and social science fields such as film material culture semiotics literature and pedagogy the book is a comprehensive feminist survey that will be of use for students and scholars of Women s Studies and Asian Studies as well as on courses on gender media and popular culture in Asia

*Cyber Criminology* Hamid Jahankhani, 2018-11-27 This book provides a comprehensive overview of the current and emerging challenges of cyber criminology victimization and profiling It is a compilation of the outcomes of the collaboration between researchers and practitioners in the cyber criminology field IT law and security field As Governments corporations security firms and individuals look to tomorrow s cyber security challenges this book provides a reference point for experts and forward thinking analysts at a time when the debate over how we plan for the cyber security of the future has become a major concern Many criminological perspectives define crime in terms of social cultural and material characteristics and view crimes as taking place at a specific geographic location This definition has allowed crime to be characterised and crime prevention mapping and measurement methods to be tailored to specific target audiences However this characterisation cannot be carried over to cybercrime because the environment in which such crime is committed cannot be pinpointed to a geographical location or distinctive social or cultural groups Due to the rapid changes in technology cyber criminals behaviour has become dynamic making it necessary to reclassify the typology being currently used Essentially cyber criminals behaviour is evolving over time as they learn from their actions and others experiences and enhance their skills The offender signature which is a repetitive ritualistic behaviour that offenders often display at the crime scene provides law enforcement agencies an appropriate profiling tool and offers investigators the opportunity to understand the motivations that perpetrate such crimes This has helped researchers classify the type of perpetrator being sought This book offers readers insights into the psychology of cyber criminals and understanding and analysing their motives and the methodologies they adopt With an understanding of these motives researchers governments and practitioners can take effective measures to tackle cybercrime and reduce victimization

**Research Anthology on Combating Cyber-Aggression and Online Negativity** Management Association, Information Resources, 2022-03-04 The advent of the internet and social media were landmarks in furthering communication technologies Through social media websites families friends and communities could connect in a way never seen Though these websites are helpful tools in facilitating positive interaction they have also allowed users to verbally attack and bully each other with no fear of repercussion Moreover online predators will often use these

tools to harass stalk and in some cases even lure their victims Particularly rampant among adolescents these harmful actions must be mitigated in order to safeguard the mental health and physical safety of users The Research Anthology on Combating Cyber Aggression and Online Negativity discusses the research behind cyber aggression and cyber bullying as well as methods to predict and prevent online negativity It presents policy technological and human intervention practices against cyber aggression Covering topics such as media literacy demographic variables and workplace cyberbullying this major reference work is a critical resource for students and educators of higher education libraries social media administrators government organizations K 12 teachers computer scientists sociologists psychologists human resource managers researchers and academicians The Next Digital Decade Berin Szoka,Adam Marcus,2011-06-10

Cyberfeminism in Northern Lights Malin Sveningsson Elm,Jenny Sundén,2009-03-26 What does it mean to study supposedly global media phenomena from a Nordic perspective In which ways could a Nordic feminist perspective on digital media make a difference in relation to dominant research traditions What would be particular and unique about Nordic cyberfeminism compared to the unmarked version of cyberfeminism dominating the field today These are some of the questions that this book sets out to answer Cyberfeminism in Northern Lights Digital Media and Gender in a Nordic Context pushes the boundaries of contemporary cyberfeminism significantly Against the background of an expanding body of research in the field of digital media and gender which to this date has primarily been carried out from an Anglo American perspective the book argues that feminist studies of digital media need to become more inclusive and aware of their own geographical and cultural biases and limits The book takes as its point of departure the knowledge and experiences from the Nordic countries Norway Sweden Finland Iceland and Denmark Although often grouped together under the assumed homogeneity of Scandinavia there are important differences between the countries but also certain qualities and aspects that run across national borders which make for an intriguing foundation of this book Highlighting the work of several of Scandinavia s best internet researchers this collection shows how our understanding of the intersection of gender and computer technology is both universal and cultural It s fascinating reading for anyone interested in questions of gender culture or social aspects of the internet and serves as a useful corrective for those who assume these issues can be understood without considering them from multiple cultural positions Nancy Baym Associate professor of Communication Studies University of Kansas This is a very illuminating unconventional and agenda setting collection of essays by a new generation of scholars Very Nordic in its pragmatic approach egalitarian spirit and scholarly excellence it manages to strike a global note The range depth and scope of the theoretical concerns coupled with the originality of the themes discussed casts a new light on a number of crucial issues in feminist cultural studies of science and technology A delight to read Rosi Braidotti Distinguished professor in the Humanities Utrecht University Sex and Desire in Hong Kong Petula Sik Ying Ho □ □□,A. Ka Tat Tsang □ □□,2012-08-01 Provides an exemplary model of community based research on sexual and erotic attitudes

and practices of gay men and middle aged women in Hong Kong over a span of over fifteen years      *Computerized Monitoring and Online Privacy* Thomas A. Peters,1999-01-01 Increasingly computers are a part of even the most ordinary and simple aspects of human existence Computers have changed forever how we work learn shop and seek information They have also since the 1960s been programmed to monitor and analyze in various ways the interaction between humans and themselves The rapid development of the World Wide Web in the 1990s has given new life direction and urgency to this enterprise This work describes the myriad ways benign or malign in which computers are used to monitor people s use of computers Four distinct contexts for monitoring are examined formal learning environments e g educational software information seeking environments e g online library catalogs the workplace and the Internet e g online shopping Computerized monitoring often is called an invasion of privacy and the conceptual and ethical dimensions of confidentiality and privacy in virtual environments are explored at length In addition to providing information about the various computerized monitoring tools and techniques this work focuses on the broader social conceptual ethical and legal implications      **Bodies in Flux** Barbara Braid,Hanan Muzaffar,2019-08-26 This volume offers an insight into a selection of current issues of embodiment and other related aspects such as identity gender disability or sexuality discussed on the basis of examples from contemporary culture and social life Inspired by Donna Haraway s concept of the cyborg as a transgressor of boundaries the book examines fluidity of post human bodies from cyber relations to others and to self enabled by the latest technologies through fragmented prostheticised monstrous or augmented body of popular culture and lifestyles to the dis utopian fantasies offered by literary texts showing how difficult it still is in current culture to let go of the stable boundaries towards the post gender world Haraway imagines Contributors are Dawn Woolley Anna Pili ska Barbara Braid Jana Reynolds Julio Ernesto Guerrero Mondaca Ana Gabriela Magallanes Rodr guez Katharina Vester Wojciech mieja and Hanan Muzaffar
